VOL. 43. VICTORIA, B. C., TUESDAY, AUGUST 12, 1913 NO. 36

RENEWAL OF VIOLENCE LAST NIGHT AT NANAIMO; POLICE ARE STRUCK BY STONES AND ONE MINER IS BRUTALLY BEATEN

Attorney-General's Office Appealed to and Expected to Take Hold of Situation; Increase in Number of Workers Incites Strikers to Attack; Pacific Coal Mine Manager is Victim of Assault

AUTOMOBILE CARRYING WORKERS FOLLOWED POLICE POWERLESS TO COPE WITH RIOTERS

Nanaimo, Aug. 12.—In all probability the attorney-general's department will to-day take over the enforcement of law and order in Nanaimo. A request for such action was made yesterday by his worship Mayor Shaw, following a riot by striking members of the United Mine Workers of America in which Chief Neen, of the city police force, was struck by missiles and a number of workmen returning home from the mines injured, in one instance seriously.

Ever since the strike was declared in the local mines by the U. M. W. of A., on May 1, the Western Fuel Company has had a force of twenty-four men at work keeping the mine clear of gas and water and mining coal sufficient to keep up steam in the mine boilers. Monday the force was augmented by fifteen others, including a man named Patterson, his three sons and son-in-law, who were made special objects of the displeasure of the mob.

When Patterson and his sons came off work at 3 o'clock they were placed in an automobile and whisked off in the direction of their home on Nicol street under the personal escort of Chief of Police Neen. Striking miners numbering several hundred, made an attack upon the automobile, hurled stones and other missiles at the occupants of the car, all of whom were struck and more or less injured. Neen was struck several times and a man named Bell received a deep gash in the head which required surgical attention. Patterson and his sons were more or less injured and were followed by the mob to their home. The rioters hurled stones at the residence, breaking a number of windows. One of the missiles struck a child of the Patterson family but did not injure it seriously. The city police force of regulars and specials, eight in all, was powerless to cope with the rioters who did not disperse until they had wreaked their vengeance upon the Patterson home.

At 11 o'clock Monday night the disgraceful scenes of rioting of the afternoon broke out with renewed violence. One man, a fire boss, was expected at work and a mob of men and women were expecting to give him a warm reception. His arrival in the vicinity of the shaft was greeted with the usual hooting and jeering and stone-throwing was even more in evidence than in the afternoon.

All the policemen were struck by flying missiles. Chief Neen was hit on the shoulder, Constable Shirras was struck on the neck and Constables Robertson and Young were both struck on the legs. There was no damage to property, and once the workmen descended the mine the crowd dispersed.

The rioting of yesterday was not confined to this city alone, for at 8 o'clock last night Manager Roaf, of the Pacific Coast Coal Company's mine at South Wellington was assaulted and a miner employed by the company brutally beaten by a number of striking miners who made a descent upon the cabins tenanted by company workmen, and after committing depredations made their escape into the woods. Some of the rioters were recognized, however, and a number of arrests will be made.

BRINGING CHINESE TO WORK IN COAL MINES

Two Hundred in Special Cars at Calgary En Route to Vancouver Island.

Calgary, Aug. 12.—It developed here to-day that Chinese are being shipped west to Vancouver Island to be put to work in the Vancouver Island coal mines. Which of the mines they are engaged for was not ascertained.

There are two hundred Chinese in the party. They were engaged in the east and the terms of their engagement provide they shall work as day laborers in the mines.

The Chinese are occupying three special cars of the train that bears them west.

THOUSAND DOLLARS FOR LOST TORPEDO

Japan Afraid Naval Secret Will Fall Into Hands of Foreign Power

London, Aug. 12.—Japan is afraid one of her most important naval secrets will fall into the hands of a rival power through the loss of a torpedo from the new battleship Kongo on her trial trip recently off the Irish coast. The Japanese government has offered a reward of $1,000 for the recovery of the torpedo.

This is five times the amount usually offered by the British government under similar circumstances. The explanation, according to the Pall Mall Gazette, is that the torpedoes of the Kongo are unique in construction and that they embody important secrets of construction.

The paper says the torpedo has a much longer range and is more deadly than the newest style of British torpedo. It is said to be propelled by engines worked by heated air generated by a spiral, the composition of which is the discovery of Japanese scientists and unknown to the outside world.

The Kongo is believed to be the only battleship in the world carrying such a projectile.

A big fishing fleet is searching for the torpedo in the hope of earning the unusually large reward.

OLYMPIA SURROUNDED BY FIRES IN FORESTS

Olympia, Wash., Aug 12. — While Olympia is practically surrounded by forest fires no damage has been reported yet, as all the fires seem to be confined to slashings and logged-off areas. Since Sunday night half a dozen new fires have started, the most serious one being the blaze on the logged-off lands of the Mudd Bay Logging Company, about twelve miles southwest of Olympia. There is green timber on two sides but a big force of men is fighting the blaze, so no damage is reported yet.

DIGGS TRIAL BEGINS AT SAN FRANCISCO

San Francisco, Aug. 12.—The trial of Maury Diggs, former state architect, involved as co-defendant with Drew Caminetti in charges of violation of the Mann white slave act, was resumed this morning in the United States district court before Judge William C. Van Fleet. It was believed that the government would complete its case today.

Lola Norris and Maraha Warrington, the two young women who, it is alleged, accompanied Diggs and Caminetti from San Francisco to Reno, Nev., were witnesses most anxiously awaited to be heard. Lines were formed and those who came first were permitted to enter the court room to-day.

SHUSHANNA CLAIMS PLACED UNDER BOND

Hamshaw Expedition Obtains Discovery Locations for $150,000

FEW FROM DAWSON OR FAIRBANKS ARRIVE

Unconfirmed Rumors of Sixteen Men and Fourteen Horses Drowned

PROVISIONS LANDED AT MOUTH OF DONJEK

Cordova, Alaska, Aug. 12.—Chief of Police Henneke and Al Johnson returned last evening from McCarthy, where they were several days, having left the Shushanna diggings August 2. They were three days in the new country. Henneke says practically all claims have been staked on Johnson creek and its tributaries. He says that the Hamshaw expedition has not only a number of locations, but has bonded for $150,000 the claims of James and partners at Discovery.

They have not been taking out any gold, but they are busy putting in sluice boxes.

The Hamshaw people are preparing to work this by hydraulic methods, as their rights give 1,000 miners inches of water. Stakes are at the mouth of this creek showing that it had been located for quartz in 1903.

But few of the Dawson or Fairbanks crowd had reached the diggings when Henneke left. The Dusty Diamond expedition became crippled and returned to Fairbanks.

White Horse, Y. T., Aug. 12.—There is an unconfirmed rumor here that sixteen men and fourteen horses were drowned on the way from Cordova to Shushanna. The report says the steamer Humboldt picked up a wireless despatch to that effect. All efforts to confirm the report from here have failed.

The White Pass steamer Nasutlin is back on the Yukon after landing eighty tons of provisions at the mouth of the Donjek river, ninety miles from Shushanna. From Donjek there is a good pack trail, or poling boats may be used to within 15 miles of the strike. No direct news from Shushanna for a week has been received here.

It is believed everybody is busy trying to accomplish something before the freeze up. Outfits are leaving daily by the Kluane or Coffee creek trails.

Two horses with 3,500 pounds of freight, left yesterday over the former route.

HIGHWAY ASSOCIATION ELECTS ITS OFFICERS

A. E. Todd and F. R. McD. Russell Are Vice-Presidents for British Columbia.

Vancouver, Aug. 12.—The election of officers for the forthcoming year was the most important item of business disposed of at to-day's session of the Pacific Highways Association. These were as follows:

Honorary president, Judge J. T. Ronald, Seattle; president, Samuel Hill, Maryhill, Wash.; honorary secretary, Frank M. Fretwell; vice-presidents, for British Columbia, A. E. Todd, Victoria, and F. R. McD. Russell, Vancouver; for Washington, Norman Abrams, Seattle; for Oregon, Frank Riley, Portland; for California, F. W. Jackson, San Diego, and A. W. Morrison, San Francisco; for Arizona, to be selected by the executive committee; for Yukon Territory, Dr. Alfred Thompson, M. P.; for Alaska, Falcon Joslyn.

The erection of an arch to celebrate one hundred years of peace between Canada and the United States, at the point where the Pacific highway crosses the international boundary was discussed, and a committee consisting of J. T. Ronald, F. R. McD. Russell, J. J. Donovan, W. W. Foster, Percy Fuller, N. B. Abrams French, F. B. Riley, Samuel Hill, Henry L. Bowlby, F. M. Fretwell, S. Gintzberger, Mayor Baxter, A. E. Todd, William Wallison, H. Hitton, A. W. Gould, E. Brown and Frank Mackenzie was appointed to discuss the advisability of erecting such an arch and to devise ways and means of raising the money amongst members of the Pacific Highway Association.

ESPIONAGE CHARGED TO GERMAN OFFICER

Case Considered as Disastrous as That of Col. Redl of Austria.

Stettin, Germany, Aug. 12.—The arrest last evening of Captain Stein, of the third regiment of Field Artillery on a charge of espionage is considered in military circles likely to turn out as disastrous for Germany as was the case of Col. Alfred Redl for Austria. While the Third Field Artillery was exercising on the manoeuvre grounds in Hammerstein, Monday, the colonel sent an apparently harmless summons to Captain Stein. The captain suspected, and immediately fled to the railroad station, whence he departed on the first train. A telegram sent to the next station brought about his arrest.

The case of the Austrian colonel, Redl, caused a great sensation. He was chief of the general staff of the Ninth Austrian Corps, and was accused of treachery while exercising his functions. The information he was alleged to have sold to foreign governments was of such an important character that the German government as well as the Austrian authorities was forced to make a complete change in its mobilization plans. Redl committed suicide on May 26, while under arrest.

GIBBS ASKS SQUARE DEAL FOR GOVERNOR

Democrat Blushes for His Party Over Treatment of Sulzer

ALBANY ADOPTS THE IMPEACHMENT MOTION

Report of Endeavor to Stop Legislature by Injunction Process

CHARGE FALSIFICATION OF CAMPAIGN ACCOUNT

Albany, N. Y., Aug. 12.—The report of the Frawley committee, charging Governor Sulzer with having diverted campaign contributions to his own private use, as adopted by the legislature early to-day, and a resolution to impeach him for wilful and corrupt conduct in office and for high crimes and misdemeanors, was offered in the assembly to-day by Majority Leader Levy. Minority Leader Hinman, supported by Assemblyman Gibbs, a Democrat, urged more delay.

Gibbs turned to face the majority leader and thundered his opinion of the assemblymen of his own party. "If William Sulzer were the greatest wretch that ever crawled this earth," he said, "you are not giving him a square deal. I blush for my party and its leadership to have to say so."

A substitute motion, calling for a week's delay in considering the impeachment was lost by a vote of 39 to 82, and the House then adopted the Levy motion to consider the impeachment resolution at its session this afternoon. The vote on this motion was 84 to 36.

A general report was current among senators and assemblymen early to-day that friends of Governor Sulzer were endeavoring to obtain an injunction to stop the legislature at its session from consideration of impeachment proceedings.

The Frawley committee report and the Levy resolution charge the governor with having falsified under oath his campaign contribution account, diverting some of the funds to his own use for the purchase of stocks, trading executive approval of bills for support of his direct primary measure, and having done everything in his power to obstruct the committee's efforts to bring proof of his alleged misconduct to light.

VESSELS ARE CONGESTED AT PORT OF MONTREAL

Harbor Commissioners Profess Ignorance of Condition in Grain Business.

Montreal, Que., Aug. 12.—With 20 grain steamers held up unable to discharge their cargoes, the port of Montreal has reached a more acute stage of congestion than ever before this year. The harbor commissioners profess ignorance of any congestion, one of them saying that no mention was made at the regular meeting yesterday of any ships waiting to unload, and that he does not know the names of the steamers now idle in the harbor. The number of idle vessels has been swollen to twenty, and a large fleet is also on its way down the St. Lawrence to this port. Among the ships laying at anchor waiting their turn to discharge grain at the harbor commissioner's elevator are: Compton, Gaspe, Mannie, Cobourg, Brechton, Condor, Valencia, Muskoka, Edderton, Edmonton, Panther, Madonna, Robert Wallace.

This state of affairs is due to a regulation of the harbor commissioners which forbids mixing. W. James Carruthers, who was the chief dealer to urge the grain commission when it met here about two months ago, that a business-like direction of the elevators, together with a seaboard inspection of grain was essential, claims to have had the saneness of his arguments strikingly shown by the present congestion. Mr. Carruthers is of the opinion, however, that adequate facilities for handling grain here, due to the ever-increasing volume of business, would not be righted if the capacity of Montreal elevators was ten million bushels instead of five million, as it is at present.

KILLED BY STREET CAR.

Vancouver, Aug. 12.—A laborer named Philpott was run over and instantly killed at Daw road by a B. C. Electric tram at 9.15 this morning. It is understood the man was crossing the tracks behind an outgoing train and was struck by an incoming car. He was frightfully cut to pieces, dying instantly.

STRIKE CONFLICT IN ITALY.

Pisa, Italy, Aug. 12.—This is the only city in Italy where the strike has become general. Several conflicts occurred to-day between the strikers and the police. Both sides sustained many casualties.

HOLDS COLLISION INQUIRY.

Quebec, Que., Aug. 12.—Evidence was given to-day, at the inquiry by the wreck commissioner, Captain Lindsay, into the collision between the steamer Crown of Cordova and the Lady of Gaspe, in the St. Lawrence river on July 29. J. Gauthier, of the signal service at Three Rivers, said that figures had been altered in the weather records, but he had not known by whom. He did not write up the statistics collected.

JAPAN WILL NOT RECEIVE DIAZ AS AN ENVOY; MEXICAN GENERAL IS SURPRISED BUT WILL NOT CHANGE PRESENT PLANS

Man of Destiny Has Friendly Feeling for Canadians and British in Mexico Who Have Won National Reputation for Minding Their Own Business; Policy is to Welcome Canadian Capital in Republic

IS PRESIDENTIAL CANDIDATE NEXT OCTOBER HAS PRONOUNCED VIEWS ON INTERVENTION

Tokio, Aug. 12.—The Japanese government intimated to-day to the Mexican government that it would not receive General Felix Diaz as special envoy to Japan to express the thanks of Mexico for Japanese participation in the Mexican centennial. It declared that it would receive General Diaz only as a private individual.

Vancouver, Aug. 12.—"This is news to us. Unless I receive instructions from Mexico City to the contrary I shall not change my plans for visiting Japan," said General Felix Diaz when shown the above despatch at the Hotel Vancouver this morning.

The envoy, who spoke through an interpreter in the person of Senor Jose Romero, first secretary, was deeply surprised at the contents of the Tokio press cable despatch. The eagerness with which he listened to the reading of the brief message showed the deep interest he took in the subject of his proposed official visit to Japan.

Further declining to express any opinion as to the probable correctness of the cable despatch the General requested the Associated Press to furnish him with any additional developments that might occur during his stay in this city.

Will Sail on Empress.

General Diaz, who is one of the chief actors in a thrilling drama now unfolding itself on the Mexican stage with the entire world as spectators, reached here last night from Seattle.

The general will sail to-morrow on the Empress of Russia for Japan as a special envoy to convey to the Mikado appreciation of Mexico of the courtesy of Japan in sending a representative to attend the celebration of the centennial of Mexican independence in 1910.

The famous general is accompanied by a retinue of military aides. After dinner last night the general devoted half an hour replying to half a score of telegrams and cables that awaited his arrival.

While members of his suite and the ladies went for a short drive about the city, the envoy received a number of visitors, including Ewing Buchan, manager of the Vancouver branch of the Bank of Hamilton, who had been instructed to make certain financial arrangements in connection with the Japanese trip. After breakfast to-day the ladies set forth on a shopping expedition while the general resumed his correspondence. The receipt of numerous telegrams during the morning indicated that he is keeping in close touch with his government.

Presidential Candidate.

Diaz is being closely guarded. Two secret service agents of the United States government are also here to keep a close watch of his movements.

"The man of destiny," as the general is regarded by millions of his countrymen, will be the candidate for the presidency of the republic of Mexico in the general elections to be held October next, running as a Liberal-Democrat.

"I cannot believe that the United States government has ever contemplated seriously the possibility of intervention in Mexican affairs," declared General Diaz in reply to a question. He spoke with an air of conviction and sincerity.

"Knowing the Mexican people as I do, I feel certain that Mr. John Lind, the special envoy of President Wilson, will be kindly treated and hospitably entertained during his stay in Mexico.

"When I left home on July 19 everything indicated the termination of our domestic troubles. This in itself is the main reason why Mexicans of all shades of opinion would resent any interference in our internal affairs. The so-called revolution is wearing itself out. It is now confined to only two or three out of twenty-seven states or provinces. Deplorable as has been the loss of life and property in this fratricidal war, good will eventuate and our distracted country will soon be restored to the enjoyment of stable government and a progressive national policy.

Intervention Unthinkable.

"Every civilized nation on earth has recognized our government with the exception of the United States, and I feel hopeful that President Wilson and his advisers will do likewise. Intervention by a foreign power in our domestic affairs is simply unthinkable," declared the general with vigor. His eyes flashed fire.

Although no unkindly reference was made to the American people, General Diaz went out of his way to pay a high tribute to the British people, especially Canadians.

"I feel quite at home on British soil," said he.

"This is not my first visit to Canada by any means, and I count many Canadians among my personal friends. I want to enjoy a holiday in Eastern Canada. There are many Canadians and other British subjects in Mexico. They have won the national reputation for minding their own business. It has always been, and will continue to be, the policy of the Mexican people to welcome investment of Canadian capital in Mexican enterprises. The Bank of Montreal has a flourishing agency in the city of Mexico."

Posterity Is to Judge

The conversation then drifted to the subject of the revolution of last winter, resulting in the downfall of the Madero government. His observations in regard to that tragic affair are probably the first he has ever uttered to the press.

"Posterity," he declared with energy, "will some day judge who have been the patriots throughout the troubles that have befallen my country. The late Madero government was only a government in name. It had the support of a horde of grafters, but not the genuine sympathy of the Mexican people. From the very outset its acts were characterized by the boldest pilfering and jobbery. It did not take many months to squander the $60,000,000 Mexican reserve fund left in the treasury when my uncle, General Porfirio Diaz, retired from office. The country prior to my action and that of others in raising the standard of revolution was in a state of chaos. We took up arms with the firm determination to risk our lives in order to secure tranquility, suppress internal disorders and to restore law and order. That task is now within sight of being accomplished."

NOSEBAG CRUSADE MADE PROTEST TO POSTMASTER

Fisk Tells Woman to Use Influence and Get Him Ten More Horses.

San Francisco, Aug. 12.—A state of feminine militancy was given to the people of San Francisco to-day when four women started a crusade against nosebags for horses. Invading the business district, they hunted out horses that were feeding from the customary canvas bags, and without ceremony or apology and despite protests from teamsters, hurled all the feed bags they could find into the gutter.

The crusaders were members of the Animals' Friend Society, which disapproves of nosebags.

After they had scattered nosebags and oats in the gutters of several streets, the women sought out Postmaster Arthur Fisk and protested against the long hours and hard work to which the horses in the postal service are subjected.

Postmaster Fisk listened to their arguments and told the women there was much merit in what they had said. He suggested that the Animals' Friend Society use its good offices to try to get ten more horses for the San Francisco post office.

PACIFIC COAST FISH IS WANTED IN EUROPE

Trial Shipments of Halibut and Herring for Germany This Season.

Ketchikan, Alaska, Aug. 12.—F. Klevenhauser, head of a large fish importing company of Bremen, Germany, who has come north to visit the different fish centres as well as make contracts for the season's catch, says there is an ever-widening demand in Europe for fish from the Pacific coast. Especially mild-cured fish and salmon find a ready sale.

Last year the Bremen company experimented along this line, buying frozen halibut and this business will be greatly enlarged when the company has extended its operations. Forty carloads of frozen steelheads from the Pacific coast were marketed in Germany and now it is proposed to make trial shipments of halibut and herring.

Germany is regarded as the best market in Europe for pickled fish. Mr. Klevenhauser is accompanied by C. H. Joseph, manager of the company's plant at Wrangel.

The company also has a large plant at Astoria, Oregon.

LIND'S MESSAGE IS READY TO PRESENT

Huerta Thanks Former Ambassador for Justice of His Views

BRITISH GOVERNMENT AUTHORIZES STATEMENT

Recognition Was That of Provisional President Pending an Election

FRANCE AND GERMANY TOOK SIMILAR STEPS

Mexico City, Aug. 12.—The message of the state department at Washington, which John Lind has for President Huerta is ready for presentation. At least a part of the state department's desires are expressed in a document which was translated into Spanish to-day.

President Huerta and Henry Lane Wilson, former United States ambassador to Mexico, have exchanged telegrams on the subject of Mr. Wilson's attitude on the questions between the United States and Mexico. The despatch of President Huerta says: "The Mexican republic through myself, thanks you for the justice with which you expressed yourself regarding the government of this country."

Mr. Wilson in acknowledging the telegram expressed the belief that wise counsel would prevail, and that an honorable settlement of the questions at issue compatible with the dignity of both countries would be reached.

N. A. Jennings and Marvin Farre, the two United States newspaper correspondents who were arrested last night and held by order of the minister of the interior were released to-day.

Washington, Aug. 12. — Charge O'Shaughnessy cabled the state department to-day that the situation in Mexico City was peaceful and quiet. His message was gratifying to administration officials, who desire that all misunderstandings which the Mexican government may have as to the intentions of the United States shall be cleared up before any further steps are taken in the peace policy of President Wilson.

London, Aug. 12.—Regarding recognition of the Huerta provisional government of Mexico the British government issues the following statement:

"The recognition of President Huerta was the recognition of a provisional president pending an election. It was done on the advice of the British minister to Mexico, as being likely to assist in the restoration of order, which is an important consideration in view of the large amounts of British money involved.

"The French and German governments also recognized President Huerta after a reception by him of the whole diplomatic party, at which a congratulatory speech was made in their behalf by the United States ambassador."

The Daily Chronicle in an editorial says it considers President Wilson's demand that President Huerta renounce the presidency of Mexico is a curious experiment in foreign diplomacy, and one scarcely likely to be carried through easily.

"A proud race like the Mexicans and the president with a fairly strong backing," the editorial says, "are very unlikely to surrender, and we doubt if the United States would really care to face the stupendous task of reducing Mexico by force of arms.

"Mr. Wilson's demand for a general election almost borders on the ludicrous because there is no such thing in Mexico as an election by ballot as the ballot is understood in great democratic countries."

Arguing that it is impossible for Mexico to obtain money until the United States recognizes Huerta, and that without money the country is bound to drift into anarchy, the Chronicle considers that the best and safest course would be to recognize Huerta and give his government an opportunity to redeem his pledges of progress. If he failed then, it adds, the time will have come for stronger action.

TRIPLE DROWNING AT SEABRIGHT YESTERDAY

Halifax, Aug. 13.—Ainsley Collishaw, 32 years old, his three-year-old son Edward, and his nephew, Claude Allen, aged 15 years, were drowned at Seabright, 23 miles west of Halifax, yesterday afternoon, when a sailboat overturned in a heavy squall. The three were precipitated into the water. Assistance put out from the shore and the child was found, but efforts at resuscitation failed.

SHOT BY BANK ROBBERS.

West Liberty, Ia., Aug. 12.—Former Mayor L. W. Swan was shot, the safe in the local post office partly wrecked and street lamps shot out by three bank robbers, early to-day. Swan received a load of buckshot in his left eye. The robbers fled.

NEW ZEALAND TRADE WITH CANADA GROWS

Percentage Remains Less Than Many Non-Preferential Countries

Ottawa, Aug. 12.—While Canada's trade with New Zealand is steadily increasing, according to the report of Trade Commissioner Beddoe, her percentage of New Zealand trade is less than that of many countries which have no preferential treatment. For the fiscal year ending March 31, imports from Great Britain were 59.2 per cent of the total, that of Australia, 12.9 per cent., from the United States, 9.8 per cent., and from Germany, 3.1 per cent.

New Zealand extends preferential treatment to Canada over a certain list of articles, and in the fiscal year ending March, 1913, it worked out. Imports from Canada under the preference were valued at $968,450, and imports, in respect of which there was no preference, were valued at $1,070,760.

Exports from New Zealand to Canada for the fiscal year were valued at $2,943,503. For the eleven months ending February, 1913, New Zealand sent $1,334,270 worth of butter to Canada under the preferential tariff.

The report of Commissioner Arnaud, of Briston, to the department of trade and commerce, contains very interesting comments on the half year's trade with Great Britain.

The United Kingdom, during the six months ending June 30, imported $60,300,000 worth of butter. New Zealand supplied $5,400,000 worth. Canada sent none, being now an importer of butter. Great Britain, in the same period, imported cheese to the value of $13,500,000, of which Canada supplied $3,128,000 worth, and New Zealand, $7,330,000.

FERDINAND SENDS CHILDREN MESSAGE

Bulgarian King Would Have Next Generation of Soldiers Remember the War

Sofia, Aug. 12.—King Ferdinand issued a pathetic address to the army. In it he thanked his soldiers for the bravery and devotion they displayed in the war against the "Treacherous Allies," and declared that "their efforts would have been crowned with success had not a series of political circumstances paralyzed our strength."

"Pressed on all sides," the address continued, "we were obliged to sign the treaty of Bucharest, our country not being in a condition to struggle on. Exhausted and tired, but not conquered, we had to furl our glorious standard until better days. Tell your children and your grandchildren about the gallantry of the Bulgarian soldiers, and prepare them to complete one day the glorious work you began."

Cologne, Aug. 12.—The Berlin correspondent of The Cologne Gazette says the telegrams exchanged on Saturday between Emperor William and King Charles, of Roumania, felicitating each other on the signing of the Balkan peace treaty, plainly indicated Germany's position toward the Bucharest compact. There is no necessity, the correspondent adds, for Germany to participate in any effort to force an alteration of the treaty, which is true also of the other European powers, and this means that any European campaign against the treaty is out of the question.

New York, Aug. 12.—The recent war in Southeastern Europe ended by the signing of the treaty of Bucharest, has brought much suffering and want to the people of Bulgaria. Conditions are so bad that Rev. Elmer E. Count, superintendent of Methodist missions for Bulgaria, has sent a cablegram from that country to H. L. Bridgeman, of the Brooklyn Standard Union, asking for help. The message says:

"There is great and appalling need among the thousands of refugees who have fled to Bulgaria to escape the ravages of the cruel war prosecuted by Greeks and Turks in Macedonia. Scores of villages and hundreds of homes have been destroyed, and misery, want and dire distress are to be found on all sides. Bulgaria appeals to the benevolent for sympathy and material aid."

MRS. M. A. MACDONALD DIES AT VANCOUVER

Many Friends Mourn Loss of Prominent Women's Canadian Club Member.

Vancouver Aug. 12.—Sad indeed were the tidings which passed from home to home early last evening of the death of Mrs. M. A. Macdonald, wife of the president of the Provincial Liberal Association, in the General hospital. She died at 7.15 last evening under particularly pathetic circumstances, after a week of illness, during which time the ultimate result was feared by her attending physicians.

Mrs. Macdonald was 29 years old and had been a resident of Vancouver since January, 1912. During that time, however, her interests have made her a valued member of the Women's Canadian Club and of the various women's movements of St. Andrew's Presbyterian church. The news of her death caused many a pang throughout the city among those who have learned to number her among their intimate and loved friends. She is survived by her father, Senator Baird, who is on his way to Vancouver from the east, and two brothers, George S. Baird, of Fredericton, N. B., and Herbert Baird, of Andover, N. B.

CONFISCATE WINE AT CELEBRATION OF BIRTH

Bridgeland Couple's Plans for Rejoicing Over First-Born Stopped by Police.

Calgary, Aug. 12.—In order to rejoice over the advent of their first born, Mr. and Mrs. Adam Nicholos, of Bridgeland, got in a store of wine, but the wine part of the celebration at least was doomed to fall flat, for the detectives got wind of the preparations and last Saturday night paid a visit to the tent at the rear of Nicholos' house and confiscated twenty-three 5-gallon kegs of beer, seven gallons of wine and one gallon of whiskey.

The wine was, with all other luxuries, intended for to-day, but when the day dawned the happy guests were disappointed.

Adam Nicholos has been married for ten years and the first baby has just been born. It is not thought that any proceedings will be taken against Mr. Nicholos, for it seems that the police seized the liquor to prevent a fight. The two invariably go together in a celebration in that part of the city.

THRILLING RECUES OCCUR AT PORTLAND

Portland, Or., Aug. 12.—Thrilling rescues were made in Salem early today by the guests of the Hotel Marion when two lodging houses were burned across the street from the leading hostelry. A half dozen families occupied the houses and these, shut off by burning stairways were carried from the blazing buildings down ladders.

Women and children were carried to safety before the arrival of the fire department. The fire started in an all-night restaurant, and caused damage to the extent of about $25,000.

COURTENAY THRIVES IN BUILDING WORK

Much Construction and Industry in North Island Centre Race-Track Planned

Courtenay, Aug. 8.—Undoubtedly Courtenay and the Comox Valley district will prove to be one of the most prosperous and go-ahead places on Vancouver Island, and this is exemplified by the great building activity in Courtenay itself. Courtenay will be one of the three divisional points established by the Canadian Pacific railway in their Vancouver Island division. In addition to this the latest survey made by the Canadian Northern Railway Company brings them within 300 yards of the C. P. R. depot, thus making Courtenay one of the fortunate towns on the Island which will have two important railways.

The buildings lately erected and under the course of construction include the $20,000 addition to the Riverside hotel, which is now a handsome structure, fitted with every convenience and equipped with its own electric light plant. There are also the Marocchi bakery, Tarbell hardware, etc., and McWean's general stores buildings now rapidly being raised.

The Royal Bank of Canada and the Canadian Bank of Commerce are also building new premises, and the Courtenay hotel is making a great improvement by erecting a large wing and enlarging generally, at a cost estimated at over $10,000. The Comox Co-operative Society have also begun their new block and it will shortly be completed.

In addition the government has made a grant of $5,000 for a new post office, also $3,500 for a court house and jail, both of which will be in course of construction very shortly. Dr. Millard, of Courtenay, is erecting a three-storey building on his property close to the main street for offices, and the Presbyterians have already commenced their new building.

Private houses are being erected as speedily as possible to accommodate the increasing population, but at present large numbers are living under canvas until they are completed, and the hotels are crowded. As an example of the go-ahead nature of Courtenay people, several of the sport-loving fraternity are now working hard on the construction of a race track, which will cost $20,000.

Courtenay is the centre of the Comox Valley district, the best agricultural part of the Island, and is practically the headquarters of the Comox Logging & Railway Co., which has the largest logging camps in the world, employing as they do nearly 1,000 men, with an output of a monthly average of 16,000,000 feet of lumber. The company has twelve logging machines in use and about 100,000 acres of timber, which is computed will last for thirty years or more.

Vaino Numela, a Finlander and head loader of Camp 4, met with his death on Tuesday by a log falling on him. While loading logs he got under one to knock a block out and the log dropped. When the log was lifted off him he rose to his feet and walked a distance of thirty feet or more and then fell unconscious. He was immediately placed on a train and hurried to Courtenay, but expired on the way.

The jury brought in a verdict of accidental death.

NATIVES SAY THAT ISLAND HAS MOVED

Bogoslof, the Behring Sea Freak, Reappears in Entirely New Position.

Seattle, Wash., Aug. 12.—Bogoslof Island, the famous freak volcanic island of Behring Sea, is again performing contortions, and every volcano of the vast mountain range of Western Alaska and the Aleutian islands is emitting smoke, steam or vapor, according to Capt. C. O. Crisp, of the revenue cutter Unalga, which returned to Seattle yesterday from her first cruise to Behring Sea. The Unalga sailed from Seattle on May 1, visiting Nushagak on Bristol Bay, the Pribiloff islands, Sumagin islands, and sailed to the westward as far as the island of Attu.

Natives told Captain Crisp that the island entirely disappeared for a time, and when it reappeared above the surface its shape was different, and it was several hundred yards from its former position.

Captain Crisp reports that during the cruise of the Unalaga she visited all of the Indian villages on the Aleutian group of islands west of Unga, looking after the interest of the natives and to ascertain their condition, and to take the census of the various villages. The natives were found in a deplorable condition, many suffering from tuberculosis.

It was ascertained that in all villages where the government does not provide medical attention the death rate is on the increase, and that there are two deaths to one birth.

ACCIDENTAL DEATH TAKES SIX MONDAY

Grand Forks, N. D., Aug. 12.—Six accidental deaths are reported within the state Monday. Near Haynes a sheepherder, James Bovady, was killed while fording a shallow stream. He stumbled, striking his head against a rock and was drowned.

At Haddock, Joseph Kirksby, aged 13, while hitching a team was kicked in the stomach, death resulting within a few minutes. The 15 months old child of M. Hoffer, of McClusky, was drowned in a waterpail while both parents were absent. John Wisenberger, jr., a farmer living near Jamestown, was struck by lightning while riding on a load of hay and killed. Ole Litschem, farmhand, was killed in a runaway at Tioga. An unidentified man dropped dead from sunstroke near Tioga.

One Of the Best Appetisers Sherry

If you're run down—have no appetite—take a little SHERRY three times a day and see how much better you'll feel. Our stock of SHERRIES, like all our other wines and liquors, comprise the best brands obtainable, such as—

HUDSON'S BAY HIRES CALGARY STREET CARS

Fur Traders and Commercial Directors Assemble at Calgary Next Monday

Calgary, Alta., Aug. 12.—The entire street car system of Calgary has been hired by the Hudson's Bay Company for the afternoon of Monday, August 18, the day when their mammoth new Calgary store is to be formally opened by the Hon. G. H. Bulyea, lieutenant-governor of Alberta.

Arrangements have been made whereby the sixty-five cars of the municipal street railway system will be owned by the company for four hours on that day and the entire population of Calgary will be invited to ride free between the hours of 2 and 6 o'clock in the afternoon. Every citizen who takes the street car to and from the opening ceremonies will thus be the guest of the great company.

It is not known what the Hudson's Bay Company has agreed to pay the city of Calgary for the privilege of owning sixty-five street cars for half a day, but it must be a large sum, as the Calgary municipal railway does an enormous business and pays very high returns to the ratepayers who own it.

The entire system will be free no matter in what direction patrons are bound and regardless of whether they are coming to attend the opening of the store or not. The officials of the company, however, fully expect that the store will be inspected on the opening day by 90 per cent of the women of Calgary and that thousands of men also will be present.

One of the most unique gatherings ever held in western Canada will take place here Monday next, when the managers of all the Hudson's Bay Company's stores will attend a banquet to be given in the new Calgary store in honor of the opening which takes place on that day.

The Hudson's Bay Company has some sixteen stores scattered throughout the west, by far the largest system in Canada, and with possibly one or two exceptions the heads of all these various units will assemble at Calgary on August 18 to attend the opening of the new store which has been erected and equipped at a cost of two million dollars.

At the banquet will be a number of the company's fur traders. It will be a meeting of the new and the old, the mingling of the men engaged in the company's old and exclusive business of buying furs and those who represent its new and great mercantile policy.

SENTIMENT IS INTENSE OVER ALSACE-LORRAINE

Ottawa, Aug. 12.—The patriotism of the people throughout the provinces of France is unbounded," says E. B. Devlin, K. C., M. P., after returning from a trip to Europe. Mr. Devlin was in the Chamber of Deputies when the three-year military rule was passed. In the Chamber the motion met with the most eager approval, while the feeling throughout the French provinces and districts where the land and institutions are, to a great extent, in the hands of the people, was one of ready acquiescence in the proposal to lengthen the period of military service from two to three years.

Mr. Devlin also ventured the opinion that at the present time French sentiment over Alsace-Lorraine is quite as intense as in 1870.

COLLEGE STUDENTS TO STUDY THE WIRELESS

Melbourne, Aug. 12.—Considerable interest is being taken in wireless telegraphy in Australia by college youths who are having installations fitted at their homes, the fittings being in most cases the work of the young operators. The government issue provincial licenses to these experimenters, granting a maximum power of 250 watts, under which their messages will not interfere with those despatched from the official station.

HOW THIN PEOPLE CAN PUT ON FLESH

A New Discovery.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of weight increase or money back.

CHANG HUSAN WANTS THE THORNE OF CHINA

Dr. Sun Not to Go to United States but Work for Cause in Japan

London, Aug. 12.—A dispatch to the Daily Telegraph from Peking gives rumors from Chinese sources of a possible Manchu coup. The correspondent says also that it is reported General Chang Husan has declared himself Emperor of China, and intends to fight his way to Nanking and impose his rule.

The rebel movement, the correspondent thinks, is only in its infancy, and will continue indefinitely.

President Yuan Shi Kai has sent instructions throughout China, ordering the arrest and punishment of anyone conspiring against the republic, regardless of rank or position, says a dispatch to the Daily Mail from Peking.

Shanghai, Aug. 12.—The government warships are moving down the river, and a combined attack by the army and navy on the Wu Sung forts is hourly expected.

The rebels yesterday afternoon attacked the loyalists, holding the Kiangnan station, but were defeated with heavy losses.

Hankow, China, Aug. 12.—An army of 25,000 rebels from the province of Su Han, started Sunday night from Yo Chow, with the intention of attacking Hankow and proceeding thence to Peking.

A further shipload of Northern troops, completing the force of 60,000 men, was sent from Hankow on the Sin Ti in the province of Hu-Peh, where the Huanese rebels are preparing to make a stand.

Kiu Kang, China, Aug. 12.—The advance of the Northern troops on Nang Ching has proceeded almost without opposition from the rebels.

Tokio, Aug. 12.—The Japanese government is somewhat embarrassed by the presence in Japan of Dr. Sun Yat Sen and Gen. Huang Sing, leaders of the recent Chinese rebellion, both of whom arrived in disguise. The government was at first disposed to refuse them permission to land, but eventually consented to their doing so in view of the fact that if they were deported to China, where a price was set on their heads, it certainly meant their arrest and death.

It is reported that Dr. Sun does not intend to proceed to the United States, as at first stated, but will try to gather funds to continue the campaign against Provisional President Yuan Shi Kai.

GIRL RESISTS CAPTORS KIDNAPPING PLOT FAILS

Friends Rescue Mrs. Eva James From Daring Attack at Seattle.

Seattle, Aug. 12.—A daring attempt to kidnap Mrs. Eva James, 17 years old, within a block of her home was frustrated last night by the screams and struggles of the victim.

Mrs. James, a bride of seven months, has been separated from her husband, who is in California, and has been living with her mother, Mrs. Eleanor Lewis, at 2219 Seventh avenue. For the past three days two men have been seen loitering around the Lewis home, and last night a posse of citizens armed with shotguns, revolvers and clubs lurked in the shadow of trees that border the walk. The women and girls in the neighborhood had been warned and none of them ventured out without an escort.

Last evening about 9.30 o'clock Mrs. Lewis asked her daughter to go to the store a few blocks distant to get a loaf of bread. When she had nearly reached the store she found she had lost her money and she started back to the house.

As she reached Seventh avenue and Blanchard street two men rushed from the front of an empty house on the northeast corner and seized her.

Her screams brought her friends to the scene, and the kidnappers made off when they saw they would be overpowered. Beyond bruises on her ankles and arms Mrs. James was uninjured.

The story told by her mother disproves the idea of the husband having any hand in the affair, as she asserts that he cared too much for the girl to harm her.

LENDING LIBRARY IS PLANNED FOR MUSICIANS

Appeal to Austrian Public to Donate Towards the New Institution.

Vienna, Aug. 12.—A committee has been formed in Vienna for the purpose of opening a lending library for musicians among the people next autumn. Very many really excellent musicians in this city of artists are unable to purchase the music which they require for their studies, even at the low cost at which music is sold in Austria and in Germany. By the help of the popular library they will be able to borrow the music for long periods for the purpose of studying it.

The committee, which represents all the large musical societies and unions in the city, does not intend to purchase its main stock, but is making an appeal through the papers to all lovers of music to donate their stock, when they require it no longer, to the library.

"Nag" Roof Compositions are fireproof and add years to the life of an old roof. See Newton & Greer Co., 1326 Wharf Street.

Pretty Dresses for Big Girls

Clearing at Half-Price

Only a limited quantity, but some very pretty frocks among them for girls, ages 10 to 14 years only—no smaller sizes among them. These dresses are the pick of our Summer stock, the dresses we did not reduce early in the season, they were so desirable and such good qualities and splendid values at the original prices—but now we have so few left, only about 40 in all, we intend to clear them out, we refuse to carry anything over till next season. Here's a chance for mothers to buy a good dress at very little cost, and just the thing for the balance of the Summer and for the holidays.

These pretty dresses are of chambrays, zephyrs, drills, etc., in smart checks, plaids, stripes and plain colors, each nicely trimmed in effective contrasts.

Prices cut in exactly half—$2.90 for $1.45; $2.50 for $1.25; $2.25 for $1.50, and $1.90 for..... **95c**

Also some smart Sailor Dresses, plain or striped, $4.75 for $2.40; $3.90 for..... **$1.95**

New Fall goods opening up daily—Stylish Suits and Coats in many novelty weaves and textures showing now in our showrooms.

Campbell's

Begin today to give your baby the treatment described below.

Baby's summer skin troubles

How to prevent them

During the hot summer months your baby's skin needs especial care. The high temperature and free perspiration cause the slightest thing to irritate it.

To prevent it becoming raw or chafed and breaking out in rashes and red spots bathe your baby *daily* with Woodbury's Facial Soap in the following way: Use luke-warm water, and with a very soft washcloth or silk sponge apply a generous lather of Woodbury's over the entire body. Then rinse with slightly cooler water and pat with a soft towel until the little body is thoroughly dry.

Woodbury's Facial Soap is the work of an authority on the skin and its needs. It has been recommended for years by physicians because of its valuable properties. Its cleansing action and mild antiseptic quality are just what your baby's skin needs for summer protection.

Woodbury's Facial Soap costs 25c a cake. No mother hesitates at the price after her first cake. Begin now to get its benefits. Get a cake today and try the treatment described above. See how delightfully sweet, smooth and soft it leaves your baby's skin.

Woodbury's Facial Soap

For sale by Canadian Druggists from Coast to Coast, including Newfoundland

Write today to the Woodbury Canadian factory for samples

For 4c we will send a sample cake. For 10c samples of Woodbury's Facial Soap, Facial Cream and Facial Powder. For 50c. a copy of the Woodbury Book on the care of the skin and scalp and samples of the Woodbury preparations. Write today to the Andrew Jergens Co., Ltd., 917 Sherbrooke Street, Perth, Ontario.

YOUTH EXCEPTED FROM INCREASE WAGE AWARD

Sydney, N. S. W., Aug. 12.—Further awards have been issued under the New South Wales system of wages boards, increasing wages in various industries.

The gas employees have been granted an all-round increment of one shilling per day. Youths, however, have been excepted from this award on account of their having to bear no family responsibilities. A group award for railway employees grants substantial increases to coachmakers and other workers. Other New South Wales workers to receive considerable advances in wages comprise tanners and leather dressers who have had their earnings increased by 7 shillings per week.

UNDERTAKER REPORTS HIS WAGON STOLEN

Seattle, Aug. 12.—Reports of stolen automobiles for joyriding purposes are of frequent occurrence at police headquarters, but the report that capped the climax was received last night when the driver for the Rosenberg undertaking parlors complained to the police that some one had stolen his team and wagon.

He left the team and wagon standing for a few minutes at First avenue and Pike street last night, and when he returned the horses and wagon were gone. He heard rumors among the crowd that convivial youths had driven off with the grim equipage, but was unable to obtain a description.

CIRCUS EMPLOYEES INJURED.

Omaha, Neb., Aug. 12.—Thirteen persons, all employees of the Barnum & Bailey circus, whose train was struck at Richfield, Neb., by a Rock Island passenger equipment train returning from the Denver conclave late last night, were brought to the Clarkson hospital in this city, all suffering fatal or serious injuries. At the hospital it was said that three would die.

THE WATER PROBLEM.

The Sooke Lake problem grows more complex as the work progresses. And the complexity of the problem is increased by the strained financial situation. With no desire to say "we told you so," the Times may fairly say that the situation has become precisely what we suggested when pointing out some time ago that the immediate thing for the city to do was acquire the works of the Esquimalt company on the best terms possible. We said then that no one could tell with accuracy what the ultimate cost of the Sooke Lake scheme would be, that the rapid growth of the city necessitated speedy action, and that we should wind up by buying water from the Esquimalt Water Works Company by the gallon. That is what we are doing to-day, and what we shall undoubtedly be compelled to do for some time to come. But there is no use in crying over spilled milk. The city has put its hands to the plough, and the furrow must be continued to the end. But the problem has assumed such proportions that very careful consideration must be given by the city council to the matter. We do not know that any aldermanic board in the history of Victoria ever had more complicated conditions to face. It is time for wisdom to meet in council and to set aside the promptings of acculated prejudices.

PEACE AT LAST.

A rational world would be a humane world; inhumanity springs from unreason. Therefore when countries are plunged into the darkness of war, when carnage and massacre such as have been recently reported of the Balkan campaign are possible, the explanation lies no doubt in the unreasonableness of mankind. Whatever the cause, all Christendom will rejoice over the conclusion of a war which has for months been a standing disgrace to the countries taking part in it and to the Powers which allowed it to proceed.

Yesterday one of the most important peace treaties in many decades was signed at Bucharest, and scarcely was the quill dry before nearly all southern Europe put on its gala dress, thundered its myriad salutes, waved its bunting and its flags and rang its bells. Solemn Te Deums in a score of cathedrals gave thanks for the end of a bloody campaign. And yet in many of the cities where the frantic ringing of the bells swayed the steeples there must have been much wringing of hands also. For almost every family in the capital towns of the Balkan states has lost a member in the bloody carnage of the last few months.

One of the cruellest struggles in the history of modern civilization is ended at last. Nations that had united to fight the Moslem quarrelled amongst themselves over the division of the spoils in a disastrous and shameful war. It would be a difficult thing to fix the real responsibility. The other nations aver that Bulgaria began the fighting, and technically perhaps that is true. But the war was more probably begun actually by Servia and Greece, who as far back as May concluded between themselves a treaty of alliance against Bulgaria by which Servia secured Greek help for the seizure of regions which only a year before she had by a no less solemn treaty of alliance acknowledged as Bulgarian.

It must not be forgotten that the greatest factor in the securing of peace has been Roumania, and on her depends largely whether or not that peace shall be permanent. While among individuals none has played a greater part in securing the happy consummation which was reached yesterday than the Kaiser Wilhelm, who, in doffing the role of War Lord of Europe and donning the less flamboyant one of peacemaker, has done more to deserve respect and universal commendation than by any act of his during his reign.

The conditions of peace are as yet somewhat nebulous owing to the inadequacy of the reports which have filtered through from Bucharest. However, it is ordained that all the state armies now occupying Bulgarian territory shall leave within a few days, and, in the event of any disagreement over the delimination of the new frontier, either Belgium, Holland or Switzerland will arbitrate. While the peace of Bucharest will involve sacrifices for one or more of the participants, there is no room for doubt that all will be munificently repaid in the launching of a new era of peace which all will hope is destined to bring to southern Europe such prosperity and confidence as will foster the arts of peace and bring greater understanding and mutual concord.

A POET OF RECLUSION.

The unexpected appointment by Premier Asquith of Dr. Robert Bridges as Poet Laureate brings into the broad river of international publicity a British versifier who has long been content to rest in the quiet backwaters. His poems, though perfect in texture and almost unequalled in their lyrical quality, are not of the kind to appeal to the popular imagination, which requires something, perhaps, more robust. Hence we have the anomaly of a representative poet of Britain, and the would-be voice of its people, not a single line of whose works is known to more than one in every ten thousand.

While much satisfaction has been expressed by literary critics over Mr. Asquith's choice, Dr. Bridges's distinction emphasizes rather than solves the difficulty of finding a perfect laureate. He is a poet of reclusion. His can never be a popular voice. Tennyson perhaps approached the ideal more nearly than any other, for his work, besides reaching to the sublime, was simple enough and vigorous enough to appeal strongly to the common people.

And yet among poets of to-day Dr. Bridges is unquestionably one of the most entirely poetical. He is a poet for the poets, just as George Meredith is a novelist for the novelists, and for that very reason the volumes of both of them lie unread on the shelves of the public libraries.

Undoubtedly Britain's greatest man of letters at the present time is Thomas Hardy, and many think the honor should have been conferred upon him. But the poet laureateship would scarcely appeal to a man who has already received the Order of Merit.

The Colonist has said that neither Sir Richard McBride, nor Mr. Barnard, nor Mr. Shepherd, was responsible for the persecution that directly was the cause of the lamented death of Dr. Watt. Our contemporary, as an afterthought, explained that neither was the Conservative patronage committee involved in the heinous transaction. But the Colonist's strong charge was directed against some individual or political body seeking advantage as the possible result of the persecution. Who is it that is higher in authority or in political influence than Sir Richard McBride, Mr. Barnard or Mr. Shepherd? A public aroused to resentment by the results of that persecution and by the severe denunciation of the Conservative organ in this city has a right to know whose hand is directing the dirty campaign against public servants in this and in other constituencies in the province.

* * *

At last we have been given an authoritative exposition of the mission of Premier McBride to London. With his little rod Sir Richard is going to smite the rock of capital and endeavor to direct the anticipated resultant stream of pounds, shillings and pence to British Columbia. At that, the mission looks very much like the ordinary work our agent-general is supposed to be maintained in London to do. And, examining the eulogium with which the organ accompanies the exposition, it reads very much like a valedictory. If Sir Richard should conclude that his work as a public man is done, what will the Colonist do with that very sweet and big picture it has fallen into the habit of printing on its front page every time it has occasion to mention the premier's name? Perhaps it is having an enlarged engraving of Mr. Bowser made already.

* * *

No doubt it is very exasperating to an individual to just reach a dock in time to see a steamboat pulling out, and very annoying when business of importance calls you to the point for which the ship is bound. Still such incidents happen almost every day and are not considered of sufficient importance to warrant a written protest in a newspaper against the discourtesy of a captain. Steamers of the C. P. R. are advertised to run on a regular schedule, just like railway trains, and captains are held responsible by the company for adherence to the time card. That is, as we understand the matter. Consequently when an accident detains a passenger beyond the time at which a steamer is advertised to sail, why blame the captain? Let our correspondent ponder the matter over from the point of view of the other fellow.

* * *

This is the "Glorious Twelfth," the opening of the grouse shooting season, and parliament did not rise for the occasion. These are indeed degenerate days. If the times had not been so desperately out of joint how Joseph Martin, M. P., would have enjoyed himself cavorting over the hills and through the heather, watching the dogs work or exercising his unerring eye over the barrels of a gun from behind a butt!

* * *

Everything is quite all right. According to the Colonist interview this morning, Sir Richard McBride said, "I view the municipal situation with an indulgent calm." So did the gods of Olympus look down on the puny struggles of mankind. After this fiat has gone forth, people who were worrying themselves over a possible stringency will be able to sleep peacefully o' nights.

* * *

The Queen Dowager, Alexandra, it appears, cannot live comfortably on her allowance of eight hundred thousand dollars a year. We expect that Keir Hardie, M. P., or possibly Joe Martin, also M. P., will bring the matter up in the House of Commons.

BITS OF WISDOM.

Simplicity, of all things, is the hardest to be copied.—Steele.

It is the good reader that makes the good book. A good head cannot read amiss.—Emerson.

If you want to be missed by your friends, be useful.—Robert Lee.

Every man is a volume if you know how to read him.—Channing.

A man behind the times is apt to speak ill of them, on the principle that nothing looks well from behind.—Holmes.

Life means—learning to abhor the false and love the true.—Browning.

WASHED NUT COAL

SLIGHTLY DAMAGED COUCHES—Values to $7.50, Wednesday for $3.50

THIS lot of serviceable Couches got slightly damaged in transit, so to clear them all out quickly we have cut the price, in some instances, in half. They are a useful kitchen Couch and the slight damage in most cases can easily be remedied. Included are tapestry, in red and green colors. Imitation leather in tan and claret. The frames are of hardwood, finished in surface oak in golden and Early English styles. Regular values to $7.50. Wednesday, for.....**$3.50**

Axminster Squares and Rugs at Clearance Prices

AXMINSTER SQUARES, just 18 of these Squares marked for special clearance on Wednesday. Size 3x4 yards. If this is the size for your room and you are about to buy a new carpet, you will do well to come and look these over. It's rare that a chance of this sort comes along. These Squares are made without seams and there are two patterns to choose from. One is in a two-toned green trellis effect, with a relief border, which makes a very artistic rug. The other pattern has a fawn ground with an Oriental design. These Squares are worth $30 apiece. Special clearing price, Wednesday.....**$15.50**

TAPESTRY SQUARES, 50 only, in size 3x3½ yds. These are made with only one seam down the centre and in a good range of combination colors and patterns. A Square very suitable for chambers or for almost any style of room. August sale price, each **$7.50**

AXMINSTER RUGS—We have just received a large shipment of Axminster Rugs that should have been here for the opening day of this sale. They are a very fine Rug, made with a good linen back, deep, rich pile and fringe on both ends. Very artistic in design and color, and suitable for any style of carpet. We place them on sale Wednesday at, each **$2.50**

39c YARD FOR HEAVY SCOTCH LINOLEUM. There's about 1,000 yards in the lot, and it's a good heavy quality, made two yards wide. A well-painted cloth, thoroughly seasoned and we recommend it for hard wear. Both light and dark shades in floral, black and tile effects. Special, per square yard .....**39¢**

Exclusive Styles and Materials in New Fall Coats for Women

THE styles differ so from the late season and there are so many interesting features that there is nothing like paying a visit to the department and taking note of the many new ideas that have been expressed by the fashion artists.

The three-quarter and seven-eighth lengths are the most popular but the woman who prefers a full-length style will find that she has been well provided for.

To a considerable degree the modified cutaway effects are favored, though many straight-cut coats are to be found in the lines shown.

HANDSOME MODEL in one of the season's new coatings, in Paisley effects; three-quarter length in a smart cutaway, having small round collar and long tabs of black. Velvet finished with silk tassel. The Coat is lined throughout with silk and fastens high up on the neck, with huge fancy buttons. An extremely handsome model at **$50.00**

ANOTHER ATTRACTIVE MODEL is in black and white diagonal in a smart cutaway effect, three-quarter length and trimmed with black and white broadcloth. A warm, comfortable Coat for **$30.00**

VERY HANDSOME MODEL in the new Oubust cloth, three-quarter length with hip-line belt. The Coat is lined throughout with satin and fastens with two large fancy buttons, or can be worn open as desired. Has a small round collar and huge turn-back cuffs. A very smart model for **$40.00**

ANOTHER SMART MODEL is also in the three-quarter length, made in one of the season's new materials, having a rough, curly finish, in two-tone effects. The collar and cuffs are of rich, black velvet, silk frog fastenings and large fancy buttons. A very dressy model for **$37.50**

Special Values in Men's Suits at $9.75

SOME of the best values ever offered in Men's Suits are on sale in the Men's Clothing Section to-day. The line includes a large number of our higher-priced Suits which have been reduced on account of broken patterns and sizes. The sizes are from 32 to 44, and there's not the slightest reason why you shouldn't find a Suit that will suit you fine and at a price away below the usual. Tweeds and fancy worsteds are the materials and all are in the latest single-breasted style and medium peg or ordinary pants. Special price, per suit....**$9.75**

MEN'S HEAVY TWEED WORKING PANTS in Oxford greys and heavy cord mixtures. Per pair, $2.50 to.....**$3.75**

MEN'S ODD VESTS in a variety of tweeds and fancy worsteds. Sizes from 36 to 42. Special clearing price **$1.50**

BOYS' SUITS in tweed and fancy worsteds. All sizes 24 to 34. Made up in double-breasted style with bloomer pants. Values from $4.75 to **$6.75**

BOYS' PLAIN KNEE PANTS, with double seats and double knees. In strong tweeds. All sizes. Each, 85c to **$1.35**

CLEARING OUT ALL SCREEN DOORS AND WINDOWS

NO need to be without a Screen Door or Window because of the price, for we are clearing them all out during this August sale, and all prices have been reduced to make this clearance possible by the end of the month.
ALL DOORS, complete with hinges and all fittings, and most sizes are to be had. Clearing prices $3.00, $2.25, $1.90, $1.25 and **$1.00**
WINDOW SCREENS clearing at from **20¢** to .....**35¢**

Women Can Save 50c on Corsets Wednesday

THIS is another special opportunity for women to save on Corsets. A clear saving of half-a-dollar is worth considering, especially when the goods are a well-known quality and the original price marked at a close margin of profit. Both of these lines are the well known "Bon Quality" brand and therefore can be relied on for correct style and comfort. One is made of strong coutil, trimmed with lace, medium bust and long hip, boned with double non-rusting wire; six everlastic supporters and elastic lacing in front. The other style has low bust, long hip and four everlastic supporters, also elastic band in front, which is especially good for medium or slender figures. All sizes.

REG. $2.50 VALUE, WEDNESDAY, $2.00

Special Clearing Sale of Lawn and Muslin Waists Wednesday at 50c

MOST women appreciate the opportunity to buy Waists at a big price saving for few women have too many and all can do with a few extra, especially when they are to be had for small cost. Here are two lines that will be of special interest because they are marked at a little less than one-half their original price. It's a line we don't wish to carry over during the Fall season, and we also want the room to show new season's goods—hence this drastic reduction for Wednesday. They are all White Waists and one line is of fine lawn, made with tucked front, three-quarter length sleeves, and finished with embroidered collar and cuffs. The other style is of fine muslin with embroidered fronts and cuffs, high neck, back fastening and three-quarter length sleeves. All sizes included. Special clearance price, Wednesday.....**50¢**

See View street Window for Samples.

Self-Basting Seamless Roasting Pan

REGULAR 65c VALUE—WEDNESDAY, 35c

THESE Roasters are made in sheet steel entirely seamless, as there is no chance for grease to collect in seams or corners. They are perfectly smooth and can be washed out like a dish. The bottoms are concave, which collect the rich, natural meat juices directly under the roast, the heat turns these juices into steam which condenses all over the surface of the meat or fowl and makes a perfect self-basting process. There is no danger of burning as the bottoms are slightly raised from the oven. Needs absolutely no attention. The best and most economic Roaster on the market. Reg. price 65c. Special sale price, Wednesday .....**35¢**

MAKING
YOUR DOLLAR DO
DOUBLE DUTY

Our dollars come hard enough to most of us to make us interested in anything which will tend to give them greater purchasing power. And so our readers will appreciate our repetition of the same idea in these talks on advertising, when we call attention again to the daily possibilities for economy and saving offered by careful and intelligent buying of the year-in, year-out things that all of us must buy.

Clothes, food, recreation—all are better bought, more intelligently bought, more economically bought by those who read the advertising with care and understanding.

In saying how much a dollar will buy, it makes all the difference in the world who spends the dollar.

APIOL & STEEL PILLS for Ladies.

o o o

To Start Drilling.—Commander Hose, of H.M.C.S. Rainbow, addressed a meeting of the naval volunteers yesterday, and the first squad drill will take place on Thursday at Esquimalt dockyard. About forty have already enrolled.

Old Men's Home.—The city council will call for tenders for the enlargement of the Old Men's Home, Oak Bay, the bids to be in by August 25.

o o o

Compensation for Widening.—George Powers will be paid $3,400 for land taken for Hillside avenue widening, between Cedar Hill road and the city limits, according to a report presented to the city council last evening.

o o o

Local Improvement Assessment.—The city council last evening fixed August 26 for the next sitting of the court of revision on 21 local improvement assessments which have to be levied with the closing up of the by-law.

o o o

Further Legislation.—The city council last evening took no action with regard to the annexation movement at Maywood beyond recommending that legislation should be obtained at the next session permitting differential rating to districts absorbed from the vicinity.

o o o

City Outside Staff.—When the question of the purchase of a new automobile for the city engineering department was being discussed, it transpired at the city council last evening that there are 550 men working on the outside staff who have to be supervised. The purchase of the car was laid over for further information.

o o o

Dallas Avenue Steps.—Although the steps on Dallas road at the foot of Dallas avenue, now under construction, came in for considerable criticism at the city council meeting last evening, City Engineer Rust assured the members that the work will be secure. He said that a retaining wall would have been added if the council had found the money.

o o o

Will Remain in Old Quarters.—At the city council meeting last evening the First Baptist Church trustees secured permission to continue using the old frame temporary church on Quadra street for 18 months. The request was made owing to the impossibility to raise the money for the new church during the present stringency. The new church has got as far as the concrete walls of the basement.

o o o

Building in Oak Bay.—Recent building permits issued in the municipality of Oak Bay include: F. Farquharson, six-room dwelling, St. Patrick street, to cost $4,500; W. Ross, five-room dwelling, Monterey Crescent, $3,500; B. C. Home Builders, Ltd., seven-room dwelling, Bourchier road, $3,600; W. Gwynn, six-room dwelling, Monterey avenue, $3,500; W. Stewart, five-room dwelling, Hamiota street, $3,500.

o o o

Will Be Represented.—The city council has been invited to be represented at the annual meeting of the British Columbia Union of Municipalities, to be held in Vancouver in the first week of September. Two officials, as well as two aldermen may attend, according to the quota allowed to a first class city. At the council meeting last evening the nomination of delegates was laid over till the next meeting.

o o o

Pantages Theatre.—The excavation work on the site of the new Pantages theatre being almost completed tenders are being called for the erection of the building, which will be put up for R. T. Elliott, K. C., and McPherson & Fullerton from plans drawn by Jesse M. Warren. These provide for a handsome house which will seat one thousand people. It is to be of steel and brick, entirely fireproof, well ventilated and with ample exits. The site is a few feet from the northeast corner of Cormorant and Government streets and runs back to the side line of the city market building.

o o o

Complain of Mails.—Residents of Cowichan lake have lately had cause to complain of their mail delivery, which at the present time is more irregular than at the time when the trains were not running to that part of the Island. It is not that the trains take the mail, for they do not, but the stages, whose business has been badly demoralized since the advent of the railroad, cease to go over the road with their former regularity. On train days, Wednesday and Saturday, of each week, the mail rarely comes, and other days when business does not warrant, the mail stage does not leave Duncan. This state of affairs is not meeting with approval, and the lake residents intend to send a petition to the proper authorities to insist upon a regular mail service.

Mount Baker Marathon Excursion to Bellingham, August 15.

o o o

Cattle on Sale.—Seventy Holstein dairy cows were put at public auction to farmers and buyers of the province by the government at the Exhibition grounds this afternoon. The selection of the stock was made by the live stock commissioner, Professor T. W. McDonald in the East, the animals being brought here at the government's expense. Those which were sold to-day comprise the first consignment; others are to follow.

o o o

Road Work.—Work on the roads between Ladysmith and Nanaimo is said to be progressing very satisfactorily by Major Hodgins, who is acting as assistant government engineer on the Island, and who has just completed a tour of the district in company with Road Superintendent Nicholson. A new bridge over the Nanaimo river is being constructed, to rest on cement piers, the excavation for which are now being made.

o o o

Game Plentiful.—Grouse are reported plentiful in the mountains at the headwaters of Cowichan lake by contractors on the grade of the Canadian Northern railway. Many deer are to be seen in all parts of the district, while in the Cowichan valley, pheasants are very numerous. All in all, the signs point to a very successful hunting season opening next month. Trout fishing at the present time is good, in fact better than at any time since the spring of the year.

o o o

Object to Agreement.—When the Johnson street bridge agreement came up at the city council meeting last evening it was learned that the chief engineer of the British Columbia Electric railway is not satisfied with the recent draft agreement prepared by the city. No reason was assigned in the letter from Mr. Conway. However as C. F. Davie is acting for the government in the matter, and has received an agreement as acceptable to the street car company, he will be communicated with further in the matter, in order to reach an arrangement agreeable to all parties.

o o o

Helped Widow.—The benefit concert held at the Alexandra Club last evening under the auspices of the British Columbia Electric in behalf of Mrs. Smith, the widow of Conductor A. Smith, resulted in the satisfactory sum of more than $200 being collected. The programme was most entertaining, among those who assisted being Madame Marie Burnett, Miss Mary Shearer, Mr. Tobee, Mrs. Pargiter, Piper Parke, Mrs. Jesse Longfield and Messrs. J. G. Brown, Elmer Watson, Thomas Quirk, Jesse Longfield, J. Melville, and E. C. Foulds. The last named gentleman had charge of the concert, and it was largely owing to his clever selection of artists that the affair was so successful. Miss Cochrane and Mr. Longfield ably accompanied.

BILL WELL ARRANGED

Offerings at Empress Theatre Are Bright and Varied; Pleased Audiences.

Presenting a clever sketching act the Lelands are headliners at this week's vaudeville bill at the Empress theatre. Their offering is well termed "The Artistic Oddity," for the act is very different from the usual sketching exhibit. By a clever arrangement of lights they present really beautiful scenes on their canvases, and they close with a realistic snowstorm sketch in which the audience views the fall of the snow. A hit in the comedy line was made in the singing and dancing of Benny Ryan and Henreitta Lee. This pair, with their droll humor, clever dancing and continual foolish patter pleased the house to an unusual degree. Ryan is a fine dancer, and his comedy was refreshing. Bertha Walker and Charles Ill in a new stage vehicle, "Just a Girl," present a laughable skit of the adventures of a girl who strays into a wrong room whilst on a visit to the city, and the act draws a lot of laughter. Mae Francis, in her latest Parision gowns, rendered the latest song hits of the moment in pleasing style. Frank Evans and Will Vidocq bandied words on the topics of the day, and their comedy was interspersed with songs. The variety of the bill earned approval from the audiences yesterday.

B. C.: Straggly eyebrows come in thick and glossy just by rubbing pyroxin on, and if your eyelashes are stubby and straight, apply a little pyroxin at lash-roots with thumb and forefinger. This will induce them to grow long and slightly curly. This is a beauty hint worth trying. Be careful however, and don't get pyroxin where hair is not wanted.

A LINE O' CHEER
EACH DAY O' TH' YEAR
By John Kendrick Bangs

REJUVENATION.

To rise at dawn with no one else about;
To tip-toe slyly off, all bare of shoes;
To make the wood re-echo with my shout;
To wade the meadows fush with dripping dews;
To plunge head-first into some limpid pool;
To lie upon some bank and scan the skies,
Rejoicing in the early breezes cool,
Forgetting all but what around me lies—
In short, to leave behind the stress and care
Of worldly complications with their pain,
And spurred to song by drafts of morning air
Just for a time become a boy again.

Ah, what a plan in seasons of distress
To ease the soul of all its weariness,
And send it back into the busy mart
Renewed in living strength to do its part.

AMUSED WITH HUMOR

"Merry Widowers" Offer Frank Rich Company Many Opportunities for Making Fun.

While the two "Mustard Kings" from the United States had as slim a plot as could possibly fall to their lot in "The Merry Widowers," as offered last evening by the Frank Rich Company at the Victoria theatre, they provided a more humorous and successful evening's entertainment than any other given by the organization since it opened its summer season in this city. There was no coherent story to the play, but the two comedians, George A. Burton and Tommy Burns, found opportunity to maintain their humorous antics at a consistent level throughout, the whole being pure burlesque. Prison cells with elastic bars which permitted the two "kings" to emerge at will when the time was propitious, were used to good effect. There was also an extravagant duel between one of the two mustard manufacturers and the head waiter at the Paris hotel at which the banquet to the distinguished visitors was being held. The conflict ended without casualty, however, and the dining continued. The chorus was used in numerous songs, of which some were: "In the Land of Harmony," Giggling and Whistling," "The Trail of the Lonesome Pine," "On Circus Day," and "Mr. Dream Man."

TURNS DOWN VANCOUVER.

McBride Government Refuses to Sell Court House Site to That City.

When a large and influential delegation of citizens of Vancouver, headed by Mayor Baxter, was over here the other day, the government was made an offer of $200,000 for the site of the old court house on Hastings street, which the city desires to use for park purposes in order to afford an open space in the centre of a congested portion.

The reply sent to the city to-day by the premier is a flat refusal to grant the request. The government insists upon its right to deal with the property as it sees fit, and it is believed that this means that the area will be sold for building purposes. The old court house building is in course of being torn down at present.

USE PACK TRAIN.

Sub-Contractors for Canadian Northern Railway Utilize Unusual Form of Transport.

A pack train of over thirty horses has been just put on the trail at the head of Cowichan Lake by Messrs. Proctor & Headman, sub-contractors of the Canadian Northern railway. Pack trains on Vancouver Island and in fact in this province are rare in these days, having almost become a thing of the past. The train spoken of is the only one at the present time being used on this Island and is being utilized to carry supplies from the head of the lake to the camps which are spread from there, through the Nitinat river district and to the Alberni Canal. The horses were brought from Upper British Columbia to Nanaimo and driven from there to the lake, where they were loaded on scows and towed to the north end of the lake. While the grade work along the road is progressing better now than at any other time this year, contractors are of the opinion that it will be close to 1915 when the grading is finally completed.

THIRD TROOP SCOUTS.

Good Work Done by the Boys During the Recent Camps and Carnival.

Third Troop, Victoria Boy Scouts, which broke camp at Beacon Hill on Sunday morning, earned the distinction of being first on the field and last off. On the previous Sunday they were encamped at noon before any other troop had arrived, and all other troops broke camp on Saturday, leaving them in sole possession.

The troop came in for its full share of work, but also got a great deal of pleasure out of the week, and, although the camp was not quite so enjoyable in some ways as the previous fortnight had been at Picnic Point, everybody was sorry to leave on Sunday morning.

The troop's team, Scoutmaster H. R. Selfe, Assistant Scoutmasters J. C. Anthony and W. H. Brown, and Patrol Leader R. C. Nash, entered in the St. John Ambulance Association demonstration at Beacon Hill. The team took second prize in the civilian stretcher competition, and J. C. Anthony and W. H. Brown, who were entered in the mixed doubles, carried off the third prize. The success of the team was in no small degree due to the excellent efforts of Dr. A. B. Hudson.

The officers in charge of the troop had a strenuous time during the last three weeks but felt amply repaid by the success of the two camps and by the progress of the troop. The troop will settle down to hard work again in September and are anxious that at any rate another half dozen recruits, over the age of thirteen, join before then.

WHAT CAME OF A DREAM

Almost fifty years ago a young man dreamed a dream, and then set earnestly about materializing it. The fact that he had unusual native ability, an excellent training and a capacity for hard, continuous work, rendered his first step successful. He developed the power to choose and direct men, and his sincerity fired them with his ambition. The years brought fruition, and thus to-day the

Gerhard Heintzman Piano

Is Admittedly Canada's BEST PIANO

The same sincerity in every stage of manufacture marks the Gerhard Heintzman instrument you buy to-day as marked those that came from the hand of the young master builder in the late sixties. Gerhard Heintzman, still ambitious, oversees the building of every Piano that bears his name. Case architecture, finish, style have kept pace with the newest and best ideas; the action is the same superb action—with modern refinements—that won first place for the Gerhard Heintzman Piano in the beginning. The tone is rich, sweet, pure and LASTING.

When you think of buying a Piano, think of Gerhard Heintzman and his life work. The Gerhard Heintzman Piano is the Piano you will admire above all others. We are sole agents. The price is less than that asked for many inferior Pianos, and the terms are exceptionally easy. You are welcome at our showrooms whenever you desire to call.

If You Get It at PLIMLEY'S It's All Right!

Get out in the open on an Indian Motocycle

You never know the true exhileration of motorcycling till you ride the Indian—especially the 1913 Indian.

The new comfort features make it more than ever the perfect motorcycle. Vibration and jolting don't exist. Power, Speed and Endurance unequaled by any other motorcycle. Costs next to nothing to maintain. Easier to ride than a bicycle. Needs no garage.

The "Henderson" Motor Cycle

At $450 the latest model, 4-cylinder, 8-horsepower Henderson Motor Cycle is a marvel of modern mechanism. It is an efficiency machine from the word "Go," and will stand the most severe tests possible. Have a look at the "Henderson."

Second-Hand Motor Cycles

We have several second-hand machines on hand at very reasonable prices. Let us show what we can offer you.

The "Douglas" Motor Cycle

Is neither a speed monster nor a toy. It has proved its worth from a utility point of view in the most recent tests in New Zealand and France. It is the machine for business and professional use. Prices, including ladies' model, from $325

English Side Cars

Wonderful value in English Side Cars at only $55.00. Double your pleasure by a comparatively small outlay.

CONSIDER THE CALL

Presbytery Deals With Request of St. Paul's Congregation That Rev. Prof. Paterson Be Appointed.

The Presbytery of Victoria met last evening in St. Andrew's church to deal with a call from St. Paul's congregation, Victoria West, to Rev. Professor Paterson, of San Francisco. Rev. Joseph McCoy, in the absence of the moderator, Rev. Mr. Macconnell, presided, Rev. Dr. Campbell, in the absence of the clerk, acting in that capacity for the meeting.

The call was supported on the floor of the Presbytery by Mr. Fraser, Mr. Stewart, and Mr. McCandless, from the congregation of St. Paul's, who submitted reasons which were to accompany the call, and which formally set forth why Professor Paterson should be called as pastor to the church in question. The call was signed by 100 members and 33 adherents of St. Paul's, and offered a salary of $1500.

Dr. Campbell and Dr. Leslie Clay were appointed to formulate reasons, on behalf of the Presbytery, for the translation of Professor Paterson, and were requested to forward the call, with the accompanying documents, to the Presbytery of San Francisco.

Professor Paterson, who is the son of the Hon. William Paterson, of Brantford, Ont., recently came to British Columbia from California and gave a course of lectures at Westminster hall. During that time he also supplied the pulpit of the First Presbyterian church in the absence of the pastor, Rev. J. G. Inkster.

Theological Conference.—For the opening session of the third annual Pacific Coast Theological Conference, which will be held this evening at 8 o'clock in the First Congregational church, the following is the programme: Devotional exercises; address of welcome, Rev. Robert Connell, president of the Victoria Ministerial Association; replies, Rev. W. Adeney, D. D., late principal of Lancashire College, Manchester; Rev. Prof. James Moffett, D. D., Mansfield College, Oxford; Right Rev. Frederick W. Keater, D. D., Bishop of Tacoma, Wash.; Dr. Klas, of Seattle, Wash.

SPORTING NEWS

BEES ARRIVE HOME TO-MORROW PORTLAND AFTER THE GONFALON

Local Pitching Staff Greatly Improved; How Other Clubs Shape Up

"McGinnity had horseshoes to get away with yesterday's game at Tacoma, and I will be greatly surprised if the Bees do not clean up the series with a game or so to spare." Eddie Gleason, part owner of the Victoria Ball Club, was the speaker, having returned to the capital this morning after witnessing a couple of real ball games at Seattle and Tacoma. "It was a toss up on Sunday against Seattle, but at Tacoma the boys were hitting line drives that only superb fielding saved from going into the extra base hit column. This Victoria team is playing the best ball of any club in the league, and it is a cinch that the club will finish higher up in the league than at present."

Fitchner is a Star.

Eddie had a big boost for Fitchner, and says that he is another Walter Johnson. Fitchner was with the Portland Coast League Club in 1911, and this spring was given a tryout also, but McCredie could not see anything but a wild man in the North Yakima twirler. Gleason looked him over last week, and recommended him to the Bees with the result that he was bought up in exchange for Boatman and $400. He is a big husky boy only 23 years of age, about five foot eleven in height, with a pair of shoulders that would do credit to a wrestler. He has had lots of experience, and should prove a winner in this circuit. Gleason also recommended Martini, the Walla Walla outfielder to the Bees, but Seattle beat the local club to the purchase.

Portland For Pennant.

Nick Williams, the Portland manager, is out with a pennant talk, and when the league prospects are looked into the Portland manager certainly has some claim to recognition. His club has been playing the most consistent ball of the leaders for the past two months, and he certainly is not afraid of the Seattle and Vancouver clubs in the coming series. Portland pitchers are going along nicely, while the club is a fast and speedy aggregation that will cause the rest of the league a whole lot of trouble. Williams figures out that Victoria and Spokane will help Portland to a pennant, inasmuch as the Seattle and Vancouver clubs will not find these teams so easy in the future. Williams likes Spokane, and says that Lynch's team will come through with a rush that will prove fatal to some of the present teams higher up.

Leo Strait hit the bull at Seattle yesterday, and the tobacco company will have to come through with another fifty dollar check. Harry Meek and Charlie Swain having already achieved the distinction of pinking the bovine, Meek scored his hit on Sunday. He missed the animal by about two feet the first time at bat, but turned around and swatted it fair on his next attempt. Meek, Swain and Strait are a trio of the hardest clouters in the league, and just about top the sluggers on the Fielder Jones circuit.

Captain Delmas and his warriors will return home from Tacoma to-morrow morning and to-morrow afternoon's combat at the ball yard will start at 3 o'clock.

Spokane's greatly strengthened team should be able to do some business against Vancouver at home this week. Lynch now has Douglass, Peters, McCorry, Cadreau and Coveleskie to do the pitching, and they all look pretty good. Wagner is out of the game with a sprained ankle, and that will hurt, but Fitzsimmons is back on duty, so Mike has an infield that should play fast ball.

IRON-MAN TAMES THE WINNING BEES

Victoria Could Not Get a Run Off McGinnity's Stellar Pitching; Score 4 to 0

Tacoma, Aug. 13.—Inability to hit Iron Man McGinnity when hits meant runs, tells the story of Victoria's defeat at the hands of the Tacoma Club yesterday afternoon, the Bengals emerging with the long end of a four to zero score to their credit. The locals found Fitzgerald no great mystery, and after piling up three runs in the first inning, went right out and garnered another counter in the fourth, the Bees being unable to shove a runner across the rubber. The game was replete with snappy fielding upon the part of the Bees. They backed up Fitzgerald with perfect ball, while the Tigers booted a couple which did not help the Bees in their scoring.

McGinnity was absolute master of the situation, and his pitching in the pinches was of the best. He struck out five of the Bees, and had his Old Sal working to perfection. In addition to this, his club was hitting behind him and running bases like big-leaguers.

Spokane, Wash., Aug. 12.—Spokane drove Schmutz from the game in the early innings yesterday, and then bunched hits on Ingersoll, winning the first of the series from Vancouver 6-4. Covaleskie was hit regularly by the beavers, but was tight in the pinches.

Score—	R.	H.	E.
Vancouver	4	9	0
Spokane	6	11	0

Batteries—Schmutz, Ingersoll, Lewis and Grindle; Covaleskie and Hannah.

Portland won from Seattle, 4-3, in an exciting 10-inning game. The champions took the lead in the second, but Portland tied it up in the fourth, when Mahoney hit a home run. That ended the scoring until the tenth, when four hits gave the visitors three runs and the game. Stanley pitched good ball in the pinches.

Score—	R.	H.	E.
Seattle	3	13	1
Portland	4	14	0

Batteries—Fullerton and Cadman; Stanley and Williams.

LOCAL STARS ENTER.

A number of J. B. A. A. athletes are now in training for the British Columbia and Canadian track championships which are to be held shortly. The British Columbia titles will be held in Victoria the latter part of this month, while the Canadian championships will be held at Vancouver on September 6. A number of eastern Canadian stars and American cracks will enter both meets. Hal Beasley announces his intention of going after the Canadian hundreds yards title, while Percy Beasley, Tommy Gallon, Brock Valo, Carroll and others will also wear the blue and white jerseys.

SCHWENGERS COMING.

B. P. Schwengers, a member of the Canadian Davis Cup tennis team, is expected to arrive in the capital to-morrow.

CONNIE MACK IS SURE OF PENNANT

Giants Will Have to Improve If They Are to Win in National League

New York, Aug. 12.—Ten teams in their quest for the major league pennants failed to make headway during the week of baseball that ended Saturday. The other six gained from seven to fourteen points, but among them were neither the New York Giants nor the Philadelphia Athletics, leaders respectively in the National and American circuits. These two stood still, inasmuch as each won and lost three games, while a majority of the other clubs did as poorly, some of them even worse.

In the National league the week's results continue to show that Manager McGraw, of New York, cannot yet be certain of driving his team through the 1913 series, for Philadelphia, in seven days, cut the Giants' 83-point lead down to 64 points, representing a difference of a game and a half. In the American circuit it would appear that Connie Mack, although his team lost ten points in the percentage table, can begin forthwith to groom one of his veterans for the first of the post season games, for his club is farther ahead of the field than it was a week ago.

Cleveland just about eliminated themselves as flag contenders this year. In the week's contests with Philadelphia, Birmingham's players were outbatted and outfielded. In both leagues no other team did so well as the White Sox. Prior to their two victories over the Athletics, Chicago took three out of four from Washington. The week saw Callahan's men fight their way to within a few games of third place.

Phillies Gaining.

In the Lynch circuit Saturday night found Chicago in third place instead of Pittsburg, with St. Louis holding Cincinnati's cellar position, Brooklyn barely above sixth place, and Philadelphia slowly forging ahead. The Phillies, in fact, got within seven games of the Giants while the latter struck a slump, due in part to injuries of players. To the Giants this Pittsburg series was eventful. Two New York pitchers had winning streaks broken. Marquard after taking nine straight, fell before Adams. Mathewson likewise was humbled, losing to MacQuillan. Pittsburg on Monday allowed Demaree to run his string up to eight, but on Friday McGraw's new star lost to Cincinnati. The effacement of these near-records of the season leaves Walter Johnson sole possessor of a string worthy of comment. He has taken 11 straight and is tied with his team-mate, Boehling, who fell the preceding week.

Many Trades Recorded.

Several sudden and sensational trades, the passing of a few stars from big league company and reports that managers were to be deposed, combined to make the week notable. Of the trades the most startling was that involving the unusual price paid by the New York Yankees for Maisel, the star infielder, of Baltimore. Chance gave Daniels, outfielder; Midkiff, third baseman, and $12,000 cash, making the sale rank with the O'Toole, Marquard and Chappelle purchases. Next in importance among the trades were the exchange of players, Otis Crandall and Larry McLean, and of E. Boulbach and Ed Stack.

CRICKET WEEK.

At the meeting of the city council last night, fifty dollars was voted towards the expenses of the annual cricket tournament in the capital, August 23 to 31. Secretary Reeves, of the Cricket Association, announces that tickets for the entire cricket week are now on sale. The schedule of matches has already been announced, ten teams being entered in the competition.

(CABLED FROM BISLEY)

Ross Rifles and Ross Ammunition again lead at Bisley

The Ross .280 ammunition captured every single event in the Match Rifle competitions at Bisley, an unprecedented achievement, and the KING'S PRIZE, the blue ribbon event of the Bisley meet, was again won with a Ross Rifle, this being the second time in three years that this trophy, the emblem of rifle shooting championship of the British Empire, has been won with a Ross.

The wonderful accuracy of both Ross Rifles and Ross Ammunition is further accentuated by these triumphs won against a field of over 2000 of the best marksmen in the world, each striving not only for the prize but for the honor of his colony or country and armed with the best rifles and ammunition which each country can produce.

It stamps Ross Rifles and Ross Ammunition as unsurpassed for accuracy.

Sportsmen, all over the world are adopting the "Ross" not only on account of its accuracy but also because of its very quick and absolutely safe breech action.

Illustrated Catalogue and price lists sent free on request.

Ross Rifle Co., - Quebec.

CLAN M'KENZIE BOWLING DRAW

The draw for the Clan McKenzie cup for doubles resulted as follows:

Round 1.—J. H. Owen and J. Hepburn vs. D. McLean and A. B. Fraser; J. Yates and J. S. Murray vs. T. McCosh and Alex. Stewart; W. Melville and F. Robertson vs. R. Phillips and R. McDonald; Dr. Moody and John Gray vs. H. Molony and R. Green; J. Anderson and J. A. Turner vs. J. B. Ramsden and W. Wood; W. Walker and G. Vallance vs. W. Oliphant and R. Dowswell; W. S. Benson and W. Carroll vs. A. E. Allen and P. Richardson; P. Turner and W. Davidson vs. F. Dundas and F. R. Craig; B. H. John and F. J. Waghorn vs. A. E. Banister, jr., and T. M. Sturgess.

This cup must be won for 3 years in succession to become the permanent possession of a team.

The second round must be completed not later than Saturday, August 23. All games to consist of 21 ends.

Big Celebration at Bellingham, Friday, $1.50 round trip.

CITY LEAGUERS CLASH TO-NIGHT

St. Francis look for a win in to-night's City League ball game at the Royal Athletic park, when they clash with the James Bay nine, present leaders of the local amateur organization. Manager George Sedney, of the Saints, has switched his team round quite a bit and he will use three hurlers, if necessary, to stop the J. B. A. A. sluggers. Manager Spence, of the latter club, is equally confident and a rattling good contest may be looked for this evening. The game will start at 6.30 p. m. and the Saints will line up as follows: Farmer, c.f.; Worthington, r.f.; Potts, l.f.; Boyce, c.; F. Gravlin, 1b.; Johnson, 2b.; W. Gravlin, 3b.; Leaper, s.s.; Sheppards, p.; Holness, p.; Vetters, p.

MORRIS WINS.

Winnipeg, Man., Aug. 12.—With a left swing to the jaw and a right hook to the chin, Carl Morris, the Oklahoma heavyweight, sent "Fighting Fred" McLay, of New York, through the ropes for a period long enough to win a knockout decision in the third round of a scheduled twelve-round bout at the Auditorium last night.

STYLE-CRAFT TAILORED CLOTHES

Are designed on lines that embody the very latest ideas in wearing apparel for the man of fashion.

They are tailored from fine wearing West of England worsteds and Clay worsteds, cut by experts who have made cutting a specialty, and every stitch required to give the garments enduring character and style has been thought out with the greatest care, and then put in by craftsmen who have been chosen for their ability.

We are making a special display of these suits in four different models to-morrow, in blue, at

$18, $20, $25, $30

SEE THEM IN THE WINDOW

Then come inside and handle the garments to see the fine texture of the material, and the quality of the workmanship. We have other colors if you prefer them.

Spence, Doherty & Co.

Hatters and Furnishers to "Men Who Care" 1218-20 Douglas St.

ASSEEN FROM THE PRESS BOX

McGinnity is twirling about every three days now.

• • •

Johnny Rawlings has recovered from that batting slump. He had three hits yesterday.

• • •

Fitzgerald seems to have lost his grip. He has been the most consistent loser on the Bees' staff of late.

• • •

Portland, by winning from Seattle, caused Dugdale to send out all kinds of wires for new twirlers.

• • •

Bob Brown will have a lot of trouble with that Spokane club this week, now that Lynch's pitchers are going right.

• • •

After several months' absence from the game Charlie Brooks broke into the box score as a pinch-hitter yesterday.

• • •

Schmutz has been beaten in his last two starts. The spit-baller declares that his arm is very sore, which means a rest for that delivery.

• • •

Fullerton allowed Portland fourteen safeties yesterday and was beaten by a single run.

• • •

Muggsy McGraw's Giants travelled over to Syracuse yesterday and were beaten by the New York State Leaguers 3 to 2.

• • •

Covaleski and Douglas, together with McCorry, form the neuclus of a grand twirling staff for that Spokane club.

• • •

With his twirlers going badly, Walsh and Konnick out of the game and Spokane coming strong, Bob Brown has no cinch with the Indians this week.

CARRIER WAS HIGH BAT FOR WINNERS

Saanich defeated the Albion "B" cricketers by 71 runs in an interesting match on Saturday afternoon, some excellent individual batting efforts featuring the match, Carrier, Lifton and Coton were high bats for the winners, while Daunt and Rutherford were the Albion leaders. The scores:

Saanich.	
Carrier, c Firth, b White	51
Blendel, b Ashby	7
Scaife, c Lowe, b Spain	6
Hallam, run out	10

REMARKED ON THE SIDE

Break is Coming in the A. A. U.

Despite the efforts of the eastern governors to patch up the breach that exists between the different athletic bodies, it is apparent that an upheaval is due one of these days that will tear apart the present Amateur Athletic Union. The failure of the present union to secure the affiliation of the rowing, swimming, football, Rugby, canoeing and other associations has forecasted its doom for some time past. The only governing body that will be a real controlling union will be one that will adopt a broader definition of the word amateur. It has been suggested that a union which will allow the mingling of amateurs and professionals will clear the present difficulty and solve the problem, and this looks to be so. Let a professional hockey or lacrosse player compete as an amateur paddler or oarsman and so on. This may appear to be a sporting joke, but it has been tried with success in other countries and found to work out. Certainly, something must be done immediately to improve the present conditions.

Hockey Talk Already.

While the visit of Frank Patrick to Montreal was principally in the nature of a holiday after a surgical operation upon his eye in a New York hospital, the eastern hockey moguls are already signing up their players with a view to avoiding a war later on. Sammy Lichtenhein is said to have secured the Cleghorn boys for next season, while he is after his other players, also. Mr. Patrick is also said to be sounding the prospects of forming a hockey commission, and here again the prophets have gone astray. There will be no hockey commission between the National Hockey Association and the Coast League just so long as Kennedy and Lichtenhein hold the whip hand. The Patrick boys know when they are well off and the financial support they received last year shows that they can well afford to pick and choose amongst the hockey stars of to-day. There may be an agreement as to inter-league games for the world's championship, but the coast clubs will certainly never submit to any commission which would prevent their keeping hockey up to the standard of the past two years on the coast.

McGinnity is the Whole Newark Pitching Staff.

That the Bees would drop one game to the Iron Man during the present series was conceded, and now that the Victoria club have got rid of McGinnity for a few days, they should just about clean up the Tacoma outfit. The Bees, however, will have to continue at top speed if they wish to overtake Portland or the rest of the first division teams, and it is up to Captain-Delmas to drive his team mates to land them in front. A change in the league leadership is about due, considering the crippled condition of the Beavers and Seattle club at the present. Victoria, by running along steadily, can grab a first division berth in the general scramble.

PACIFIC CRICKET ELEVEN VICTORIOUS

Seventeen runs was the narrow margin by which the Pacific Club earned a victory over the Union Club when these clubs met in a friendly cricket encounter. Hebden, with 48, was high, while Lewin compiled a useful 31 for the winners. The scores:

Pacific Club.	
Collison, Rev. H. A., b Wardle	16
Williams, W., b Hebden	9
York, L. S. V., c Gillespie, b Wardle	11

Genuine Imported Pilsner Beer—as supplied to the Imperial Court of Austria. 10c per glass at The Kaiserhof.

OAK BAY LOOK FOR WIN TO-NIGHT

Oak Bay are confident of winning to-night's intermediate match with the Lathers at North Ward park and Manager McInnes states that the Bays will go right through the remainder of the season without a defeat. The Lathers will be strengthened for this match, and as they trimmed the Bays the last time these teams met, some excitement may be looked for. The game will start at 6.30 p. m.

At present Sidney and Oak Bay are tied in first place. The Oak Bay players: Beasley, Redgrave, McDonald, McInnes, Dempster, Martin, Clarke, Toughy, Williams, Taylor, C. Macdonald, Knox, Menzies, Nobbs.

WELCOME McLOUGHLIN.

San Francisco, Aug. 12.—San Francisco is preparing to give a royal reception to Maurice E. McLoughlin, world's champion, whose victory at Wembledon has brought the Davis tennis trophy back to America. McLoughlin is a San Franciscan.

LEM BEGG WANTS TO MEET BAYLEY

Welsh-Ritchie Bout at Vancouver Assured for Labor Day; Seat Prices Reduced

It is just possible that Joe Bayley will meet Lem Begg, the Montana lightweight, at Prince Rupert early next month. The northern promoters are anxious to secure Bayley's signature for a bout, and if the terms are acceptable, Bayley will meet Begg. The latter is the boy who recently beat Eddie Shannon and is looked upon as a coming lightweight star. Bayley is now seeking another bout with Vaise for the Canadian lightweight title.

Vancouver, Aug. 12.—Harry Foley, manager and trainer of the world's lightweight champion, Willie Ritchie, is due in this city to-day to sign the articles which will bind Ritchie for his 20-round world's championship contest here on Labor Day afternoon with Freddy Welsh, champion of the British Empire. Inasmuch as all Ritchie's terms have been accepted by the promoters, however, the signing of the articles will be a mere formality, Welsh already having signed by the club and all the terms for the battle, with the exception of the weights and referee, being settled.

Reduce Seat Prices.

The weight question is not expected to cause any argument between the fighters. It is known that Ritchie favors a poundage greater than the American lightweight limit, 133 pounds, while Welsh has always been at his best at 135. The men will enter the ring at 1.30 in the afternoon of Labor Day, so it is expected that a weight of 134 or 135 at nine in the morning will be acceptable to both boxers. The club promoters, at a conference last night, decided on a scale of prices from $3 for the bleachers to $10 for reserved seats, with a small block of the choicest ringside seats at $15. At these prices the arena will hold about $36,000.

LONG SHOTS WIN MINORU FEATURES

Vancouver, Aug. 12.—The results at Minoru Park Monday were as follows:

First race, five furlongs, selling.—Grizzly Bear, $4.20, $3 and $2.60 won; Wanna, $4.60 and $3.20, second; Commendation, $3.40, third. Time, 1.02 1-5.

Second race, five furlongs, selling.—Belle of Iroquois, $12.50, $6.80 and $3.80, won; Isom, $11.40 and $5.60, second; Wastella, $3.80, third. Time, 1.01.

Third race, six furlongs, selling.—Philistina, $19.40, $7 and $3.80, on; Fort Johnson, $3.40 and $2.80, second; Edmond Adams, $3.60, third. Time, 1.13 3-5.

Fourth race, five furlongs, selling two-year-olds.—Transact, $5.20, $4 and $2.80, on; Muy Bueno, $6 and $3.80, second; George, $3.20, third. Time, 1.10.

Fifth race, five and a half furlongs, selling.—Gotelus, $3.60 and $2.40, on; Pa, $3.20 and $2.60, second; Manganese, $3, third. Time, 1.06 4-5.

Sixth race, seven furlongs, selling.—Stelcliffe, $3.60, $3.40 and $2.60, won; Lambertha, $10 and $3.40, second; Ben Wilson, $2.60, third. Time, 1.27.

Seventh race, one mile, selling.—C. W. Kennon, $8.60, $5.20 and $4, won; Elgin, $15.60 and $6.20, second; Farraud, $6.20, third. Time, 1.41 2-5.

LATEST AVERAGES OF VICTORIA CLUB

Victoria twirlers have shown big improvement in the past two weeks and the Bees should climb rapidly with steady hitting and fielding behind the slab artists. Kantlehner has come back to his old form, while both Toner and Narveson have averages better than that of the team. The signing of Eitchner gives the Bees another grand right hander. Meek and Swain are the only regulars hitting over the .300 mark, but the team leads the other clubs in hitting and is fourth in fielding. Johnny Rawlings leads the run getters, the averages to date being as follows:

	Won.	Lost.	Pct.
Kantlehner	15	11	.577
Barham	1	1	.500
Toner	13	14	.481
Narveson	14	16	.467
Fitzgerald	5	7	.417
Boatman	2	5	.286

	A.B.	R.	H.	Ave.
Meek	338	62	130	.385
Swain	300	68	97	.323
Delmas	296	32	85	.287
Rawlings	450	75	126	.280
Alberts	277	41	76	.274
Cum	302	41	77	.255
Lamb	305	29	77	.252

TO-DAY IN PUGILISTIC ANNALS

1853—Harry Broome, then heavyweight champion, announced his retirement from the ring. He had been matched for a return battle with Perry, "the Tipton Slasher," for the following day, but was unable to get into good condition, and forfeited his appearance money. Broome won the title from Perry on a foul in 1864, and upheld the honor against all comers until public opinion forced him into another match with the Tipton Slasher. On Broome's retirement Perry again claimed the belt, and held it until his defeat by Tom Sayers in 1857. Broome and Perry were rough and tumble scrappers, while Sayers was a clever and scientific boxer, and one of the really great men of the ring.

1908—Ad. Wolgast and Dan Goodman fought 8-round draw at Racine.

About 1,000 servants are attached to King George's Royal household.

PATRICK TO INVADE CENTRES IN EAST

Trades May Be Looked for During Victoria Hockey Manager's Trip

While the trip will be more of a holiday than a business jaunt, Lester Patrick's tour of the eastern cities the latter part of this month, may well be watched with interest by the eastern moguls. Frank Patrick is now in Montreal, where he will remain until his brother arrives and the pair will then be in a position to make or break any hockey commission that is broached by the eastern magnates. Mr. Patrick's present intentions are to leave Victoria about August 20 and he will remain in the east for over a month, taking a peek at some of the major league ball games. There is also a possibility that some hockey trades may be pulled off while he is in the east.

Through the failure of the Seattle rink to materialize there is no possibility of the Pacific Coast Hockey Association being changed next season, but there will be a number of changes in the personnel of the different teams. Bruce Ridpath, when he visited Victoria in June, broached a couple of trades that look good to the coast magnates and several of the players who wore Vancouver jerseys last year may be seen with the Torontos this season. The Vancouver club is badly in need of a goal-tend, while they would also like a really good goal-getter. In addition to this Frank Patrick has stated his intention of retiring, provided he can sign up a defence star to take his place on the Vancouver line-up.

Unless the eastern magnates draw the "war" upon themselves there will be no such record salaries as last year. The coast players will receive about 25 or 30 per cent more than the eastern hockey stars, but the coast clubs will be prepared to go the limit if necessary to secure the players they figure on. No meeting of the P. C. H. A. has yet been called, but Lester Patrick will have the season's work pretty well shaped up before he goes east, so that he will know exactly how to treat the eastern moguls.

Simple emotion will not suffice to elevate the character or improve the life. There must be strength of will, power of self-denial, persevering effort.

RACE POSTPONED FOR HATHAWAY CUP

It is announced that the postponed race for the Hathaway cup will be run off early next month over the course that was at first mapped out, from Seattle to Victoria. The R. V. Y. C. committee are now in communication with the donor of the cup, Mr. Hathaway, of San Francisco, and it is expected that he will agree to the change of date. Next year, however, complete arrangements will be made to have the race staged during carnival week.

SEATTLE TENNIS.

Seattle, Aug. 12.—Several well-played matches featured the opening of the Washington State tennis championship tournament on the courts of the Seattle Tennis Club. Two Seattle favorites, Sam Russell and W. A. McBurney, and a visiting dark horse, Munro, of Vancouver, played through the day with clean slates. The hardest fought match of the day was between E. E. Adams, the University of Washington captain, and M. Miura, the strong Japanese entry, Adams winning 6-3, 2-6, 7-5. Russell and McBurney won their matches in easy style, Russell defeating W. V. Burrill, Tacoma, 6-2, 6-1, and winning from Charles Donahue by the same score. McBurney disposed of W. L. Myers 6-1, 6-0. Munro, who is considered a likely contender for first honors, won from Foster, a strong local favorite, 6-3, 6-2.

WINS THE COIN

CHARLIE SWAIN

Victoria's heavy-hitting outfielder, who is running third in the official batting averages of the Northwestern League. Swain received a fifty-dollar cheque last week for hitting the bull sign at Seattle. Meek and Strait have also registered "bulls."

B., etc., etc. This publication continues to live up to its policy of supplying accounts of the actual experiences of sportsmen in Canadian woods and on Canadian waters.

CHANGE FOOTBALL RULES.

At a meeting of the international board held at Port Rush in Ireland recently a proposal by the Scottish Football Association to increase the minimum breadth of the field of play from 50 to 55 yards gave rise to a long discussion, and it was decided to negative the proposal.

Scotland also proposed that in Law VI, there should be two players at the moment of kicking or throwing before a play is offside, instead of as at present. This was also lost.

The Football Association of England proposed that the goalkeeper only handle the ball inside his own penalty line, and this was adopted.

Another proposal, that when a free kick has been awarded the kicker's opponents shall not approach within ten yards of the ball until the kick is taken, unless they are standing on their own goal line, was agreed to.

Eitchner, the new Victoria slab artist, is said to be the owner of the fastest "hop" ball on the coast.

Love is faith, is charity, is gentleness; all truth, all peace, all beauty, and all virtue dwell in this one short word; the rule of life, the precept of our death.—Pierce Falcon.

LIBERAL LEADER CHEERS WORKERS

Rousing Call From H. C. Brewster to All Lovers of Clean, Honest Government

A rousing call to the Liberals of the province and to all others who are interested in the re-establishment of good government in British Columbia has been issued by H. C. Brewster, the leader of the party, in the form of a letter to the many associations of Liberals. Mr. Brewster says:

"The recent convention of the party held at Revelstoke conferred upon me the high honor of leading the Liberal party in this province. I accepted the honor and the responsibility with considerable diffidence, realizing as I did what would be expected of one in that office. But the responsibility, great as it is, appears to me to be lightened by the fine spirit of enthusiasm and cooperation displayed, showing that the party as a whole is ready to share with me the work of bringing to an end the period of maladministration by the McBride government in this province.

"The appeal of the Liberal party at the present time is not directed to Liberals alone, but to all good citizens of all parties interested in the welfare of British Columbia. I believe there is a strong under-current of deep-rooted dissatisfaction with conditions prevailing in this province to-day, and the task imposed upon the Liberal party is to convince the electorate that they have an organized party, pledged to public service and ready to assume the responsibilities of government, to which they can turn for relief.

"While it is not my intention to attack individuals in a personal manner, it is my purpose to properly expose and attack measures and policies detrimental to provincial prosperity, and in this connection the ten years' record of the Conservative administration in this province must be shown in its true light.

"The record of the McBride government is well known to those who have taken the trouble to look into it. It has been a record of exploitation, waste, extravagance, centralization of power, over-riding of laws, toleration and protection of vice and, apparently, grafting as well. I believe public sentiment in the province is sound and wholesome at heart, and will readily respond when once thoroughly aroused to the crying need for a change.

"I believe we can truthfully assure the electors to-day that the Liberal party is well organized and equipped to wage successful warfare against the present intolerable conditions and to substitute, when called upon by the people, rule by the people in the interests of the people for rule by a political machine which uses the public revenues to perpetuate the power of the creators of that machine. I would convey to all a word of good cheer in the task which is before those who place the welfare of the province before mere party interests."

COMMENTS ON JUNK

Citizen Who Lived in Orient Tells of Incident Which Occurred Prior to Russo-Japanese War.

A citizen, commenting on the popular construction placed on the recent drifting ashore at Bella Coola of a junk load of Japanese, tells the following story to illustrate the possibility of the men being other than the coolies which they have generally been reported as being:

"About eight months before the Russo-Japanese war," said this citizen, who lived for some 18 years in China and Japan, "there came into our midst in the north of China, where I was living at the time, a clever young Japanese barber, who quickly became popular with all his clients for the neat and capable manner in which he carried out his work. He was intelligent in more than one respect, and month after month found his name more widely known in the district. Then suddenly he announced, not without some show of regret, that he was giving up his business and returning to Japan. The feeling of sorrow was mutual, for the little barber had certainly given his customers courteous treatment, and had, moreover, shown a capability in his art that few of his contemporaries in the business thereabout were able to compete against.

"Two months after he left us the Russo-Japanese trouble broke out, and the Japanese army began to ship over men to China and Siberia in preparation for the impending trial of arms. Then one morning who should turn up but our little barber, nothing less than a major at the head of troops that were soon to send the Russians flying back into their own country.

"I cite the above incident," said the speaker in conclusion, "just to show how a Jap may conceal his identity under a very humble disguise, if need be. There is trouble between the United States and Japan. The junk in question was blown out of its course—a course quite admittedly intended to take them to some American port on the Pacific. It is possible that there may have been barbers, or something corresponding to the barber mentioned, among the crew of the wind-blown so-called 'coolies.' One never knows!"

FAMOUS MUSICIAN OPENS NEW ORGAN

Mr. Clarence Eddy, of Chicago, Gives Recital at St. John's Church; Organ Dedicated

The dedication and opening recital of the new St. John's organ last evening excited widespread interest, and many who came late in the expectation of hearing the famous American organist, Mr. Clarence Eddy, were turned away disappointed in being unable to get a seat. Every pew was crowded, and an auditorium half as large again would almost have been required to accommodate all who came to the doors during the evening.

The Rev. Stanley Ard conducted a short dedicatory service at the commencement of the evening, the programme, the various numbers of which had been cleverly selected with the view of showing off both the instrument and the organist's ability, opening appropriately with the familair strains of "Old Hundred." This setting, composed in the manner of a prelude and fugue by the organist himself, came to a rather abrupt conclusion when the fuse in the organ suddenly burned out, the choir in the interval during which the repairs took place singing Sullivan's "O Gladsome Light."

Resuming his programme the organist took little time in demonstrating to his audience that a beautiful instrument was singing under the touch of a brilliant musician. With a technique which in itself would have given the player a position among the front rank of organists, Mr. Eddy rendered the more difficult passages with faultless ease and grace, exhibiting an exquisite sympathy of touch as much as an absolute knowledge of his instrument.

In such a long programme, each number of which was rendered with such delicacy of perfection, it was difficult exactly to guage in which work the musician's powers were most called upon, but for the breadth of expression demanded both from instrument and player, and for beauty of performance, James Rogers' Sonata in E Minor and the bracketed compositions "Am Meer," by Franz Schubert, and Wagner's Pilgrim's Chorus from Tannhauser, were among the best of the evening. The first number showed the organist's skill in the performance of the merry, sprightly measures of the allegro as well as of the deliberate and leisurely phrases of the adagio. The fugue, with its complex chording and thematic composition, was exquisitely complete in interpretation and performance, and the organist exhibited throughout a delightful reserve which enhanced the effect of his playing.

Schubert's work, "Am Meer," which possesses more of the descriptive features than that classic writer was wont to admit to his compositions, was given in the somewhat sombre manner so suited to the work, the organist showing exceptional skill in the use of the stops in this number, and giving the dignified and devotional character of the work its full recognition. "The Pilgrim's Chorus" is one of the most familiar fragments of any of Wagner's operas, and the brilliance and stately magnificence of this were done full justice to.

A pleasing descriptive composition by Pietro Alessandro Yon, entitled, "Christmas in Sicily," was heard for the first time in the city last evening, the echo organ being used with delightful effect in producing the chimes which ran as an accompaniment all through the work. The musette was heard to great advantage as a counter accompaniment, reproducing the sound of shepherd pipes in a fantastic Pan-music which was very beautiful, other sounds as of distant tinkling bells, chanting priests, and the cooing of doves breaking through the main theme at intervals.

Other beautiful numbers which the organist gave with sympathy and delicacy included Lemare's dainty Spring Song, and the brilliant and complicated Toccata in F Major, by Crawford. Dudley Buck's well-known arrangement of the overture to Rossini's "William Tell," which closed the programme, was among the greater and more difficult of the evening's selections, and called on the player's strength and powers as a virtuoso in the most exacting sense.

Two compositions by G. Jennings Burnett were played during the evening, this being a graceful compliment by one composer and organist to another. The works are both conspicuously graceful in composition, the minuet, which is well described as in the style of Handel, being particularly dainty and crisp in composition.

During the evening Mr. Ard thanked the accomplished organist on behalf of the big audience and also on behalf of the officials of the church, who, he said, appreciated in the fullest sense Mr. Eddy's coming to Victoria to open the new organ at St. John's. The speaker also made reference to Mr. Eddy's visit here in 1901, at which time he had played on the small organ in the old church, and at that time none of them had anticipated the great change which was to come about in the church's estate by this year of grace, 1913, when they not only occupied the new church but were also in possession of such a splendid instrument.

Mr. Ard in conclusion thanked Mme. Clarice Davis, who during the evening gave an earnest rendering of "I Will Extol Thee," which was much admired, the organist playing her accompaniment.

A collection was taken during the evening, and it was announced that Mr. Clarence Eddy would give a second recital this evening, with a complete change of programme.

It has still to be demonstrated that the skyscraper is to be a permanent institution, and it is by no means certain that England, Canada and other parts of the British Empire have not acted wisely in clinging to structures of only moderate height.

OUR LETTER BOX

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. When received later they will be held over until the following day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

DID NOT NOTICE THIS.

To the Editor:—Has the Times, so often a court of appeal for victims of shady transactions, nothing to say about the offensive doggeral lines in a local paper that are intended as an insult to a reverend gentleman who has resided for many years in Victoria with a stainless reputation? In that intensely vulgar production he is likened to the vilest sneak, protrayed by the greatest writer of the nineteenth century.

Personally I am unknown to the reverend gentleman I have referred to, but upon principle I (and every other decent man) strongly protest against such underhand insults to any member of the peaceful clerical profession.

"Etiquette and feelings be blowed," said the editor, "these lines are too killingly funny to be rejected; catch me flying in the face of providence by refusing such inimitable copy, and money so tight."

I would undertake to write better and more scurrilous lines than those mentioned, for publication in the Times, if I had the least expectation they would not be indignantly chucked into the waste paper basket.

ANGLICAN.

WHO IS RESPONSIBLE?

To the Editor:—The parade on Friday was very creditable indeed, but there was one detail which should not be passed over without some comment. I was engaged in conversation with an American visitor when that magnificent stick of timber went by, and we read with interest the announcement that Vancouver Island can supply one billion feet of timber per year for one hundred years. We then caught sight of the picture of Sir Richard McBride, which decorated (?) the display, and my friend inquired as to whose portrait it was. On being informed he said, "Well, did he grow the timber? Does it all belong to him?" On being told that this was only another illustration of the way the game is played in British Columbia, he said, "On our side of the line we have been accused of carrying dirty party politics to great extremes, but I have never seen anything quite so raw as this."

Whoever was responsible for the incident showed the worst possible taste, and it is to be hoped for the good of the province that at the next election Sir Richard will be gently but firmly requested to go away—away back among that tall timber.

DISGUSTED.

Victoria, Aug. 11.

IN NEED OF HELP.

To the Editor:—Now that the New Zealand has gone and we have heard all this talk of our sister dominions beyond the sea and standing by each other, may I bring to your notice a sad case of a young man, with a widowed mother to support, who came to our shores, British Columbia, from Australia, to try and make his home here with us. Instead of bettering himself, he met with an accident in a sawmill and has been permanently disabled from following his usual work. He is worthy, sober and honest, as an investigation will show. He has been here some little time, mostly living in a precarious condition. He has asked people for light work and has met with very little encouragement. He is perfectly willing to help himself and do the right thing if only given the chance.

I would suggest a committee of business people and doctors make an appointment and an investigation of his case, and if worthy take up a public subscription of, say, $50 or $100, committee to suggest how and where it is to be spent. He be given something to sell and a license and started out to give him a chance to make his own living honestly.

There is a living here in this country for all, and just a trifle from each of us will start this young man out for himself again in life.

He has already been investigated by the Friendly Help Society, Market Buildings, city. His name is H. B. Holmes, care of Friendly Help Society, Cormorant street, near fire hall. Postal address, Occidental Cafe, 1317 Wharf street.

HENRY FOLEY.

California Hotel, City, August 11.

A FEATHER IN CANADA'S CAP

The success of Private Hawkins in bringing the King's Prize to Canada is not only a personal triumph for him but reflects itself on all of Canada because, as is well known, the Ross Rifle which Hawkins used is Canada's National Arm, and is made in Canada.

That it was no accidental triumph is evident from the fate that the year before last another Canadian, using a Ross Rifle, also was able to win the much coveted prize, the emblem of the Rifle Shooting Championship of the British Empire.

Furthermore, we are informed that in the match rifle competitions at Bisley, every first prize was won with Ross Ammunition, it being recognized as so much superior to other makes as to have caused it to be adopted by English and other marksmen.

In the Long Range aggregate three out of the four first places were won with Ross Match Rifles while the whole four used Ross Ammunition.

When one considers that Great Britain's manufacturers of arms and ammunition have long led the world in this field of endeavor the Ross Rifle Co., of Quebec, is still further to be congratulated on the success which its rifles and ammunition have achieved.

Regular $2.00 and $2.50 values. August Sale price, per yard..... $1.39

—Second Floor

CITY IS HEALTHY

Medical Health Officer's Report for Past Month Shows Satisfactory Conditions.

In spite of the weather being warm in the past month, Dr. G. A. B. Hall, medical officer of health, is able to report a healthy city.

Most of the cases of infectious disease continue to come from outside the city limits, despite the extra vigilance since the doctor became responsible for all infectious diseases in the Greater Victoria area. He says in his report to the city council:

"I am pleased to be able to say that there is very little sickness in the city for this season of the year, and none of a very serious nature. There have only been five cases of typhoid reported during the whole year so far, which is exceedingly low.

"The cases admitted to the Isolation hospital for the past month were 10 diphtheria, 3 of which were city cases, and 3 scarlet fever, 2 of which were city cases.

"There were 15 indigents, with a total of 301 days. This is the least number of patients treated in the Jubilee hospital for over two years. Most of these cases are chronic, which brings the total of days out of proportion to the number of patients, as compared to other months.

"The usual complaints have been attended to in the sanitary department, and the inspection of food has been carried on as in the past.

"Samples of milk, cream, and water, have been analyzed; the milk and cream on the whole have been very satisfactory. One person was found to be adulterating his milk, and was fined in the police court. The analysis of the water has been handed to the water commissioner.

"There were 39 deaths during the month."

POLICE REINFORCEMENTS

Fifteen Provincial Constables Sent to Nanaimo to Aid City Force Against Rioters.

In response to an urgent request from the civic authorities of Nanaimo, conveyed to the department of the attorney-general through Mayor Shaw, Sir Richard McBride, in the absence of the attorney-general from the city, late last night ordered that reinforcements be sent up at once.

Chief Constable Cox, in charge in the absence on duty elsewhere of Superintendent Campbell, this morning put fifteen men on the early train with orders to report to Senior Constable Hannay at Nanaimo. Most of the men belong to the regular force, drawn from the various places about Victoria, while the number has been added to by the swearing in of some specials.

The situation in Nanaimo as a result of the assaults made on working miners by the strike- is understood here to be somewhat serious, in view of Mayor Shaw's appeal for assistance in coping with the riotou strikers. Chief of Police Neen was injured last night while protecting miners on their way from work to their homes.

DON'T SUFFER NEEDLESSLY

If you suffer from Anaemia, Sleeplessness, Brain Fag, Weakness, Nerve Troubles, Exhaustion, etc., "Wincarnis" will give you prompt relief. You need suffer no longer. Commence taking "Wincarnis" to-day. You will find yourself getting stronger after each wineglassful. And as you continue taking your "Wincarnis" you will feel it surcharging your whole system with renewed Health, Vigor, Vitality and New Life. The reason is that

WINCARNIS

is a tonic, restorative, blood maker and nerve food. Its first effect is to stimulate the heart, revitalize the blood and soothe the nerves. Then it creates new and rich blood, which is carried by the circulation all over the body to repair the wasted tissue, restore the lost vitality, feed the nerves, and make the whole system pulsate with new life. That is why "Wincarnis" gives new life to the invalid, renewed strength to the weak, increased vigor to brain workers, and a wealth of health to every one.

WILL GIVE YOU

Renewed Health, Vigour Vitality and New Life

"Wincarnis" can be obtained from all leading Stores, Chemists and Wine Merchants.

A POSTAGE STAMP

Harnessed to an attractive sales letter is a wonderful propelling force for retail or wholesale business.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 12.—5 a. m.—A large area of low pressure covers the Canadian Northwest provinces, while on the Coast the barometer is comparatively high. Showers have fallen on Vancouver Island and the Lower Mainland, and, with these exceptions, the weather on the Pacific slope is generally fair and warm. East of the Rockies the weather is fair and warm, while showers have fallen at Edmonton and Port Arthur.

Forecasts.

For 36 hours ending 5 p. m. Wednesday.
Victoria and vicinity—Light to moderate westerly winds, chiefly cloudy, with occasional showers to-night or Wednesday.
Lower Mainland—Light to moderate winds, chiefly cloudy, with occasional showers to-night or Wednesday.

Reports.

Victoria—Barometer, 29.93; temperature, 55; minimum, 53; wind, 8 miles S. W.; rain, .10; weather, cloudy.
Vancouver—Barometer, 29.92; temperature, 54; minimum, 54; wind, 4 miles E.; rain, .04; weather, cloudy.
Kamloops—Barometer, 29.80; temperature, 62; minimum, 62; wind, 4 miles W.; weather, cloudy.
Edmonton—Barometer, 29.82; temperature, 56; minimum, 50; wind, 4 miles N.; rain, .10; weather, cloudy.
Winnipeg—Barometer, 29.92; temperature, 62; minimum, 60; wind, 4 miles N.; weather, cloudy.

Victoria Daily Weather.

Observations taken 5 a. m., noon and 5 p. m., Monday:

Temperature.

Highest	69
Lowest	55
Average	62

Bright sunshine, 48 minutes.
General state of weather, cloudy.

Just One Application And the Hairs Are Gone

(Toilet Talks.)

The discomforting hairy growths on lip or cheek vanish following the application of a paste made by mixing enough powdered delatone and water to cover the objectionable hairs. The paste is rubbed off after 2 or 3 minutes and with it comes every trace of hair. The skin should then be washed to remove the remaining delatone and it will be firm and free from spot or blemish. No pain attends this method and rarely is more than one application necessary.

Rubbing pyroxin on eyebrows makes them come in thick and glossy, and short eyelashes will grow long and curly if a little pyroxin be applied at lash-roots with thumb and forefinger. Be careful and don't get any pyroxin where no hair is wanted.

SOCIAL AND PERSONAL

(All personal items sent by mail for publication must be signed with the name and address of the sender.)

Mrs. and Miss Ford are registered at the Empress hotel.

E. H. Elliott, of Toronto, is staying at the Empress hotel.

R. A. Oswald, of Vancouver, arrived in the city yesterday.

W. A. Glass, of Midland, Ont., arrived in the city yesterday.

Mrs. Hale, of Deerholme, is staying at the James Bay hotel.

Lynn Hardy, of Caustro, N. Y., is a guest at the James Bay hotel.

Samuel MacIntyre, of Vancouver, is making a short stay in the city.

J. A. Cooper, of Toronto, arrived in the city yesterday from the east.

Ethel M. Sargent, of Boston, Mass., is registered at the Empress hotel.

E. Gowan Cockerall, of Liverpool, has registered at the James Bay hotel.

G. Holloway is in the city from Duncan, a guest at the Strathcona hotel.

Mr. and Mrs. Gros, of San Francisco, have registered at the James Bay hotel.

A. R. Stevens registered at the Dominion hotel last evening from Duncan.

Leo Scheff, special commissioner for several of the leading newspapers of Great Britain, left last night for Vancouver, Calgary, Edmonton, Montreal, and other eastern points en route for London, England.

Mr. Justice Haggart and Mrs. Haggart are in the city from Winnipeg. Mr. Justice Haggart, before his elevation to the bench to make way for the present minister of public works, was a member for the prairie capital.

Miss McCulloch, who attended both the Lake O'Hara and Mount Robson camps of the Alpine Club, returned to the city last Sunday evening, coming out from Robson park via Edmonton with several other members of the camp.

W. L. Coulson, general manager of the Canadian Collieries (Dunsmuir), Limited, left on the afternoon steamer yesterday for the east, where he will take up with Sir William Mackenzie further development of the company's coal areas.

THOUGHT IT WAS CANCER OF STOMACH

Tortures of Chronic Dyspepsia Cured by "Fruit-a-tives"

Sydney Mines, N. S., Jan. 25, 1910.

"For many years, I suffered torture from Indigestion and Dyspepsia. Two years ago, I was so bad that I vomited food constantly and lost 25 pounds in weight. I was afraid the disease was Cancer.

"I read about 'Fruit-a-tives' and the wonderful cures this fruit medicine was making, and I decided to try it. After taking three boxes, I found a great change for the better and now I can say 'Fruit-a-tives' has cured me when every other treatment failed, and I reverently say "Thank God for 'Fruit-a-tives.'

"EDWIN ORAM, SR."

50c a box, 6 for $2.50—trial size, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

BRACELET SPOOL

Fast to Wrist and Supplies Yarn for Knitting, Etc.

Women who do crocheting, knitting and other forms of needlework know how aggravatingly the yarn can tangle up and the spool, or ball, roll away. A Washington man has designed a bracelet spool that prevents all this. The spool is revolvably mounted on a bracelet, which opens at the bottom, and which can be clasped on the wrist in an instant. The yarn or thread feeds over the back of the hand into the needle, and there is no slack and no

SPOOL CAN'T ROLL AWAY.

possibility of tangling and the consequent tedious untangling. The spool is held lightly in two spring clasps, so that it can readily be removed and a fresh spool put in its place. Being open at the bottom, the bracelet will fit any wrist, and it is made with a finish that will not tarnish.

They were having a spelling lesson over in a certain district school the other day; and the little scholars were all arranged in front of the teacher, spelling away for dear life, trying to see how near they could get to the head of the class. The word "chimney" was given out to a little black-eyed damsel, who had been spelling words correctly all throughout the morning; but she missed this time by inadvertently leaving out the "h." Quick as a wink, the little boy next her pounced on the word and spelt it correctly. "You may go up one, Johnny," said the teacher. "I don't want to!" whined Johnny, getting ready to cry. "My mother would whip me if I did, because I'd get all over soot!"

A MAMMOTH NEW HOTEL FOR LONDON

Is to Be Erected in the West End on the Site of St. George's Hospital

A dispatch recently announced that a mammoth new hotel overlooking Hyde Park is to be erected at a cost of $6,250,000 upon the site at present occupied by St. George's Hospital, in London.

The removal of St. George's has been a possibility at any time for many years past, and it was finally decided upon at a meeting of the governors yesterday. The governors agreed to amalgamate with Westminster Hospital, and the joint institution will be removed to a site in the south of London, possibly at Clapham Common or near Wandsworth Bridge. The result of the amalgamation, it is calculated, will be to leave the new joint hospital with a capital sum of between $4,250,000 and $4,500,000 for endowment.

With regard to the building of an hotel, the site, it is believed, will cost approximately $2,350,000, and the cost of erection will bring the total to $6,250,000. The site is undoubtedly an ideal one for an hotel. It is close to Victoria Station, the great centre for continental traffic, and it is right in the heart of Belgravia. Three of the main arteries for London street traffic lie about it.

The amalgamation of the hospitals will not take place for another two years, and the question of a site has been left to a joint committee consisting of six representatives of each hospital. The removal of St. George's, though it has long been pending, is regarded with some not unnatural regret by the staff.

"There are fully 300 of us," said one of the house surgeons to a Daily Chronicle representative, "surgeons, physicians, nurses, etc., and most of us have been associated with St. George's for many years. Naturally we shall miss the associations; but I suppose it is inevitable, at any rate it has been talked of for a long time, and it has come at last."

For close upon two centuries, since 1733 in fact, St. George's hospital has been a centre of healing in the West-end of London. It was built upon the site of the pleasant suburban residence—for what is now Grosvenor-place was in the suburbs less than 200 years ago—of the first Lord Lanesborough. He chose the site because he was out of the sound of the noisy streets, and could enjoy in private his favorite amusement of dancing. He died in 1723, and ten years after his death Lanesborough House was converted into an infirmary by some seceding governors of Westminster Hospital. The latter is the elder of the two institutions, having been established in 1720 in Petty France, Westminster, and removed in 1724, and again ten years later to its present site.

While the late Sir Richard Jebb was still professor of Greek in the University of Glasgow, his lecture room was directly under that of Veitch, the professor of logic. Veitch always made a point of finishing his lectures some few minutes before the end of the hour, and of winding up with an oratorical peroration frequently concluded by a quotation from one of his favorite poets, Shakespeare or Wordsworth. This was always greeted by his students with tumultuous applause of hands and feet. Jebb, who always found the academic hour too short for his lectures, was often interrupted by the final applause from the domain of logic overhead. One day its vigor was so mighty that a piece of the plastered ceiling was dislodged, and plumped down squarely upon Jebb's outspread book. He cast a quizzical glance upward and calmly remarked: "Gentlemen, it is evident that Professor Veitch's conclusions do not agree with the premises."

PALATIAL EMPRESSES TO PASS ON PACIFIC

Russia and Asia Leave Terminals on Same Day; Passing Outside Yokohama

To-morrow the second of the C. P. R. palatial trans-Pacific liners, Empress of Asia, Capt. Robinson, starts out on her first voyage to this port from Hongkong, and by a singular coincidence in the schedule the sister ship of the newest flyer, the Empress of Russia, Capt. Beetham, gets away from Victoria for the Orient on her second outward trip at exactly the same time. The two great ocean leviathans will pass in the Pacific for the first time one and a half-day's steaming out of Yokohama.

Although the arrival of the Asia will not be the occasion for so great a reception as that tendered on the first visit of the Russia, a great deal of interest is being attached to the initial run of the newest Empress. It is expected that Capt. Robinson, master of the great craft, will try and best the splendid record set by the Russia on her first trans-Pacific trip of nine days and five hours. The Asia will have to behave remarkably well in order to lower this time. She, however, made a little better time on her speed tests than did the Russia, and if favorable weather is with her the possibilities are that the Asia will snatch the blue ribbon away from her sister ship.

Globe Trotters on Board.

Among the passengers who will arrive on the Empress of Asia, which is scheduled to dock here on August 30, will be a large number of round-the-world tourists, who embarked at Liverpool. The Asia is not bringing as large a list on her long voyage as did the Russia on her globe-circling tour. The new Empress cleared from the Mersey on June 14 and after a call at Madiera proceeded to Capetown, South Africa, and after spending two days there continued on to Durban, thence across the Indian ocean to Singapore, Penang and Hongkong. The Asia was sent via Capetown in order to give people who wished to circle the globe the choice of two routes. Many preferred the trip on the Russia, which took them through the Suez canal, but quite a number thought that the weather would be too warm in the Red Sea and took passage on the Asia.

With the operating of both the fast Empresses in the trans-Pacific trade the schedule of the C. P. R. will be semi-monthly. This coast and the Orient will be well linked up with passenger steamships of the finest class.

ENGINE GIVES TROUBLE AND MEN DESERT CRAFT

Vancouver, Aug. 12.—Early yesterday morning the steamer Princess Beatrice reached port having picked up a crewless launch off Bowen Island. The boat was unmanned and her appearance caused Captain Shaw, of the Beatrice, to think that she had been in collision with some steamer and that the occupants had been thrown overboard and drowned.

The facts, however, were learned when L. Swiggert, L. Hatt and J. H. Cross said yesterday afternoon that they had had trouble with their engine early in the morning and had been rescued by the steamer Cheakamus, of the Union Steamship Company's fleet. They had not been in collision but were glad to escape from the rough sea, leaving their vessel behind. They were at the Y. M. C. A. camp at Bowen Island and had left there at 11.30 o'clock Sunday night.

LAKE STEAMER GOES ASHORE.

Mackinaw City, Mich., Aug. 12.—The passenger steamer North American, from Chicago to Fort William, is aground near Mackinaw island. The passengers were taken off by the steamer Algoma. The North American is not seriously injured.

TWO C. P. R. BOATS SECURE CHARTERS

Princess Maquinna and Queen City Both Taken for Special Trips to Far North

MAQUINNA TO HAVE BODY OF GEOLOGISTS ON BOARD

Dominion Government Takes Other Vessel to Carry Indian Commission

Two C. P. R. steamers have been chartered by the Dominion government to take two distinguished parties north. The new Princess Maquinna, which is now on the west coast run, is to be withdrawn for about three weeks and sent to Alaska with the members of the International Geological Congress, which this year meets in Canada, and the Queen City is to carry the Indian commission.

Yesterday afternoon the Queen City was towed from the Hudson's Bay wharf, where she has been lying idle for some time, to the C. P. R. docks, and her bunkers were filled with coal from the barge Will W. Case. To-day she is being overhauled and stores are being placed aboard. It is expected that the steamer will be ready to sail at 9 o'clock on Thursday night. Calls are to be made at all the Indian reservations on the British Columbia coast as far north as the Naas river and the Queen City will then cross Hecate strait to the Queen Charlotte islands, where the commission will look into the conditions of the Indians at the big Masset and Skidegate reservations.

The Queen City will be absent from Victoria for about a month. This vessel was selected to take the commission because of the fact that she is small and can get into the small bays on which the reservations are located, but at the same time she is a splendid sea boat and has fair speed. Capt. Alex. Thompson has been appointed master of the Queen City.

Maquinna Going to Alaska.

The date of the departure of the Princess Maquinna from Victoria has not been decided upon yet. The committee, which is arranging for the entertaining of the eminent geologists who will come here to hold a session on August 26, is now actively engaged in figuring out the best date for the sailing of the Maquinna. It is expected that the steamer will be fully three weeks on her trip, which will extend well along the Alaskan coast. The exact itinerary has not yet been decided upon.

While the Princess Maquinna is off the west coast run the steamer Tees, which was formerly in that service, will make the sailings to Holberg and Clayoquot.

POSITIONS OF R. M. S. P. TRANS-PACIFIC LINERS

The movements of the Royal Mail Steam Packet Company's steamships in the trans-Pacific service are as follows:

Falls of Orchy—Arrived at Shimonoseki from Portland, Ore., August 8.

Vestalia—Left Yokohama for the Pacific coast, August 8.

Den of Ruthven—Left Manila for Japan and Puget Sound, August 8.

Den of Crombie—Due at Hongkong from London, August 8.

Den of Glamis—Due at Hongkong from London, September 19.

Harpalyce—Left Portland for Japan and Hongkong, July 24.

Hartington—Due at Comox, B. C., August 15. To load at Seattle and Portland for Kobe, Moji and Manila.

CAPT. GRANT BEFORE SEALING COMMISSION

Managing Director of Victoria Sealing Co. Gives Evidence

The question as to the use of sealing vessels for other purposes than for that for which they were built came up at the sealing inquiry this morning, and through the evidence of Capt. William Grant, managing director of the Victoria Sealing Company, it was learned that a sealing vessel might be good for a fishing vessel, but by no means for freighting purposes of any kind. He stated he had known cases where a gasoline engine had been placed in a schooner, the vessel in this way being made useful, but as for making a sealing schooner good for freighting purposes as she stood, the steam business was too great, on this coast at any rate.

This matter brought out an argument from Sir Charles Hibbert Tupper on the unfairness of the fishing industry on this coast as comparing American with Canadian ships. He stated that the New England Fishing Company, which has a monopoly on the deep sea fishing of the coast, could come to Vancouver with ships of American register and ship fish through that city to the eastern markets of Chicago and New York, duty free, while should the Canadian ships wish to send their goods east to the same place they would be charged 2½ cents duty on all fish entering the United States, as it being practised by the New England Fishing Company at Vancouver.

In returning to the subject regarding the salability of a sealing schooner, Mr. Justice Audette did not see why the vessels could not be sold at Halifax, as in the days of old they had been bought at that port and brought around here to sail in the sealing industry. Sir Charles, however, stated that there were not the lucrative prospects to encourage a purchaser in Halifax that there had been in the days of pelagic sealing, and there was also the risk and expense of taking the vessel that distance for a sale.

Capt. William Grant in 1888 went to Japan and purchased the schooner Beatrice for $5,000 and put her in operation. He later built the Ainoka for $6,500, and in 1896 he bought the Penelope for $4,500. Mr. Justice Audette here asked if there was any particular demand for vessels at that time, and the witness replied that there was none in particular.

In referring to evidence given by Mr. Smith, who appeared before Captain Grant, was called and who with Messrs. Turpell and Baker composed the committee selected to survey the schooners for the purpose of required repairs after each season's cruise, Capt. Grant was asked to give where the basis of $147 per ton for each and every vessel to be improved, mentioned by Mr. Smith, was originally set. Mr. Smith was unable to answer the question, and it was brought up again when Mr. Grant got on the stand. He stated that it had been taken from the report which was made by Fennings Taylor, an official of the marine and fisheries department, who came out to make a report on the vessels lying in the inner harbor for the Canadian government.

The question as to the cost of building vessels and repairs was also introduced in the evidence given by Messrs. Turpell and Smith, who were called by the Victoria Sealing Company. The schooner Cox's hull had cost $5,000, which included the finished hull, no cabins, but the masts. When asked what he thought the finished vessel would cost when ready for sea, he said from $11,000 to $12,000.

Questioned as to the rate of wages, he said that at the time of the building of these vessels they were higher for ship building carpenters than at the present time. Mr. Smith stated that skilled men earned $4 to $5 per day, while at the present time he understood they received about $4 per day.

Samuel Birch, who had been a part owner in the Allie I. Alger, was introduced as a witness for the government. Mr. Birch was brought to the stand to give evidence in regard to the purchase and the sale of the Allie I. Alger. He understood that the vessel had been sold to the Victoria Sealing Company, although he had nothing to do with the transaction.

ANOTHER HUGE CARGO GOES OUT TO ORIENT

Nippon Liner Sado Maru Clears Heavily-Laden; Yokohama Berths in Morning

Bound for Oriental ports, including Yokohama, Nagasaki, Shanghai and Hongkong, the Nippon Yusen Kaisha liner Sado Maru, Capt. Asakawa, departed late this afternoon. As is usually the case at the sailing of one of these big ships, the Sado was resting deeply in the water, her Plimsoll mark being just a few inches above where she was awash.

Close on to 7,000 tons of general freight were taken, amongst which were heavy shipments of wheat, flour, lumber, fish, machinery, electrical supplies, sewing machines, phonographs and tobacco. Not only was the Sado full up with cargo, but all her passenger accommodation was taken. Her thirty first-class cabins were all disposed of at Seattle, with the exception of two, which were reserved for Miss Allen and Miss Craig, two missionaries from Toronto, who are going to Shanghai, and joined the boat at this port. Some 20 steerage passengers also boarded the Sado here.

Yokohama Berths To-Morrow.

To-morrow morning shortly after daylight the steamship Yokohama Maru, Capt. Wada, also of the Nippon line, will be off William Head, and she will berth at the outer docks about 8 o'clock. The Yokohama is making a fairly smart run across the Pacific from Yokohama, being well under fifteen days. For Victoria the Japanese steamship has about 500 tons of cargo as well as a fair contingent of Chinese steerage passengers.

The Bellerophon, Capt. Bebb, of the Blue Funnel line, is expected to return from Vancouver to-morrow morning to load whale oil and lumber.

MAKES A ROUND TRIP WITH TWO CYLINDERS

Princess Sophia Meets With Accident to Low Pressure; Lost Very Little Time

Making the round trip to Skagway with only two of her cylinders working, owing to a mishap to the low pressure, and only losing about fifteen hours in ten days' steaming, was the feat of the C. P. R. steamer Princess Sophia, Capt. Campbell, which came into port this morning from northern points. The vessel is now undergoing repairs and it is expected that she will be able to leave here on time Friday night.

When the Sophia was backing out of Vancouver on her last trip north, Capt. Campbell signalled for the engineer to come ahead. In carrying out the order the engine was stopped, but when an attempt was made to start going ahead the machinery refused to move. As the Sophia had considerable weigh on, Capt. Campbell had the anchors dropped to check her up. When it was discovered that the engines were jammed the steamer was worked back to her berth with an anchor. An examination showed that the sliding valve of the low pressure had broken. The engineers hastily disconnected the disabled cylinder and finally it was decided to let the Sophia continue to Skagway. With two cylinders working she maintained an average speed of over ten knots, which is only about two knots under her regular speed.

Many Tourists Travel.

The Princess Sophia is handling large crowds of tourists and this trip she had nearly fifty round-trippers. The weather was not of the best for seeing the beauties of the coastline, owing to drizzling rains falling at intervals.

The C. P. R. officials expect that the repairs will be effected before the Sophia's sailing date. A new casting is now being made for the sliding valve.

SHIP SIMLA AS OIL-TANKER.

Vancouver, Aug. 12.—C. Gardiner Johnson H. N. Boultbe, W. E. Walton, G. E. Walton and A. Wood have purchased the old British ship Simla, and will employ her for the carrying of oil between San Francisco and Vancouver. The hulk is now at San Francisco fitting up. The Simla will come here on her first trip next month towing behind the steamer Washtenaw.

HOW TO LIVE LONG.

Sir William Crookes on his eighty-first birthday described as "active, alert, with an expressive countenance on which Father Time has not as yet set a single wrinkle," advises those who would live long—keeping young, of course—to work hard with the brain at an agreeable occupation. Sir William is a physicist and chemist. He enjoys his vocation. He is an authority in sanitation, and he invented, among other scientific appliances, the Crookes tube, which is remarkable for approximating what we have been told Nature abhors, a vacuum. There are other forms of such tubes, but Crookes' is distinguished for the production of the X-ray. His vacuum is so extraordinary that it is said to reveal physical properties not before known—a "fourth state" of matter supplementing the classic solid, liquid and gaseous.

Like most rules of conduct, Sir William's is not universally available. Only on Mars, so far as is surmised, does everybody work mostly with the brain. Physical culture is a secondary consideration, according to Sir William. "When I say hard work, I do not, of course, mean physical labor." Plato thought attention to health a waste of energy. The underlying prescription is to have agreeable occupation. But is that always to be had? A speaker at a gathering of workmen recently called upon those who relished their tasks to rise. Only a few responded. They were all manual laborers. Those engaged in intellectual pursuits would probably disclose a larger proportion in love with their work. Many such have shown readiness to suffer physical privation rather than take uncongenial employment with promise of a comfortable income.

Environment, of course, is a consideration of the task's enjoyment. A worker may find the natural satisfaction derivable from his occupation diminished by his surroundings. The ideal is such independence as Sir William enjoys; or Sir George Birdwood, a sprightly young man of the same age, who also holds that attention to physical health has nothing to do about it; or Lord Wemyss, who is 64 and master in fee simple of 62,000 acres. However, is there not something to be suggested in the way of cultivating a relish for whatever you have to do in whatever circumstances you have to do it in? "A certain playful devilry of spirit," Sir George testifies, has helped him immensely over the bumpy spots of life. As nearly as can be the universal rule, perhaps, is contained in two words, "Cheer up!"

Secretary Hobson—"Did you discover any irregularities in the Red Tape Bureau?" Inspector Sharp—"Yes, four of the employees were hard at work."

Ready Instantly

Place a level teaspoonful of Instant Postum in an ordinary cup, pour on hot water, stir until dissolved, add sugar and cream to taste—

AND YOU HAVE INSTANTLY
A MOST DELICIOUS BEVERAGE

This makes Instant Postum right for most people. Some like it stronger and use a heaping teaspoonful and plenty of cream. Experiment until you get it right for your taste and have it always made that way.

Instant Postum

is regular Postum reduced to powder form and soluble in hot water.

Postum comes in two forms.

Regular Postum must be boiled.

Instant Postum requires no boiling, but is made in the cup—instantly.

Postum is a pure food-drink made from whole wheat and a small percentage of New Orleans molasses. It is entirely free from caffeine, the drug in tea and coffee, and is used by hundreds of thousands who appreciate the comfort and advantage of being well.

If tea and coffee don't agree, try Instant Postum.

CANADIAN CELEBRITIES

Z. A. LASH

The Silent Partner in the Famous Firm of Mackenzie & Mann

(B. J. Cooke.)

Zebulun Aiton Lash is probably the most successful publicity dodger, the most nearly successful fugitive from notoriety, of any really noteworthy man in Canada. Day in and day out he trudges along the worn sidewalks that lie between the Canadian Bank of Commerce head office in Toronto and the head offices of Messrs. Mackenzie & Mann, three blocks as along King street, or is swept from engagement to engagement in a motor so big that he looks lost sitting all alone in the big back seat, and yet he gives no interview, is seldom the victim of the press photographer, and is never caught making an indiscretion in print. Sir William Mackenzie cannot move out of his accustomed beat without at least six reporters and as many newspaper cameras following him. Sir Donald Mann gives interviews regularly, either on reciprocity, woman's suffrage or the price of steel rails, but the unseen and unheard partner in that wonderful firm of Mackenzie & Mann and in that other notable organization, the Canadian Northern Railway, moves unscathed among countless reporters. Thousands know his name. The same thousands see him every day in the year and scarcely think more than "Who's the little man sitting in the motor?" One does not see his picture in Sunday supplements and magazine articles, or see his views quoted under big headings in the papers. Yet he is the third man in the great Mackenzie & Mann organization, which is not, as the public has been led to believe, a twin partnership, a coalition between two great railroad builders, but a double arrangement but triple! And the weakest of the three—if there is any weakest—is not Zeb. Lash, K.C.

On the surface of course Z. A. Lash is only a lawyer. He is known as the senior partner in Messrs. Blake, Lash, Anglin & Cassels, of the Bank of Commerce building, Toronto. But although the law was the career that Lash as a young man chose, he was not the sort to be content to stop at merely being senior partner in a big firm. From his birthplace in St. Johns, Newfoundland, where he was born in 1846, fate brought him to Dundas, Ont., for a grammar school education. Love of learning took him then to the University of Toronto, and hard work led him to a barrister's gown at the age of twenty-one, when he was called to the bar of Ontario. In the practice of law he became a member of the firm of Von Koughnet & Lash, and later of the firm of Beatty, Chadwick & Lash. In 1876, being only thirty years of age, he became deputy minister of justice for Canada and resided at Ottawa. In 1882 he left the government service to join Hon. Sam Blake and Mr. Cassels in the present well-known firm, and with this had reached, practically thirty years ago, the same height as a lawyer which he holds to-day.

But his activities extended outside the law, and when William Mackenzie and Dan Mann—in those old days little dreaming of knighthoods—got into their first bad legal tangle and somehow found their way into the office of the little lawyer with the side-burns and the bright eyes, they unwittingly stumbled upon the man who was to be a silent but dominating factor in making successful most of the big undertakings they engaged in thereafter.

The legend goes that William Mackenzie had, in an impetuous moment, undertaken more than he and his partner had been able to do, and that the big co-worker had not been able to find the usual way out. Their solicitor had failed. Their next assistant solicitor had given it up and they faced trouble. In such a situation it was not only an astute legal mind they required to help them, but a man of integrity upon whom they could rely to the utmost. And seeking such a man they found Zebulun Lash.

On his part, too, Lash had made a discovery. Brooding over musty legal files he had dreamed big dreams of work to be done and rewards to be had. He had wished that he had not been tied to law books and clients with petty cases. He saw an empire to be conquered in Canada, and when he met Mackenzie & Mann, blundering from one big job to another like two big school boys with giant abilities and no finesse, he saw his opportunity and seized it. It was Zeb. Lash, little, broad, stout, fussy looking, with gray side burns and snappy eyes, who made the big speech introducing Mackenzie & Mann to the city of Toronto at a Board of Trade banquet fifteen years ago. Toronto scarcely knew Mackenzie & Mann until then. It was Z. A. Lash who began to add finesse to their workings. He showed them better methods of financing. He taught them the true value of government backing. He showed them the mistake of asking too little for a railway, and, most marvellous of all, taught them the value of personal publicity—he the most modest man in Toronto, who shrinks from public gaze into the quiet of his unostentatious home, and is never quoted!

To-day Mackenzie & Mann and the Canadian Northern Railway rival the C.P.R. in prestige and importance. To-day Z. A. Lash is a vice-president of the Canadian Northern Railway and a director of Mackenzie & Mann, Ltd. He is vice-president of the Sao Paulo Tramway, Light & Power Company, the Mexico Tramway Company and the Rio de Janeiro Tramway, Light & Power Company—all of them Mackenzie & Mann interests—to say nothing of the National Trust Company and other leading Canadian corporations. But chiefest of the business interests is the Canadian Northern.

In private life he is a maker of fishing poles, a lover of sport and devoted to good books, but above all a domestic man. The sanctuary of the home and the responsibility of the family are chief tenets in his religious belief. From the world of business as it hurries and throbs outside the windows of his down-town office he retires to the quiet of an old-fashioned house on an old-fashioned street in Toronto. His blinds are not lifted for the public to see the inside of his home, however magnificent. No great porticoes or elaborate architecture attracts the admiration of the passerby. This is as Zebulun A. Lash wishes it. He loves privacy and retirement, and, strange to say, more nearly succeeds in getting it than most people. Occasionally, he goes off on long holidays, in which, if opportunity affords, he goes fishing. For a rod he takes split bamboo and builds it up to suit himself. There are few better rods offered in any of the sporting goods stores than Z. A. Lash makes for himself.

Outwardly he is alert, brisque, suspicious of strangers, indifferent, almost harsh, but inside this outer casing is a warm and impulsive heart that begrudges nothing to those he knows and loves. Young business men and lawyers have not seldom found themselves unexpectedly assisted by man who refused to wait for thanks. Opponents in law or business have been surprised to find him not inexorable, but almost quixotic in his passion for fair play to both sides! In parts of Canada his name is regarded as synonymous with vested rights, protected interests and predatory wealth. Z. A. Lash is not an oppressor, nor a capitalist in the sense Socialists use the word. He believes in vested right and protection as necessary to the nation. In this he may be wrong, but no man has ever been able to accuse Z. A. Lash of being insincere. He believes in what he does.

One of his pet themes is the need for educating the immigrant to Canadian ideals. "What is the best way to make newscomers to Canada good Canadians?" he once exclaimed in a speech in Toronto. "Give them full and true information about Canada!" That speech was made years ago. Recently he provided a young Canadian journalist with the means of starting an agricultural paper that would help carry out his idea of education.

Thousands differ with Zebulun A. Lash in his opinions. He is misunderstood by many and misinterpreted by others. Above the turmoil he stands as a constructive Canadian, an upright gentleman and a zealous citizen.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of Bisurated Magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated Magnesia is doubtless the best food corrective and antacid known. It is not a medicine, and has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little Bisurated Magnesia from your druggist, eat what you want at your next meal, take some of the Bisurated Magnesia as directed above, and see if I'm not right."

Roofs Made Fire-Proof by Newton & Greer Co., 1326 Wharf Street, makers of "Nag" Roof composition.

FIRST THING

The first popular exponent of agnosticism in America, Robert Green Ingersoll, was born at Dresden, N. Y., eighty years ago. The word "agnostic" was coined by Prof. Huxley to express the religious status of those who professedly "do not know" anything as to the existence or non-existence of a God. The label was accepted by a large proportion of the greatest scientists, but it remained for Ingersoll, one of the most eloquent of American orators, to attempt to popularize the doctrine. While his contemporary, Charles Bradlaugh, born in the same year, was preaching atheism to the English masses, Ingersoll contented himself with the more scientific position. An able lawyer and possessed of those qualities which carry a man far in politics, he disregarded all personal considerations to spend the best years of his life in warring on Christianity and all supernatural religions. In addition to his numerous lectures, he engaged in notable controversies in the North American Review with such men as Gladstone, Dr. Henry M. Field and Cardinal Manning. Ingersoll neither affirmed nor denied immortality, but admitted that "In the night of death hope sees a star, and listening love can hear the rustle of a wing."

The common fowl is not mentioned in the Old Testament, and was probably introduced into Palestine after the Roman conquest. The "unicorn" of the Old Testament was probably the Syrian aurochs, now extinct. That the "behemoth" was not the hippopotamus is made probable by the fact that there is no record of the latter animal in Syria or Palestine in historical times. The "tares" of the Bible were darnel grasses, whose seeds were poisonous; the "rose" was probably the narcissus; while the "lily" was the poppy anemone.

NAVIGABLE WATER PROTECTION ACT.

NOTICE is hereby given that John Musgrave, of the City of Victoria, British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the area plans, site and description of the works proposed to be constructed in Victoria Harbor, Victoria, British Columbia, being land situate, lying and being in the City of Victoria aforesaid, and known, numbered and described as Lot 565a and the easterly six feet of Lot 566a, Victoria City, and has deposited the site plans of the proposed works and description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles at the Land Registry Office at the City of Victoria, British Columbia, and that the matter will be proceeded with at the expiration of one month from the time of the first publication of this notice in the Canada Gazette.

Dated this 25th day of June, 1913.

JOHN MUSGRAVE,
By his solicitors, Robertson & Heisterman, 614 Fort street, Victoria, B. C.

NOTICE.

"Navigable Waters Protection Act."

NOTICE IS HEREBY GIVEN that the GENOA BAY LUMBER COMPANY, LIMITED, with head office at the City of Victoria, in the Province of British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the area plans, site and description of works proposed to be constructed in Union Bay, Saanich Arm, Vancouver Island, at the northeast corner of Lot Three (3), part of Section Eleven (11), Range I., W., North Saanich, Province of British Columbia, according to a map or plan on file in the Land Registry Office, at the said City of Victoria, and there numbered 1013, and has deposited the area and site plans of the proposed works and a description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office in the City of Victoria, British Columbia, and that the matter of the said application will be proceeded with at the expiration of one month from the time of the first publication of this Notice in the Canada Gazette.

Dated this 10th day of June, A.D. 1913.

Petitioner.
GENOA BAY LUMBER COMPANY, LIMITED,

NOTICE.

NOTICE IS HEREBY GIVEN that thirty (30) days after date an application will be made to the Board of Licensing Commissioners for the Municipality of South Saanich for a transfer of the license held by me for the sale of spirituous and fermented liquors by retail on the premises known as the "Burnside Hotel," Burnside road, South Saanich, from myself to George Herbert Patton.

Dated at Victoria, British Columbia, this fifth (5th) day of August, A.D. 1913.

J. W. ROWLAND.

NOTICE TO WATER CONSUMERS.

Owing to the unnecessary and wasteful use of water, it has been found necessary to enforce the provisions of Clause 21 of the Water Works By-law, which is as follows:

"21. No person shall sprinkle, or use in any manner whatever, the water supplied by the city upon lawns, gardens of any description, except between the hours of 5 and 9 o'clock in the morning, and the hours of 5 and 10 o'clock in the evening."

The water will be turned off from the premises of any party detected infringing this By-law.

C. H. RUST
Water Commissioner.
Victoria, B. C., July 23, 1913.

LIQUOR ACT, 1910.
(Section 19.)

Notice is hereby given that application will be made to the Superintendent of Provincial Police for renewal of license for the sale of liquor by wholesale in and upon the premises known as 1117 Wharf street, situate at Victoria, British Columbia.

Dated this 19th day of July, 1913.

R. P. LITHEBY & CO., LTD.,
Applicants.

NEW DRILL HALL AT KAMLOOPS.

Sealed tenders, marked on the envelope "Tender for Construction of a New Drill Hall at Kamloops, B. C.," and addressed to the Director of Contracts, Department of Militia and Defence, Ottawa, will be received until noon, August 16, 1913, for the construction of a new Drill Hall at Kamloops, B. C.

Specifications may be seen and full particulars obtained at the offices of the District Officer Commanding Military District No. 11, Victoria, B. C.; the City Clerk, Kamloops, B. C., and the Director General of Engineer Services, Headquarters, Ottawa.

Tenders must be made on the form supplied by the Department and accompanied by an accepted cheque on a Canadian Chartered Bank, for ten per cent. (10 p.c.) of the amount of the tender, payable to the order of the Honorable the Minister of Militia and Defence, which amount will be forfeited if the party tendering declines to enter into or fails to complete the contract in accordance with his tender.

The Department does not bind itself to accept the lowest or any tender.

EUGENE FISET, Colonel,
Deputy Minister.
Department of Militia and Defence, Ottawa, July 14, 1913.

PUBLIC BUILDINGS, NEW WESTMINSTER.

Sealed tenders addressed to the undersigned and endorsed "Tender for Addition and alteration to Public Building, New Westminster, B. C." will be received at this office until 4.00 p. m. on Tuesday, August 12, 1913, for the work mentioned.

Plans, specifications and form of contract can be seen and forms of tender obtained at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B. C., at the Post Office, New Westminster, B. C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa, July 15, 1913.

DREDGING SOOKE HARBOR.

Sealed tenders, addressed to the undersigned, and endorsed "Tender for Dredging Sooke Harbor, B. C.," will be received until 4 p. m., on Wednesday, August 27, 1913, for dredging required at Sooke Harbor, B. C.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, for five per cent. (5 p. c.) of the contract price, the cheque to be for less than fifteen hundred dollars), which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa, July 10, 1913.

NOTICE.

NOTICE IS HEREBY GIVEN that plans, together with a description of the proposed site, for the construction of a logging boom and the driving of piles for booming purposes in the Jordan River, Vancouver Island, in the Province of British Columbia, and at the mouth thereof, have been filed with the Minister of Public Works, Ottawa, and with the Registrar General of Titles at Victoria, B. C., and that application will be made to His Excellency the Governor-General of Canada in Council for the approval thereof.

THORNTON FELL,
Solicitor for Merrill & Ring Lumber Co., Limited, Victoria, B. C.

TO-DAY IN CANADIAN HISTORY

Dr. Herbert Binney, distinguished Canadian theologian and churchman, was born in Nova Scotia ninety-four years ago to-day, August 12, 1819. His education was obtained in the Mother Country, where he graduated from King's College, London, in 1839, and from Oxford in 1843. He was appointed bishop of Nova Scotia and Prince Edward Island in 1851, this being the first instance of England founding a bishopric in her colonies. His reputation as a theologian extended far beyond the confines of his bishopric, and he addressed many important religious gatherings in England and the States as well as in Canada. He died in Nova Scotia in 1887.

Dr. Alexander Burns, Methodist clergyman and educator and the defendant in a famous heresy trial thirty years ago, was born in Ireland seventy-nine years ago to-day. He came to Canada in his youth, graduated from Victoria College, Toronto, and for a decade was president of Wesleyan Ladies' College in Hamilton. He was acquitted of the heresy charges made against him in 1862. He died in Toronto in 1900.

A huge log raft from Nova Scotia reached New York twenty-five years ago to-day. It contained 22,000 trees. The cost of transportation was $7,000, a saving of $23,000 over the ordinary methods of transport. The raft was about 600 feet long and weighed nearly 6,400 tons.

BIRTHDAY CONGRATULATIONS

TO

Beattie, Thomas, M. P. (London, Ont.); born, London, 1844; served in Northwest rebellion, 1885; Conservative M. P. for London, 1896-1900 and since 1907.

Beatty, Henry Albert, M. D. (Toronto); born, Thorold, Ont., 1874; chief medical officer of the C. P. R.

Bingham, George (Winnipeg); born, Liverpool, Eng., 1877; served in South Africa; barrister.

Broughall, Frederick William (Toronto); born, Toronto, 1867; general manager of Sterling Bank of Canada.

Coffey, Hon. Thomas (London, Ont.); born, Castleconnell, Limerick, Ireland, 1843; journalist for many years; senator since 1903.

Courtney, Lieut.-Col. Reginald Mortimer, C. E. (Ottawa); born, Ottawa, 1871; served in South Africa; a former commander of Princess Louise Dragoon Guards.

Fraser, Graham (New Glasgow, N. S.); born, New Glasgow, 1846; general manager of Dominion Iron & Steel Company for several years; one of the pioneers of the coal and iron industry of Nova Scotia.

Geary, George Reginald, K. C. (Toronto); born, Strathroy, Ont., 1873; mayor of Toronto, 1910-1912; now corporation counsel.

Hogg, William Hall (Vancouver); born, Peterborough, Ont., 1862; manager of Calgary branch of Bank of Montreal for many years; now its manager at Vancouver.

Irwin, William Wallace (Moose Jaw); born, Kincardine, Ont., 1882; dentist and publicist.

McKim, Rev. Charles W. (Edmonton); born, Toronto, 1867; curate of Holy Trinity, Winnipeg, for several years; rector of Kenora and archdeacon of Keewatin, 1906-1913; now rector of Christ church, Edmonton.

Shillington, Lieut.-Col. Adam Toseland, M. D. (Ottawa); born, Prospect, Lanark, 1870; physician and soldier.

Stanbridge, Wallace George (Winnipeg); born, Sussex, Eng., 1881; estate and financial broker.

Steveley, Samuel (London, Ont.); born, Wardsville, Ont., 1855; manufacturer; former mayor of London.

Walter, John (Strathcona, Alberta); born, Orkney, Scotland, 1850; Hudson's Bay official for many years; a pioneer lumber merchant of Alberta.

SCRAP BOOK.

Jews Fast in Remembrance of Temple's Destruction.

In the Jewish calendar to-day is the ninth of the month of Ab or Av, and a day of fasting and prayer, of sad and solemn memories. In this city and throughout the world impressive and mournful services will mark the fast which commemorates the destruction of the temple in Jerusalem by the Roman soldiers in the year 70 A. D. In most orthodox synagogues the worshippers remove their shoes before the service begins. Dirges called Kinnoth are recited, and selections are read from the book of Lamentations and other Jewish holy works.

A modern feature of the fast of the ninth of Ab is the collection of funds for forwarding the Zionist "back to Palestine" movement. Zionists throughout the world have agreed upon this day as an appropriate one for the solicitation of funds to aid the movement for the restoration of Palestine to the Jews. The destruction of the temple and city of Jerusalem by Titus spelled political death to the Jewish nation, but the spirit of hope for the future now lightens the grief of the past.

For years before the tragic event which is commemorated to-day the Jewish people were in revolt against their Roman masters. In A. D. 69 the country was ravaged, and almost the entire population driven into Jerusalem. There they were besieged by Titus, son of the Emperor Vespasianus, at the head of a force of 80,000 veterans of the legions. Titus offered honorable terms if the defenders of the city would surrender, but his envoys were met with a shower of arrows.

Immediately the Romans turned upon the sacred city of the Jews all the enginery of warfare known at that time, and soon battered down the outer wall. The second rampart stood firm for a time, but within the city starvation and terror reigned. Of the tragic siege which was to mark the downfall of an ancient nation Ridpath has written:

"Famine began to gnaw at the vitals of the city. The factions hawked at and tore each other, and the distress became intolerable. The wolf of cannibalism began to screech in the streets. The bodies of the dead began to be eaten by the survivors, and then the living quailed at the horrid thought of being served up to the soldiers. In the wild rage of the hour children were eaten by their parents. The insane illusions begotten of unappeasable hunger and fanaticism seized upon the feverish minds of the multitudes as they surged from one side of the city to the other looking for the Christ. Delirious prophets cried in the streets. Prodigies were seen in the heavens—spectral warriors striding the clouds as cherubim going to battle.

"Finally the tower of Antonia was carried by assault, and the engines were brought to bear upon the temple of Mount Moriah. This beautiful edifice soon yielded to the battering-rams, and was stormed by the assailants. The Roman soldiers, rushing into the holy place over the bodies of the slain, applied fire-brands, and the building was soon wrapped in flames. . . . The Roman general resolved to accomplish the complete destruction of the race. Thousands upon thousands of the crowded hosts of Zion died of starvation, and other thousands, attempting to break through the lines, were impaled on Roman spears. At last the work of destruction was complete. The remnant was captured and sold into slavery. The annihilation of Jewish nationality was complete. Jerusalem was reduced to a ruin, and the survivors of her people were to be found exposed in the slave markets of Rome or groaning out their lives in the rock quarries of Egypt."

That the Jews survived this attempt at their annihilation and the long centuries of persecution that followed is proof of a racial vitality such as is possessed, perhaps, by no other people.

Money to Loan

THE HUMAN PROCESSION

The tragedy that has dogged the Romanoffs ever since they won the Russian throne three centuries ago seems to have claimed for its especial victim the little Czarevitch, Grand Duke Alexis Nicolaivitch, whose birth nine years ago to-day, August 12, 1904, caused so much rejoicing throughout the empire of the Great White Czar. There is an unwritten law that no cripple or deformed person may rule Russia, and the Czarevitch is now declared to be an incurable cripple. The wonder is that he is alive, for since his last birthday dispatches from St. Petersburg have reported that the heir to the imperial throne has suffered the following misfortunes:

Attacked by Nihilists on the imperial yacht Standart—some reports alleged that he was shot, and others that he had been maimed with a knife.

Fell overboard from the yacht and suffered severely from the immersion.

Developed hermophilia, bleeding on the slightest provocation, an ailment said to be hereditary in the Russian royal family.

Acquired tuberculosis of the hip joint, also a disease of the kidneys and an incurable affection of the skin.

Whatever the cause of his condition, it is now generally admitted that the Czarevitch is unlikely ever to become the Autocrat of all the Russians.

* * *

Roland Burnham Molineux, chemist and author, one of the few who have entered the death house of Sing Sing prison and came out alive, was born in Brooklyn forty-seven years ago to-day. He was accused of having sent a bottle of headache medicine containing a deadly poison to Harry Cornish, and that the latter's landlady, Mrs. Adams, took it instead. After a sensational trial Molineux was convicted and was sent to the death house to await his turn in "the chair." He was granted another trial, and was acquitted, but not until after his father, Gen. Edward Leslie Molineux, had spent a fortune in his defence. In "The Room With the Little Door," published ten years ago, Molineux gave a dramatic account of the agonizing sensations of four terrible years, during which many of his comrades in the death house passed through the "little green door" that leads to the electric chair and the grave. Molineux has since written several other books, and has lately completed a play that will be produced at an early date.

* * *

Earl Russell, the Socialist member of the British House of Lords, passes his forty-eighth milestone to-day. He is an agnostic as well as a disciple of Marx. His brother, who is heir presumptive to the earldom, the Hon. Bertrand Arthur William Russell, is a member of the faculty of Trinity College, Cambridge University, but will soon come to America to accept the chair of philosophy at Harvard. Prof. Russell has an American wife, who was Miss Alys Smith, of Philadelphia. The earl succeeded his grandfather, the Democratic Lord John Russell, in 1878. He is a barrister and an electrical engineer, and an author of no small ability. The earl divorced his first wife, securing the decree at Reno, Nevada, and on his return to England the former Countess Russell had him arrested for bigamy, but he was soon released. While the owner of a considerable estate in Ireland, the earl is an advocate of the nationalization of land as the first step toward socialism. He is a keen debater, and often aims his shafts of satire at his fellow nobles, which does not add to his popularity. Indeed, he is considered the black sheep of the House of Peers.

An engineer on the construction line of one of the railroads in British Columbia says he has discovered a new way to get rid of mosquitoes. He says the way to do it is to rub alum on your face and hands. When the mosquito takes a bite, it puckers his buzzer so he can't sting. He sits down in a damp place, tries to dig the pucker loose, catches his death of cold, and dies.

Na-Dru-Co Laxatives

are especially good for children because they are pleasant to take, gentle in action, do not irritate the bowels nor develop a need for continual or increased doses. 25c. a box, at your Druggist's.

TO CITY SUBSCRIBERS

In order to render the best possible service, we request city subscribers to immediately phone or write The Times Circulation Department in all cases of non-delivery or bad delivery of paper on the part of any carrier.

Do not pay any collector without obtaining printed receipt, which please keep. This may save trouble in future.

If, for any reason, you wish us to stop delivering the paper, you will help considerably by notifying the office instead of the carrier, who is liable to forget.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the "Companies Act," Revised Statutes of British Columbia, 1911, Chap. 39, Section 19

and

In the Matter of the Victoria Securities Limited.

NOTICE is hereby given that a Petition was, on the 27th day of June, 1913, presented to the Supreme Court of British Columbia by the above named Company to confirm an alteration of the said Company's objects proposed to be effected by a special resolution of the Company unanimously passed at an extraordinary General Meeting of the said Company held on the 19th day of May, 1913, and subsequently unanimously confirmed at an extraordinary General Meeting of the said Company held on the 27th day of May, 1913, and which resolution runs as follows:

"That the Memorandum of Association be altered, namely, by deleting sub-clause 14, of clause 3, of the Memorandum of Association, and by adding as sub-clause 19, the following: The Company shall not carry on any business or exercise any power specified in the foregoing clause which is business or a power of a Trust Company as defined by the 'Trust Companies Regulation Act.'"

AND NOTICE is further given that the said Petition is directed to be heard at 10.30 in the forenoon of Tuesday, the second day of September, 1913, and any person interested in the said Company, whether as creditor or otherwise, desiring to oppose the making of an order for the confirmation of the said alteration under the above Act should appear at the time of hearing by himself or his Counsel for the purpose, and a copy of the said Petition will be furnished to any such person requiring the same by the Company's Solicitors, Messrs. Crease & Crease, 410 Central Building, Victoria, on payment of the regulated charge for the same.

Dated the 4th day of July, A. D. 1913.

CONSIDER TENDERS.

Saanich Council Weighs Various Offers for Paving on Concrete Base.

The Saanich council met this afternoon to consider the tenders for the amended contract for the paving of the roads of Saanich on a four-inch concreté base with a surfacing of bitulithic material.

The tenders closed to-day and in order to avoid delay the reeve called the councillors together, so that the tenders could be opened at once.

FOR SALE--LOTS.

GUARANTEED SNAP—Fowl Bay road, near Fort, full sized lot, $1,200; $200 cash. P. O. Box 1060. a14

GUARANTEED SNAP—Holland Ave., double corner for $1,050; $50 cash. P. O. Box 1060. a14

DON'T MISS THIS—A choice, level lot on McNeil avenue, Oak Bay; 50x122 to lane; $400 below value; price $1,400. What offers? Open evenings. Herbert Cuthbert & Co., 635 Fort street. a18

CORNER, Haultain and Victor, splendid location for store, on new car line; price $2,100. Shaw Real Estate Co., Pemberton Block. a14

STABLE, 4 stalls, to rent, cheap. At 416 John street, Rock Bay. a14

FURNISHED ROOMS to let, with or without board. 1034 Burdette Ave. a14

CARD OF THANKS.

Thos. King, 549 Connaught road, wishes to extend his sincere thanks to his many friends for the kind expressions of sympathy and beautiful floral offerings during his recent sad bereavement.

THEOLOGICAL MEN TO MEET IN CONFERENCE

Annual Session Will Commence This Evening; Distinguished Speakers

Among the visitors who arrived this afternoon, or will arrive later in the day from points on the mainland, in connection with the Theological Conference which opens this evening in the First Congregational church are Principal Walter F. Adeney, D.D., M.A., lecturer at the University of Manchester; Professor James Moffatt, D.D., D. Litt., Yates professor of Greek and New Testament exegesis in Mansfield College, Oxford; Bishop Keater, of Tacoma; Dr. A. B. Lennard, of Seattle, and Dr. Crummy, Professor Taylor, and Professor Pidgeon, all of Vancouver.

This evening's session will consist of an address of welcome by Rev. Robt. Connell, president of the Ministerial Association, to which Dr. Adeney and Prof. Moffatt will reply; Right Rev. Frederick W. Keater, Bishop of Tacoma, and Dr. Klas, of Seattle, also being expected to speak.

The remainder of the evening will be devoted to registration of members and a social half hour.

To-morrow forenoon's session will be opened at 9.30 with devotional exercises conducted by the Right Rev. J. C. Roper; at 10 o'clock Dr. Adeney will give a paper on "The New Testament After Criticism"; at 11.30 Dr. Crummy will speak on "The Influence of Contemporary Jewish Thougnt on the New Testament."

Nearly all the papers give promise of very interesting subject-matter; the Thursday evening session, which is to be devoted in part to a discussion of the question of the Sunday school of the future, should be particularly interesting and informing.

Dr. Vance, of Vancouver, president of the conference, will preside, and the public will be welcomed at all meetings. The sessions will be continuous. This is the third annual conference of the Pacific Coast Theological Conference, which has now become an established institution holding it meetings annually in different cities along the Pacific coast, alternate years in Canada and the United States. Some effort, it is anticipated, will be taken during the present conference to establish the organization on a more satisfactory financial basis, this being the one conspicuous lack in an assembly which brings out some of the best theological discussion of the day.

OBITUARY RECORD

The funeral of the late Mrs. Emily Ellen street, who passed away on Sunday at the residence of her son-in-law, will take place to-morrow afternoon at 2 o'clock from the B. C. Funeral Parlors.

The death occurred yesterday morning at the Jubilee hospital of George Wilson Mappin, of Kelowna, B. C., who arrived in the city six days ago. He had lived in Canada twelve years, coming here from Sheffield, England, where his relatives are well known. He was 36 years of age.

The funeral of Mrs. Mary Elizabeth King, of 549 Connaught road, took place yesterday afternoon from the B. C. Funeral Parlors, Rev. J. A. Wood, officiating. The following acted as pallbearers: Messrs. T. Bailey, C. F. J. Hinds, H. Watson, T. Watling, F. R. Wright and R. P. Dick.

The funeral of the late Charles Thomas Daykin, who passed away at the Jubilee hospital on Sunday evening, took place at 2.30 this afternoon from the B. C. Funeral Parlors, Rev. Gilbert Cook officiating. There was a very large attendance of the deceased man's friends, and many beautiful flowers. Mr. Giles presided at the organ, and played appropriate hymns. The following acted as pallbearers: Messrs. F. Maynard, G. Langton, J. P. Walls, jr., F. D. Hodds, J. J. Baird and L. Russell.

The funeral of the late Earl Raven took place to-day at 2.30 from the Sands-Fulton parlors, Rev. C. C. Crowston officiating. The following acted as pallbearers: Messrs. W. Pearce, J. Pearce, E. Carter and V. Woods.

MEETINGS

Welsh Society to Meet.—The Welsh Society meets Thursday evening at 8 in the Foresters' hall, all Welshmen being welcome. A social programme has been arranged in connection with the entertainment.

* * *

W. C. T. U. Central Union.—The Central Union of the W. C. T. U. will meet at 2.30 on Thursday afternoon next. Meetings henceforth will be held in the Y. W. C. A. instead of the Y. M. C. A. as hitherto.

HIS RUIN.

The late Mr. Pierpont Morgan was always a silent man, and he would sometimes champion the silent with a story.

"Old John Bates, an upholsterer," so the story began, "was renowned for his silence. People who had been his customers for a generation had, many of them, never heard a word from him except 'Good morning. Five dollars. Thank you. Good day.' Old John, in fact, cultivated silence as a genius cultivates his art.

"A patron one day said to John:

"'What's the best kind of mattress?'

"'Hair,' was the reply.

"The patron, some twenty years later, had occasion to buy another mattress, and again he asked:

"'What's the best kind, John?'

"'Cotton.'

"'Cotton,' the patron cried, 'Why, you told me twenty years ago that hair was the best.'

"The old man gave a quaint sigh.

"'Talking has always been my ruin,' he said."

SOOKE LAKE FIRST

Water Commissioner Advises City Council Respecting Tours of Inspection.

On Thursday the city council is to visit Sooke lake, going over the summit and making a detour at Goldstream in order to see the situation at Humpback reservoir site. This is the recommendation of Water Commissioner Rust as to the best course to be taken. Sooke harbor will be visited another day.

Assistant Engineer Foreman says that while the connection of the water supply for the northwestern portion of the city from Goldstream was made yesterday, some 100,000 to 150,000 gallons will still be used from Elk lake for Saanich consumers. All the water is being filtered. The temporary connection is now practically carrying its maximum capacity across the trestle, but with colder weather the consumption will have a tendency to decrease. Smith's Hill reservoir is steadily gaining, but the full effect of the cooler conditions will not be appreciated for a few hours yet.

CHARGE DISMISSED

No Intent to Steal Shown in Taking of Horse and Buggy for Carnival Drive.

Fortunately for Ferdinand Quinker the police magistrate this morning took the view that his action in taking the horse and buggy belonging to Robert N. Walker, Strawberry Vale, and driving about in it on Friday night last, did not constitute a theft, and the charge was dismissed.

The case for the prosecution was heard on Saturday forenoon and to-day Mr. Quinker went into the witness box and gave his version of the occurrence in reply to the questions of his counsel, Frank Higgins.

Defendant said that he had been in business here since the spring of 1908 as a ladies' tailor. On Friday evening, while he as in the Regent bar, a young man came up to him and asked him to buy a horse and buggy. When he said he did not want to, the other asked him to take a ride with him, and they went to Johnson street, where the young man untied the horse from in front of the St. James hotel. They had a drive and returned to the same place for a drink. This was repeated, and they were out for the third drive, always at the invitation of his new friend, when Mr. Walker called to him.

"I thought it was some one finding fault with the way I was driving, Mr. Quinker went on, "and I said I could drive as well as any of them and I would show them. Then some one caught the horse and stopped it and Mr. Walker asked me what I mea stealing his horse. I was quite indignant with him for interfering and asked him, if it was his, why he left it on the street so long, for I had been driving it for three-quarters of an hour. He said he would have me arrested, and I said if I thought I had stolen it I would go with him to the police station without his having to call a policeman, and I went."

To Deputy Chief Palmer the defendant said he knew what he was doing, but he could not explain why he went out for a drive with a complete stranger.

James A. Griffith, Ernest Schaper and Herbert R. Ermer testified to the high repute of Mr. Quinker as an honest and straightforward man in his business dealings.

Magistrate Jay said that theft was the taking of a thing fraudulently and without color of right. From the fact that the rig had been driven about frequented streets, and that it had several times been driven back to the place from which it was taken, it would seem that it was rather a drunken escapade than any attempt to steal. Under the circumstances the defendant was entitled to be dismissed, but he should take warning from the affair.

PLAY PLEASES

"Our Irish-American Cousin" Presented With Success by Williams Players.

In "Our Irish-American Cousins" the Williams Stock Company is again well cast this week, and the success of the first performance last evening was the result of good work by all the members of the company.

Briefly told, the story of the play is that Benjamin Lovell, an English gentleman, is deeply in debt to an unscrupulous money-lender named Sprackling, who wants to marry Lovell's daughter Elsie. She is in love with Victor Belmont, a young officer in the army, but her father is opposed to the match because of Belmont's poverty. The Irish-American cousin, Teddy O'Malley, arrives from the States on a visit, arrays himself on the side of the lovers with determination, and furnishes the means for the father to get out of his financial difficulties. Incidentally he falls in love with Kate Tyson, a ward of Lovell.

Miss Page has a congenial part in the role of Elsie, to which she is in every way fitted. The ward is well played by Miss Graham. Mr. Mitchell shows himself a gallant young lover. Mr. Sullivan does excellent character work as Sprackling, and Mr. Aldenn acts finely in the bright and witty part of the cousin. The other members of the company are all good in their respective characters.

Personal.

Miss Leitch, president of the King's Daughters, will go to Duncan to-morrow to attend the meeting of the board of directors of the King's Daughters' hospital there.

* * *

Mrs. Fred. Williams returned yesterday morning to the Mainland, after nearly a week's visit with relatives in the city.

Framed in the cavernous fireplace sits a boy,
Watching the embers from his grandsire's knee;
One sees red castles rise and laughs with joy;
The other marks them crumble silently.
—Charles Henry Luders.

WANT NEW SCHEDULE FOR WORKING MEN

Ward Four Saanich Ratepayers' Association Will See V. & S. Superintendent

A deputation will wait on Superintendent F. Van Sant, of the Victoria & Sidney railway, to-morrow evening to urge upon him the desirability of making a change in the schedule for the gas-electric car now operating on that road, so that there may be a car arriving in the city at 7.30 a. m., and leaving at 5.30 p. m., for workmen only, at a cheap fare, and stopping at Hillside (at present only a hait) Saanich road, Lake road, Ralph street, Rogers' Crossing and Glanford avenue. The subject was discussed at a meeting of the ratepayers of ward four of Saanich last evening, and it was left to the members of the deputation to present the petition, which has been widely signed.

The association being dissatisfied with the delay on the part of British Columbia Electric railway officials in deciding on the points laid before them some time ago for improving the service to Wilkinson in the interests of the working men resident in the district, the executive of the association was named a committee to draft a letter expressing the voice of the meeting to be sent to the daily papers. The members declaring that this was the best means of directing public attention to the proposals for cheaper fares and more frequent service.

While not any more satisfied than in the past with the progress on the road paving scheme, the Ratepayers' Association did not get much farther, although an injunction was threatened if the contract is let on certain lines anticipated.

A resolution was passed calling on the municipal council to complete the grading work on Carey road and on Burnside road before commencing any further work, in view of the fact that the present condition of the road is detrimental to vehicular traffic. President George Rogers occupied the chair.

SCOTCH PROGRAMME

Caledonian Society Arranges Events for September 1 at Fair Grounds.

The programme of events to be given at the Victoria fair grounds on September 1, under the auspices of the Caledonian Society and Victoria Pipe band, will be practically the same as last year, and will consist of local track events, local piping and dancing, open track events, and open piping and dancing. The games committee and officers have not yet all been appointed, but the following will take charge of various departments of the arrangements: P. J. Riddell, president; Capt. Chambers, judge of piping and dancing; Mr. Blackstock, referee, and Thos. Muirhead.

First, second and third prizes are being awarded for each event, money prizes being offered in nearly every instance for the local track events' winners and for the open piping and dancing. The local pipers and dancers and those who take part in the open track events will be rewarded in the majority of instances with medals.

The following is a programme of the events: Local track events—Boys' race (under 12); girls' race (under 12); 440 yards race; hammer throwing; broad jump; putting the shot; 100 yards dash; 28-lb. weight.

Local piping and dancing—piping marches; piping Strathspeys and reels; dancing Highland fling; dancing sword dance; dancing seaun treubhais; dancing sailors' hornpipe; best dressed boy in Highland dress; best dressed girl in Highland dress.

Open track events—Throwing hammer, half mile, tossing caber, putting the shot, high jump, 440 yards, one mile, wrestling, pole vault.

Open piping and dancing—Piping marches, Strathspeys and reels, dancing Highland fling, Irish jug, sword dance, reel O'Tulloch, sailors' hornpipe, seaun treughais, best dressed Highlander.

INJURIES PROVE FATAL.

Elbridge M. Shaw Succumbs to the Hurt Sustained in Motor Car Accident.

The motor car accident by which one of the Tilicum visitors from Seattle, Elbridge M. Shaw, was injured near the terminus of the Oak Bay car line, ended fatally yesterday afternoon. About half-past three o'clock Mr. Shaw succumbed to his injuries, which from their serious nature had all along given rise to much anxiety.

When Mr. Shaw got crushed between the motor car and the street car with which it came in collision he sustained the fracture of several ribs and the end of one of them penetrated the lungs. Pneumonia supervened and carried the victim off.

Coroner Hart held an inquest this afternoon, at the Royal Jubilee hospital. After the inquest the body was removed by the B. C. Funeral Company and placed on board the steamer Princess Charlotte for Seattle. It was accompanied by Mrs. Shaw and Miss Winifred Shaw, who came over on yesterday's early boat.

Mr. Shaw was in his forty-eighth year and was well known in the Sound city, where he had resided for many years. He was a druggist by profession and conducted Shaw's Pharmacy at 918 Second avenue. He was a prominent member of the Tilicums and came over here on Friday with them to assist in the carnival parade.

Mr. Inverarity, who is secretary of the Tilicums and of the Ad Club, was taken home yesterday afternoon, having sufficiently recovered to travel.

See Largest Salmon Cannery in the world in full operation at Bellingham, August 15. S.S. "Chippewa" Excursion, $1.50 round trip.

LOCAL NEWS

County Court Chambers.—Judge Lampman held county court chambers this morning and heard a number of motions of a minor character.

o o o

Glasses for Reading.—Call and let me show you some of the latest patterns in lenses and mountings. Frank Clugston, Optician and Optometrist, 65a Yates St. (corner Douglas). Suite 8.

o o o

Alleged Fruit-Stealing.—Owing to the press of work in the police court to-day the cases of alleged stealing of fruit from Saanich fruit-growers will not come on until Thursday.

o o o

French Visitor Here.—F. Santeillier, representing important commercial interests in France, arrived in the city last evening on a visit to British Columbia, and registered at the Empress hotel. It is understood he will look into investments while on the coast.

o o o

Committees to Meet.—The harbor and navigation committee of the Board of Trade has been called for Friday morning to consider the various matters which will be presented to the minister of public works while on this coast. The reception committee meets to-morrow morning.

o o o

Alleged Assault.—In Esquimalt police court, before Magistrate Jay, this morning James Takonis was charged with committing an assault on John Papas at Esquimalt on Wednesday last. The case will be heard to-morrow afternoon at 2 o'clock. W. C. Moresby is acting for the plaintiff and Frank Higgins for the defence.

o o o

Preparing for New Term.—To-morrow evening's meeting of the school board being the last regular meeting before school begins on August 25, a number of routine matters in preparation for that event will be decided. A list of the assignment of teachers for the coming term will probably be submitted by the superintendent of schools.

o o o

Maintenance Order.—After hearing the evidence of husband and wife Magistrate Jay this morning order William D. Muir to pay his wife $7.50 a week. The parties were married in Vancouver on December 10 and twelve days later the husband left and they have not lived together since. That she never will do so again was the solemn assertion of the wife in court to-day.

o o o

City Finance.—The monthly report of Comptroller Raymur shows that the month of July closed with an overdraft of $14,883.92 at the bank, the total receipts having been $423,368.65. The debentures sold through the Dominion Securities Corporation totalled $1,172,395.16. This has been placed to the city's credit, less $24,374 for discount and charges.

o o o

Wandering on Street.—George Hitch, who last week tried to end his life by jumping over Point Ellice bridge, was found this morning wandering about the streets. He told the constable who found him that he wanted to get to Swan lake but his actions made it plain that he needed medical attention. He will be examined as to his sanity. Another man in the cells to-day is believed to be suffering from delirium tremens.

o o o

Building Permits.—Building permits took an upward tendency yesterday. In addition to those issued during yesterday morning, the following were authorized: Dwelling costing $1,000 on Shelbourne street for W. J. Jones; dwelling for Mrs. Rosa Terry, at 951 Hereward road, costing $1,000; dwelling for Mr. Foubister, on Walnut street, costing $1,800; dwelling for R. M. Sanburn on Arnold street, costing $3,500; dwelling on Selkirk avenue for W. C. Patterson, costing $4,100; a garage for A. L. Cameron on Belmont avenue costing $150; and a temporary dwelling for Connor Feldon on Cecilia street.

o o o

Accused as Vagrant.—Charles Matthews, charged with having no visible means of support, was remanded in police court to-day on his own recognizances to come up to-morrow. Before then he will have shaken the dust of the city off his shoes and so relieved the city from the expense of looking after him. He was warned to get out of town on Wednesday last by Detective Turner but did not go. He told the court that if he was allowed to go he would go to Shawnigan or somewhere.

o o o

Attractive Numbers.—Among the interesting numbers which will be given in the course of the programme at his organ recital this evening at St. John's church, Mr. Clarence Eddy will play Johann Sebastian Bach's Taccata in F. Major; Camille Saint-Saens' Fantasie in D. Flat; Porpora's Fugue in E. Flat, and two other historic classics—Couperin's Rondo and Clerambault's prelude in F. Major. The programme will conclude with Charles Marie Widor's Toccata in F. Major from that composer's Fifth Organ Symphony.

o o o

Excursion to Bellingham.—The Island Navigation Company will run an excursion from Victoria to Bellingham, Wash., August 15, on account of the Mount Baker Marathon celebration, which takes place on that date. The people of Bellingham offer substantial prizes for the quickest time made from Bellingham to the summit of Mount Baker and return, and this marathon is held every year. There will also be other interesting events at Bellingham the same day. The S.S. Chippewa has been detailed for this excursion, and will leave here at 8 a. m., and returning, will leave Bellingham at 7 p. m., arriving back here at 10 p. m.

o o o

Goes to Privy Council.—The court of appeal—Chief Justice Macdonald, Mr. Justice Irving and Mr. Justice Martin present—this afternoon granted leave to the British Columbia Electric Railway Company to appeal to the privy council as of right in the case of McElman vs. British Columbia Electric. The plaintiff, a sawmill owner in the upper country, lost his mill by fire on August 22, 1911, the cause being a heavy load on the wires supplying current to his mill through some disarrangement of the wires of a high tension line following a storm. The jury awarded him $8,500, and this the court of appeal upheld, dismissing the company's appeal on July 22. Hon. A. E. McPhillips, K. C., appeared for the company this afternoon.

o o o

Only $1.50 to Bellingham and Return, S.S. "Chippewa," August 15.

o o o

Apple Blossoms and Fruit.—At the residence of Mr. Robert Penman, Blackwood avenue, a young apple tree bearing its first fruit is again producing fresh blossoms, predicating a second crop of apples late in the season. The most learned pomologist if asked to explain the phenomenon could only reply, it's the climate.

o o o

Oak Bay Council.—The municipal council of Oak Bay met for a few minutes last night after the session of the board of works was over, and transacted some matters of routine business which had been accumulating for some three weeks. The reports of the engineer and the formal reports from the board of works were read and passed, but these contained nothing of special interest.

TO FIND TREASURES OF LOST FLEETS

Salvage Attempts at Thirty Fathoms; British Divers Are to Try Their Luck

Stories of sunken Spanish galleons have brought into being a number of salvage syndicates, which periodically revive their shareholders by showing them a few doubloons, veritably recovered from the sea bottom, and mounted on velvet for the purpose of exhibition at annual meetings.

Nothing much else has been floated though, for there is no "safe deposit" like thirty fathoms of tides. It is remarkable that ships—lots of them—which really did sink 85 years ago in Navarino Bay have not attracted the eager attention of salvage men till to-day. At the present time there are estimating eyes on that sunken fleet of Turkish and Egyptian ships, and this year an attempt is to be made by an English company to recover what is possible. To this end the Greek government has given its permission.

Time Limit of Seven Years.

A London "Daily News" interviewer was much surprised to find the promoters of this enterprise begin a statement of their case by shyly deprecating the word "treasure." "We are afraid the result of previous treasure hunts has been chiefly some highly interesting reports for the press. No; we are not treasure-hunting. We are going to try and recover material well known to be at a sea depth which is workable with the diving appliances we are going to use. There have been several tentative attempts at the vessels in Navarino Bay before, but they never came to anything—they were, in fact, stopped by the Greek government in their preliminary stages for various reasons. That government is satisfied with the names, particularly of the salvage engineers, in our affair, and we have a free field till 1920."

The Moslem fleets, which were destroyed by the Allied fleets under Admiral Codrington on Oct. 20, 1827, lie on a rocky bottom, at depths varying from ten to thirty fathoms, in a small landlocked bay which is tideless. Under some conditions the vessels at the greater depths are visible from a boat, and the Admiralty chart still marks the spot where the Turkish transports went down, in about ten fathoms, with the words "Sunken vessels." The vessels were of oak, copper sheathed, and fastened with huge quantities of bronze, brass and lead.

35-Ton Diving Bell.

It is necessary for a man who has been working in thirty fathoms to come gradually to the surface—so gradually as to occupy four hours in doing so, or he will certainly die. His body at that depth, in one hour, is saturated with nitrogen. As the chief vessels of the sunken fleets lie at depths of between twenty and thirty fathoms, the task is seen to be an impossible one with the usual apparatus.

But for the purposes of this salvage Mr William G. Fitzgerald, A.M.I.N.A., a salvage expert, has designed apparatus which provides the divers with the same protection afforded men working under compressed air in tunnelling operations. The work will be done from pontoons, and the men will be lowered to the bottom in a "bell" weighing, at the surface, 35 tons (but only one ton at thirty fathoms). This apparatus, cylinder shaped and divided into detachable upper and lower sections, contains an atmospheric chamber which the pontoon supplies with air.

"Path" to the Sea Floor.

The diver goes from that into an air lock, in which he is gradually accustomed to greater pressure, and from that into another air lock, allowing descent into the lower chamber and to the sea-floor. After work at a great depth, instead of going to the surface, the men will have the pressure taken off in the upper air lock—which, its inventor says, could be detached, if medical assistance were required, and sent to the surface, allowing a doctor to enter the atmospheric chamber.

"I have myself worked in 200 feet for 24 hours in Newport harbor, America, so for all practical purposes this action of this apparatus is known," declared Mr. Fitzgerald. "We shall begin work in September this year."

Fall Styles for Women and Children

MODELS OF MORE THAN USUAL GRACE AND BEAUTY

STYLES for the coming season embody many changes that will be appreciated by women who consider that clothes comfort is the first essential.

Of course, they are stylish and are here in a variety of new materials that are novel in weave, pleasing in appearance, warm and serviceable.

It will be a pleasure to tell you more about the new styles and to show the models to you if you will call at our store.

CHILDREN'S COATS come in some of the most sensible and pleasing styles that we have ever seen. Quite womanly but modified to make them becoming, well-tailored, and the materials are both smart and serviceable.

CHILDREN'S DRESSES come in Panamas and a variety of useful wool fabrics. As to the variety of colors and pretty styles, they must be seen to be appreciated.

IN THE MILLINERY DEPARTMENT we are showing new shapes in wool, felts, Austrian velours, beavers and coney seal. White and many delightful colors are to be had. Flowers, plumes of every description and all other necessary trimmings are to be had at a less cost than you may imagine.

STOCK MARKET WAS FIRM AND STRONG

Trading is Characterized by Heavy Covering Movement by Short Interests

(By F. W. Stevenson & Co.)

New York, Aug. 12.—The market was very firm with nervousness on the part of the short interests becoming quite pronounced owing to the relative lack of offerings. Trading was characterized by a heavy covering movement by short element, particularly in Steel as yesterday, which stimulated the whole list, closing at practically the best of the day with bullish enthusiasm very pronounced.

CORN STRENGTH IS IMPARTED TO WHEAT

(By F. W. Stevenson & Co.)

Chicago, Aug. 12.—Wheat prices had not much change, but were firmly inclined influenced by corn strength. Total stocks showing increase of 2,172,000 bushels for the week. For the same time visible increase was 3,868,000 bushels, and the total visible much more than double that of last year. On the other hand, export clearances were nearly 1,200,000 bushels wheat and flour. St. Louis reported all mills buying wheat and cash markets tired. Leaders in the trade are inclined to wait for something more definite in the corn trade. Houses took offerings around bottom in corn, and although good rain reports came from many portions of the north half of the corn belt there was a hardening tendency in the market with best prices of the day recorded shortly before the close.

LOCAL MARKET VOID OF IMPORTANT BUYING

Quotations Well Upheld and No Evidence in List of Selling Pressure

Victoria, Aug. 12.—The local market remains void of important buying operations and thus continues quietly inclined. Quotations to-day were well upheld, demand being improved from yesterday and last week. Glacier, Coronation and Canada Consolidated were all three stronger, manifesting a firm inherent quality and in no one instance in the list is there evidence of selling pressure.

Both International Coal and Granby are nearing dividend disbursements and as is to be expected, inquiry is widening accordingly.

FLAX MAKES ADVANCE ON WINNIPEG MARKET

Winnipeg, Aug. 12.—The feature of to-day's market was the advance in flax due to an improving export demand. Wheat opened a little lower, but advanced during the course of trade. Wheat prices can only be called steady as fluctuations were within very narrow limits. Oats were fairly active and fractionally weaker. Ideal weather prevails over the West for bringing the crop to maturity rapidly.

Receipts were 277 cars inspected and 175 in sight. Liverpool market closed ⅝ lower, Paris unchanged to ½ up, Berlin unchanged, Budapest ⅝ lower, Antwerp unchanged. Corn recovered all lost ground and was very strong. Chicago oats also on up grade.

MONTREAL STOCKS.

Montreal, Aug. 12.—Although trading on the local exchange was quiet, prices held firm and in some cases advances were scored. C. P. R. was the leader, going from 219½ to 220½, Cement 32 to 31, Canada Cottons pref. 74 to 75, Crown Reserve 152 to 770, Detroit 70, Iron 45 to 45½, Textile 80, Power 203⅝ to 203⅞. McDonald 37½ to 36⅞. Richelieu 105 to 105⅞, Toronto Rails 137, Brazilians 90⅞ to 91½.

THE CITY MARKET

Few changes have occurred in the local markets this week, particularly in retail prices, Island potatoes at $1.25 being one of the few commodities in which a change is recorded. In wholesale prices, eggs show an advance to 37c. and 38c., and California Malaga grapes are reduced to $3. Crab-apples are temporarily off the market, and no quotation is offered.

MYSTERY SURROUNDS DEATH.

London, Ont., Aug. 12.—Considerable mystery surrounds the sudden death this morning of Mrs. W. McGinn, who moved here only a few days ago from Church street, Toronto. It is believed she met her death by taking an overdose of chloroform, but an inquest will be conducted to deduce any further facts.

BEEF TEA STIMULANT.

London, Aug. 12.—Liverpool physicians are interested in a case of a travelling salesman who shows every sign of alcoholic poisoning although a teetotaler. His illness is ascribed to excessive drinking of beef tea and other meat extracts, and physicians believe this indicates that nitrogenous stimulants have an effect on the system similar to that of alcohol.

CLOSING SESSIONS HELD OF MEDICAL CONGRESS

London, Aug. 12.—The closing day of the International Medical Congress saw all the sections in session.

"Leprosy" gave rise to an interesting discussion in the bacteriology section. Major E. R. Post, of the Indian Medical Service, said that after years of experience he had reached the belief that the disease in the great majority of cases was contracted through infected clothing. He emphasized the importance of segregation, and of sterilizing all clothing worn by lepers.

Speak to the Prairies

With the return of fine weather and the advent of that time of the year when the Prairie Farmer naturally allows his mind to picture a climate like that of Victoria and Vancouver Island, the time is ripe for you to reap the benefits of that favorable attention by talking to him personally about the merits of the Realty Propositions you have listed. He may come here. He may go to California. According to the local news of the Prairie Villages and wayside Hamlets, a majority of them are going south. NOW IS YOUR OPPORTUNITY TO ATTRACT ATTENTION THIS WAY.

We can supply you with the names and addresses of thousands of the most well-to-do farmers in Manitoba, Saskatchewan, and Alberta. We can write you a personal letter that will attract attention. We can do the whole work for you at short notice. WE GUARANTEE RELIABILITY OF OUR LISTS.

Ask for our solicitor to call.
Phone 3233 will get him.

MILLION AND HALF WANTED FOR SOOKE

Engineers Recommend Submission of Second By-law for Waterworks

LEECH RIVER WATERSHED WILL COST $573,725

Council to Visit Sooke Lake, Reservoir and Harbor; Set Special Meeting

Very important information on the Sooke waterworks contract was contained in a report on the tenders, submitted by Water Commissioner Rust to the city council last evening. The consulting engineer and Mr. Rust asked that an additional by-law for $1,500,000 be submitted to the people.

They recommended that tenders to the value of $800,000 be awarded, subject to that by-law; that the rivetted steel pipe contract should be awarded to the Macdonald Godson Company of Vancouver, at $444,998, instead of to the lowest tenderer, Jones and Rant, for $399,263, stating that Jones and Rant's tender "is based on a percentage basis, and is irregular." Also for the first time they stated the amount the Esquimalt & Nanaimo railway is asking for the Leech river watershed, 17,000 acres, $573,725.

Details of Cost.

The engineers divide the $1,500,000 as follows:

Amount to complete present arrangements	$1,170,000
Engineering and contingencies	100,000
Right of way, land damages.	500,000
Financial and legal expenses.	130,000
Total	$1,900,000
Less cash on hand	$ 400,000
	$1,500,000

The following four tenders were recommended:

Concrete flow line, Graff Construction Company, $308,160.

Rivetted steel pipe, Macdonald Godson Company, $444,998.

Telephone line, F. H. Folsom, $8,625, lowest tender.

Steel trestles. Although the tender of the Canadian Northwest Steel Company for $24,908 was lowest, the price did not include erection. A proposal had been submitted by the Graff Construction Company for the erection of concrete structures in place of steel for the sum of $40,000, on condition that they were awarded the contract for the concrete flow line. The latter offer was recommended.

Wants Cash Payment.

Included in the correspondence attached were letters from the Graff Construction Company and the Macdonald Godson Company.

The former said: "In view of the general chaotic financial situation and the fact that the authority to issue debentures or other form of securities for the payment of a portion of this project has not yet been received by the officials of the city, in the event of this being the lowest tender for the work, before signing the contract we shall expect the city of Victoria to demonstrate to our satisfaction its ability to make payments in cash as provided in the specifications."

C. A. Godson wrote under date of August 7: "Referring to our conversation of yesterday, in which you asked me in the event of our being awarded the contract for Sooke lake pressure pipe line, what moneys would be spent in Victoria, in this direction I have to say that all the men for the trenching work would be, as far as possible, engaged in Victoria, and also that the supplies for this work would be purchased there. An office would be maintaintd in Victoria, and we would give preference to Victoria residents for the men in charge. The hauling of the pipe for this work and the towage of the plates to our works and the pipe manufactured, we would use our very best efforts to give to a Victoria concern. We have already used a Victoria firm's figures on the hauling, and are in active communication with a towage company whose headquarters are in Victoria. "For your information all the money out of our total contract that would be spent in Vancouver would be that for the fabrication at our works, about $40,000."

To Visit Lake.

The council decided to hold a special meeting early next week to go into the whole question, and meanwhile to visit Sooke lake one day, and the reservoir and Sooke harbor another day, the first visit to be made on Thursday. A wire will be despatched to Wynn Meredith requesting his presence at the meeting at which the council is to decide on the question.

Mr. Meredith's absence occasioned considerable criticism from Alderman Cuthbert. The alderman indicated that he would post a notice for the cancelling of the contract with Mr. Meredith, as in leaving at critical times he forfeited his engagement. This practice was common with the consulting engineer, and it was time a stop was put to the act. Mr. Rust did the work, while the consulting engineer was paid $1,000 a month. The alderman also wanted to know in what way, if any, the specifications upon which those contracts were called had been altered from the original specifications.

Alderman Gleason advised against hasty action in getting rid of an official who had watched the work from its inception.

The council then adopted a resolution that the report and correspondence should be tabled till the inspection had been made.

Mr. Meredith submitted an interim report on the work, which indicated that very little had been done in the past three months, except organization for the letting of the tenders referred to in the correspondence.

No Power Provided.

R. T. Elliott, K. C., wrote with regard to the whole project, regretting that no provision was made for power generation. While his remarks obtained considerable sympathy, particularly from Alderman Cuthbert, Alderman Meston said the suggestions had come too late.

The communication, which contained the following, was referred to the water commissioner for a report:

"In September of last year I had occasion to communicate with your board in reference to the above contract, and, owing to your then enthusiastic confidence in your employees, my criticisms excited only aldermanic indignation.

"Having a substantial personal interest in civic welfare, and believing recent developments may have tended in the direction of causing you to give some consideration to unquestionable facts, I venture to address you again and point out that the Sooke Lake system, as now intended to be installed, is no good, by reason of the fact that it will be obsolete before it is completed, to say nothing of its costing more than a system which will give adequate results.

"The detailed facts are easy of ascertainment. The city of Seattle has had an increase in population in recent years from 50,000 to upwards of 200,000. Accounts as to the quantities of water used during the period of this increase are available; and the nature and capacity and cost of the waterworks system installed will be explained to anyone who will go to Seattle and ask for the information.

"I would therefore respectfully request your honorable board to procure and publish full details of the Seattle waterworks system in comparison with the estimated cost of, and estimated supply of, water to be brought through the Sooke Lake system as at present designed.

"In this connection also, it would be well to reconsider the power question. I am strongly of belief that in connection with any good plan for bringing water from Sooke Lake provision can be made for generating a substantial amount of power. It is a mystery to me why the city should be recommended to adopt a system which has for its only feature of absolute certainty the definite elimination of any possibility of generating power."

PREMIER OFF TO LONDON.

His Mission Has Some Mysterious Connection With Finance, According to Himself.

Sir Richard McBride left the city by this afternoon's steamer on his way to London, accompanied by Lawrence Macrae, his secretary. They will sail from New York on the Mauretania next week and expect to be away for six weeks.

In an exceedingly enigmatic statement given to the public the premier leaves it to be inferred that his mission is in some way to be followed by a greater flow of British capital into the province. With the agent-general, Hon. J. H. Turner, he will discuss emigration to British Columbia with a view to having it "more highly systematized than it is at present."

On his way east, the premier informs the electors, he will stop off at Ottawa to take up with the Dominion ministers "matters affecting the joint interests of the two governments."

ASK AUTHORITIES FOR CONTRIBUTIONS

Gordon Head and Cedar Hill Residents Will See Government About Mt. Douglas Ave.

It is the intention of the committee of residents of Gordon Head and Cedar Hill, who are pushing the Mount Douglas avenue proposal, to wait on Hon. Thomas Taylor, minister of public works, who returned to the city yesterday, to ascertain the opinion of the government on the matter. The ministers have already been approached, but they stated that they desired to see the proposal take more definite shape before reaching any decision.

So far as the land is concerned all is available except some of the right-of-way through the old church synod subdivision and land in some of the subdivisions where there is not the necessary 75 feet of width. The municipal engineer estimates that the cost of the boulevard to Mount Douglas, complete in every detail, would total $240,000, but cutting off some sidewalks and certain curbing the cost can be reduced to $180,000.

Of that sum it is proposed to raise $90,000 from the government, city and Saanich municipality in equal proportions, and to divert a portion of the paving funds allocated to Cedar Hill and Mount Tolmie roads to the amount of $74,000, and thus leave the balance to be raised by local improvement assessment.

The Saanich council has promised to consider the matter as soon as the government and city have decided to give their contributions. At the meeting of the city council last evening the aldermen resolved to submit a by-law to the people as soon as the government has signified its intention of contributing the promised share of $30,000. The by-law will be necessary before the city can make any contribution, which is fully justified in the opinion of the promoters by the portion of Shelbourne street to be absorbed in the scheme, and the city's interest in the park.

SAW DISTRICT ENGINEER.

Cumberland Deputation Laid Request Before Official of Canadian Northern Railway.

The deputation from the Cumberland board of trade which met Sir Richard McBride yesterday with regard to the location of the main line of the Canadian Northern Pacific Railway through that city, conferred with the district engineer, D. O. Lewis, this morning.

The Cumberland representatives were accompanied by the same members of the local board of trade, who met the premier yesterday on the matter. Mr. Lewis laid before the members of the Victoria and Cumberland boards of trade plans showing the various routes which have been surveyed, and the delegates learned that there were no physical difficulties. After explaining the cost entailed by a diversion, he pointed out that it was a matter entirely of dollars and cents as to the location. He promised to place the views of the delegation before the officials.

The Cumberland delegates left on the afternoon train, well satisfied with the result of their visit. Station facilities may be offered by the citizens to the C. N. P. company.

Out and in Again.—It was only yesterday morning that James Hughes was released from the city jail after serving a sentence of ten days for being intoxicated on the streets, and before night he was back in the same place on a similar charge. When he was called this morning he insisted that he had not been drunk yesterday, and as the constable who arrested him was on night duty and was sleeping when court was in session the case was remanded until to-morrow for his appearance. Hughes got very abusive as he was taken back to the cells.

COMMITTED FOR TRIAL

Chinaman Sent to Higher Court on Charge of Stealing Woman's Ring.

Electing to be tried by a higher court, Quong, a Chinese, was to-day committed by Magistrate Jay to stand his trial on a charge of stealing a gold ring, set with a ruby, the property of Mrs. Emma Shaw, 926 Humboldt street, where he had been employed as a house servant.

W. C. Moresby defended the accused, and reserved his defence. The evidence of Mr. Shaw and the detectives established a prima facie case.

Benjamin Shaw stated that Quong was in his employ up to Friday, when he was arrested on a complaint laid by the witness. The ring, which he last saw in the house on Wednesday and next in the detective office, has been in the possession of his wife for twenty-three years. It had been taken some time on Thursday. There were also missing an oval brooch set with diamonds, a small brooch in shape of a wish-bone studded with diamonds, four pairs of scissors, a silver-plated corkscrew and, most serious loss of all, a war medal. Quong had been in the house for five or six weeks, Mr. Shaw said, and had been one of the best workers they had ever had.

In reply to a question as to the value of the ring, from Deputy Chief Palmer, who was conducting the prosecution, Mr. Shaw was going on to say what he thought its original value was when Mr. Moresby objected. To indicate the sentimental value of the ring the witness said that counsel had not enough money to purchase it, but for legal purposes he put its value at ten dollars.

Acting-Detective Sergeant Carlow told the court that on Friday Detective Macdonald had brought the prisoner to the detective office. Shortly after Detective Murray and himself took the man to 534 Fisguard street, where Quong had some conversation with the proprietor of the store downstairs and then brought them upstairs to his room. He unlocked the door and out of his trunk took the ring, which he handed to them.

Detective Murray gave corroborative evidence, and the accused was committed.

Some valuable observations of the upper atmosphere are now being conducted under the auspices of an international commission which was organized some time ago. The commission has two observatories under its immediate direction; one on the peak of Teneriffe and one in Spitsbergen. The former has made observations of the trade and antitrade winds up to an altitude of 11 miles by means of more than 800 ascents of pilot balloons. The latter is making important researches on the atmospheric circulation around the North Pole, especially in co-operation with various Arctic expeditions.
